No. 3163.—The 28th June 1913.—The following draft of rules which the Governor in Council intends to make under section 24 of the Provident Insurance Societies Act, 1912 (V of 1912), is published, as required by sub-section (*3*) of that section, for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 1st August 1913, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

H. F. SAMMAN,
Offg. Secy. to the Govt. of Bengal.

DRAFT RULES.

PART I.

Preliminary.

1. These rules may be called the Bengal Provident Insurance Societies Rules, 1912.
Short Title.

2. In these rules, unless there is anything repugnant in the subject or context—
Definitions.

(*1*) "the Act" means the Provident Insurance Societies Act, 1912;
(*2*) "the Appendix" means the Appendix to these rules; and
(*3*) "Society" means a Provident Insurance Society, as defined in clause (*8*) of section 2 of the Act.

3. The provisions of the Act shall, in addition to the contingencies of birth, marriage and death mentioned in section 2 (*8*) of the Act, extend to the receipt of premiums or contributions for insuring money to be paid on the happening of any of the following contingencies, or of any other uncertain event coupled therewith, and shall apply to any society receiving such premiums or contributions, namely:—
Application of the Act

(*1*) the necessity to provide for the education of dependants;
(*2*) endowment of members at any age;
(*3*) incapacity caused by disease, physical or mental;
(*4*) the erection of a hut or a house for habitation;
(*5*) pilgrimage;
(*6*) purchase of agricultural implements and plough-cattle;
(*7*) *upanayan*, or wearing of the holy thread ceremony;
(*8*) endowment for children on their attaining a certain age;
(*9*) *rasamut*, or circumcision;
(*10*) baptism (among Christians);
(*11*) confinement, } in the case of women;
(*12*) widowhood, }
(*13*) funeral expenses of a policy-holder's (or member's) near relation;
(*14*) relief or maintenance of members, or of their wives, children, fathers, mothers, brothers or sisters, or nephews or nieces, or of wards, being orphans of members, in old age, or in widowhood;
(*15*) relief or maintenance of the orphan children of members during minority;
(*16*) provision of proper medicine or medicinal attendance for members;
(*17*) a grant of temporary assistance to the widows and children of deceased members;
(*18*) provision of assistance to members when travelling in search of employment;
(*19*) provision of assistance to members when in distressed circumstances; and
(*20*) a guarantee of the fidelity of any member.

PART II.

General.

Insurable interest

4. (*1*) No Society shall, in accordance with section 4 of the Act, issue a policy to anyone insuring money to be paid on the death of another person (no matter how closely related), without satisfying itself by written evidence that the former has a legal insurable interest in the life assured, and that the latter gives his consent to the insurance being effected.

In conformity with section 15 of the Act, a copy of the particulars of the policies issued each year, in Forms Nos. 8 and 9 in the Appendix, prescribed by rule 16 (*2*), shall, after being duly signed by the Chairman and two Directors of the Society, and the principal officer and the Managing Agents (if any), be sent to the Registrar along with the accounts for that year.

(*2*) A Society will be liable to fine, in accordance with the law, if it accepts payment of any premium under a policy of life assurance issued after the commencement of the Act, except either from the life assured, or from the wife, husband, child, parent, brother or sister of the life assured.

Rules to be made by Societies.

5. In addition to the rules required by clauses (*a*) to (*c*) of section 5 of the Act, every Society shall, within three months of the making and publication of these rules, or if not registered before their publication, before registration under the Act, make rules in respect of such of the following matters as are not already provided for in their rules: provided that the terms of existing contracts made before the date when these rules come into force, shall not be altered to the detriment of the policy-holders:—

(*1*) the persons who may take out policies and the persons on whose lives policies may be effected;

(*2*) the whole of the contingencies in respect of which the Society will receive premiums;

(*3*) the conditions to be complied with by persons applying for insurance in respect of each class of contingency, stating the payments to be made—

- (*a*) on application,
- (*b*) on admission,
- (*c*) as monthly or other periodical premiums or contributions, and the period for which they are payable,
- (*d*) as fine or other charges for late payment of premiums or contributions, and
- (*e*) on any other account;

(*4*) the maximum number of policies under each different scheme which a single person may hold;

(*5*) the conditions under which any policy-holder may become entitled to any of the benefits assured and, in cases of Societies (hereinafter called Dividing Societies), where the premiums or other contributions are divided up among policy-holders, whether those entitled to payments will share equally or in what manner they will share; and the period, if any, during which policy-holders are not entitled to receive payments:—

Provided as follows:—

- (*i*) if any benefits of whatever kind are determined by lot or ballot, the said conditions must require full particulars of such benefits;
- (*ii*) in the case of Dividing Societies, if any advance or loan is guaranteed after payment of premiums for a stated number of years, the said conditions must require particulars of such advance or loan;

(*6*) disqualifications due to change of occupation, residence, or any other specified cause;

(*7*) the consequence of delay in paying any premium, fine or other contribution, and the conditions under which the right to full benefit will be restored to a policy which has been altered in any way in consequence of any payment being made late;

(*8*) the nature of the notice given to policy-holders of any required payment of premium before the benefits under the policy lapse or are modified;

(*9*) the terms under which any policy may be—

(*a*) surrendered for a cash payment, or

(*b*) kept in force for a reduced benefit without liability to payment of further premiums;

(*10*) the qualifications; method of appointment; period of service; method of removal; method of and maximum remuneration; and powers of the Directors, Trustees, Managers or Managing Agents, Secretary and other officers of the Society;

(*11*) the rates of premiums or contributions, and the period during which they are payable, and where payable;

(*12*) the maximum amount payable to a policy-holder or contributor under each class of policy;

(*13*) the principle on which the amount payable to a policy-holder or contributor or his legal representatives on the maturity of a policy is determined;

(*14*) the nature of the evidence required to prove birth, marriage, death or other event on the occurrence of which the insured amount is payable;

(*15*) the method of distributing such surplus as shall have been found to have been earned, amongst the policy-holders or contributors and the shareholders;

(*16*) the circumstances in which policies may be forfeited or renewed;

(*17*) the application of the funds of the Society (other than surplus funds for investment);

(*18*) the procedure to be adopted in making rules for the Society, and in altering or rescinding any such rules;

(*19*) the appointment and remuneration of auditors: provided that any rules on this subject must provide that the auditor or auditors shall be appointed by the Society annually, and that in the case of a Society having a share capital, such appointment shall be made by election at the annual general meeting of the shareholders;

(*20*) when the business of Provident Insurance is combined with any other business, the method of apportioning the income and expenses between each class of insurance and such other business;

(*21*) in the case of a Society having a share capital, the maintenance of a register containing the names and addresses of all the shareholders;

(*22*) the holding of a general meeting within a period of not less than one month, nor more than three months, from the date of registration, which meeting is to be called the statutory meeting;

(*23*) the holding of a general meeting at least once in every calendar year, and not more than fifteen months after the holding of the next preceding general meeting;

(*24*) the method of convening general meetings, the number of members constituting a *quorum*, the method of voting thereat and the business that may be transacted thereat, specifying in detail:—

(*a*) that the Revenue-account and Balance-sheet in the prescribed forms, and verified and audited in the prescribed manner, must be submitted to the annual general meeting, and that the auditor's report thereon must be read to the members assembled,

(*b*) the rights (if any) of policy-holders to vote at a general meeting of the Society, and

(*c*) the extent to which the policy-holders are to be represented on the Board of Directors;

(*25*) the occasions on which extraordinary meetings may be called, and the procedure to be followed in convening them;

(*26*) the authority by which the Society may be dissolved;

(*27*) the following methods by which a registered Society may terminate or be dissolved, in addition to compulsory liquidation as prescribed by the Act:—

(*a*) upon the happening of any event declared by the rules to be the termination of the Society; or

(*b*) by the consent of five-sixths in value of the policy-holders and shareholders, and also by the written consent of every person receiving or entitled to receive any relief, annuity or other benefit from the funds of the Society, unless the claim of that person is first duly satisfied, or adequate provision is made for satisfying that claim; and

(28) the procedure to be followed when a Society is to be wound up voluntarily, specifying:—

(*a*) the procedure as to the appointment of a liquidator or liquidators, their remuneration and removal,

(*b*) that the property of the Society shall be applied in satisfaction of its liabilities *pari passu*, and subject thereto, shall be distributed among the members according to their rights and interests in the Society,

(*c*) that on the appointment of a liquidator or liquidators, all the powers of the Directors shall cease, and

(*d*) the procedure to be adopted by a Committee of inspection appointed by the Registrar under these rules for the purposes of a voluntary winding up of a Society.

Copy of Society's rules to be sent to Registrar

6. A copy of all rules made by any Society under rule 5 shall be sent to the Registrar within fifteen days from the date of their adoption by the Society.

Amendments in rules of Society

7. No rule of a Society shall be amended except by a special resolution as defined in section 77 of the Indian Companies Act, 1882, and such amendments shall not detrimentally affect the terms of existing contracts made before the date when these rules come into force. A copy of every amended rule of a Society shall, in accordance with section 8 (*1*) of the Act, be sent to the Registrar within fifteen days from the date of its final adoption.

Copies of rules and amended rules to be certified

8. The copy of the rules or amended rules of a Society required to be forwarded to the Registrar under sections 6 and 8 of the Act, shall not be accepted for registration, unless it is certified to be a correct copy and is signed by two Directors of such Society, and the chief officer and Managing agents (if any).

Right of shareholders and policy-holders to a copy of amended rules

9. A copy of every alteration in the rules of a Society shall be sent free of cost to each shareholder and policy-holder within a month after registration of such rules.

Certificate of Registration

10. On the registration of a Society, the Registrar shall grant a certificate to the Society in Form No. 1 in the Appendix; and on the registration of any other documents authorized or required to be recorded or filed he shall grant a certificate in Form No. 2 in the Appendix.

Money to be sent to Treasury

11. All monies received in respect of a Society shall be remitted to the Treasury, if possible, on the day they are received or, if that is found impossible, on the following day.

Registrar's Report.

12. The Registrar shall submit to the Government an annual report on the working of the Act, which shall include the accounts of all Societies sent to him under section 14 of the Act, together with the following statements and documents for the previous official year, namely:—

(*1*) a statement showing the number, names and registered offices of all Societies registered, with the date of registration;

(*2*) a statement showing the number and names of all Societies wound-up, or otherwise become defunct;

(*3*) a statement showing the receipt of fees realised under the Act;

(*4*) a statement showing alphabetically the number and names of Societies existing on the 31st of March of the preceding year;

(5) a statement showing the result of prosecutions, if any, under the Act;

(6) a statement of expenditure (if any);

(7) the Revenue-accounts, Balance-sheet and Abstracts of Actuarial Reports received during the year; and

(8) the Accounts submitted by liquidators appointed in pursuance of the Act or these Rules.

Right of policy-holder to certificate

13. Every policy-holder shall be given a certificate in which the conditions governing the policy as regards forfeiture, revival, surrender value and any other matters which the Society may think fit, and in the case of a Dividing Society, the method of division, shall be stated in full.

Right of policy-holders and contributors to receipt for payments

14. There shall be issued to every policy-holder and contributor a receipt for all payments made by him on a printed form issued from the head office of the Society to which such payments are made, bearing the signature of the Manager or other chief officer of the Society; and no agent of the Society shall be authorised to issue any other receipts for payments made to him.

Name of Society, how to be displayed

15. The name of every Society, which is required by section 12 of the Act to be displayed in a conspicuous position in legible letters on the outside of the office of the Society, shall be displayed in English and in the Vernacular of the district in which the office is situated: provided that in the case of offices of Societies in Calcutta, it will be sufficient if the name of the Society is displayed in English alone.

PART III.

Accounts and Documents.

Forms of accounts and other statements.

16. (1) THE Revenue-accounts, Profit and Loss Account and Balance-sheet shall be in Forms Nos. 3, 4, 5 and 6 (and, if necessary, 7), respectively, in the Appendix, and shall be signed by all the Directors of the Society and by the Manager and one of the controlling officers (*if any of these omit to sign, the reason shall be stated*).

(2) The following additional statements shall also be prepared each year in the following Forms, and shall be signed by the Chairman or Managing Director, and by the Manager or one of the other controlling officers of the Society, namely :—

Statements.

Forms.

No. 8.—giving particulars of the relationship between policy-holders and the lives assured in terms of rule 4(1);

No. 9.—giving particulars of the numbers of policies effected at different ages in terms of rule 4(1);

No. 10.—showing the magnitude of the Society's policy contracts;

No. 11.—giving particulars of the new business of the Society each year;

No. 12.—showing the additions to and deductions from the number of policies, and the sums assured thereunder;

No. 13.—showing the claims arranged according to the duration of the policies;

No. 14.—giving particulars for each year since the formation of the Society of the number of policies which have gone off the books for various reasons;

No. 15.—to be furnished by Dividing Societies, giving examples of the sums paid in past years on the maturity of each different kind of policy; and

No. 16.—to be furnished by Assessment Societies, giving examples of the premiums charged in past years.

(3) The Registrar may, on the application, and with the consent, of a Society, alter any of the said Forms as regards that Society for the purpose of adapting them to the circumstances of that Society.

17. The auditor's report prescribed by these rules shall be attached to the balance-sheet, or there shall be inserted at the foot thereof a reference to the report; and the report shall be read before the Society at the annual general meeting.

Auditor's report to be read at annual general meeting.

18. Every Society shall send a copy of the accounts, balance-sheet and statements mentioned in rule 16, with the auditor's report, as prescribed by these rules, to every shareholder and policy-holder entitled to vote at a general meeting, so that at least seven days shall intervene between the day on which they are sent and the last day on which notice of any resolution to be brought before the annual general meeting will be accepted. During the period from the date when such accounts and statements have to be sent to members until the time of their adoption in general meeting, they must, together with the auditor's report, be deposited at the head office of the Society; and a true copy of the said documents must be deposited at the principal branch or agency office in each of the Provinces in India in which the Society transacts business, for the inspection, free of cost, of any shareholder or policy-holder of the Society.

Right of shareholders and policy-holders to a copy of the accounts and auditor's report.

19. The accounts, balance-sheet and statements mentioned in rule 16, and the auditor's report, shall be laid before the annual general meeting within six months after the expiration of each financial year of the Society; and two copies in English, and one in the Vernacular (if any), of such accounts, balance-sheet and statements shall be sent to the Registrar immediately after they have been laid before the annual general meeting of the Society. The Chairman or Managing Director, as well as the Manager and one of the other controlling officers of the Society, shall sign all accounts, balance-sheets, abstracts, or statements sent to the Registrar.

Accounts and other statements to be presented at annual general meeting.

20. The receipt of an annual return by the Registrar shall not imply any approval of anything contained therein. An acknowldgement of the fact that documents purporting to be the annual returns of a particular Society have been received must be given by the Registrar; but such acknowledgement shall not imply that a valid return has been made or indicate approval of anything that it contains.

Registrar's receipt for annual returns.

21. The annual returns of a Society filed with the Registrar shall be open to inspection; and any person may procure a copy of any portion of such documents on payment of a fee of six annas for every hundred words, or fractional part thereof, required to be copied: provided that no inspection shall be allowed or copy given of any confidential report by the auditor to the members of a Society.

Annual returns to be open to inspection.

22. A copy of the accounts of a Society, after being passed at the annual general meeting, together with a copy of each resolution adopted at such meeting, shall, within one month from the date thereof, be sent to each share-holder and to each policy-holder.

Right of share-holders and policy-holders to a copy of accounts and resolutions passed.

23. If the general meeting before which the accounts are laid does not adopt them, a statement of the fact, and of the reasons therefor, shall be annexed to the balance-sheet, and to the copies thereof required to be filed with the Registrar.

Statement required when accounts not adopted.

24. Any share-holder or policy-holder entitled to vote at a general meeting of the Society shall be entitled at any time to be furnished by the Society with a copy of any part of any account, balance-sheet, abstract, statement, or report, which may have been submitted to the share-holders or policy-holders, at a charge not exceeding six annas for every hundred words or fractional part thereof.

Extra copies of accounts, statements or reports.

25. The register of members required, by section 10 of the Act, to be kept by every Provident Insurance Society which is not registered under the Indian Companies Act, 1882, shall be kept in Form No. 17 in the Appendix.

Register of members.

26. A register of all life assurance policies issued at any time, whether or not they are now in force, shall be maintained in Form No. 18 in the Appendix, or as nearly in accordance therewith as circumstances will permit.

Register of Life Assurance policies.

Register of policies other than Life Assurance.

27. A register or registers of all policies other than those of life assurance now in force, and of those issued hereafter, shall be maintained in Form No. 18 in the Appendix, or as nearly in accordance therewith as circumstances will permit.

Registers and books to be kept by Registrar.

28. The following registers and books shall be kept by the Registrar:—

(1) an alphabetical Index Register of all Societies registered;

(2) a cash-book, in which shall be entered day by day all receipts and disbursements (if any);

(3) a duplicate chalan-book, which shall contain particulars of the cash sent to the general Treasury;

(4) a duplicate receipt book in Form No. 19 in the Appendix; and

(5) a Register of all Societies in Form No. 20 in the Appendix, in which the Registrar shall enter the names of all registered Societies in the order of their registration, numbering each Society consecutively, and allotting two pages in the Register to each Society.

PART IV.

Separation of Funds.

Separate accounts in respect of each class of assurance.

29. (1) In the case of a Society transacting other business besides that of life assurance, a separate account shall be kept of all receipts and disbursements in respect of each class of assurance business prescribed under the Act, commencing with the transactions of the financial year immediately following the adoption and publication of these rules; and the receipts (less the disbursements) in respect of each class of business shall be carried to and form a separate fund with an appropriate name: provided that nothing in this rule shall require the investments of any one fund belonging to a class of business prescribed under the Act to be kept separate from the investments of any other such fund. The investments of any fund belonging to a class of business not so prescribed shall be kept separate, and shall not be included in the balance-sheet (Form No. 6 in the Appendix) furnished in respect of the funds belonging to such business of the Society as is prescribed under the Act.

(2) Nothing contained in sub-rule (1) shall apply to a Society established before the commencement of the Act—

(*a*) which does no business other than that prescribed under the Act, and by the terms of whose deed of settlement or articles of association the whole of the profits of any business other than life assurance carried on by the Society is paid exclusively to the life policy-holders, or

(*b*) which transacts any class of business which is not prescribed under the Act, and by the terms of whose deed of settlement, or articles of association, the whole of the profits of any such class of business is paid exclusively to the holders of policies of any class of business which is so prescribed:

Provided that in cases (*a*) and (*b*) the liability to pay over the whole of the profits of such classes of business must be distinctly stated on the face of the contracts issued thereunder.

(3) No fund belonging to a class of assurance business prescribed under the Act shall be applied, directly or indirectly, for the purposes of any other class of business which is not so prescribed. The Life Assurance Fund shall be as absolutely the security of the policy-holders of that class as though it belonged to a Society carrying on no other business, and shall not be liable for contracts of the Society for which it would not have been liable had the business of the Society been only that of life assurance.

(4) Nothing contained in sub-rule (3) shall affect the liability of the Life Assurance Fund, in the case of a company established before the commencement of the Act, for contracts entered into by the company before such commencement.

Actuarial valuation in respect of ordinary life assurance business.

30. No Society which does life assurance business on similar lines to those adopted by ordinary life assurance companies, namely, by assuring a fixed sum payable at death or on survivance in return for a premium which is fixed at the outset for each age at entry, or by granting

annuities of any kind, shall either use any portion of the Life Assurance Fund towards payment of dividend, or allot any bonus to its life assurance policies, either by way of addition to the sum assured or amount of annuity, or as a cash payment or a reduction of premium, except as the result of an actuarial valuation conducted as prescribed by sections 8 and 9 of the Indian Life Assurance Companies Act, 1912. The Registrar may require any such Society to undergo such a valuation at any time it may choose before the year 1918, and once in every five years thereafter, and to submit the returns to him in the form prescribed by the Indian Life Assurance Companies Act, 1912.

PART V.

Auditors.

Qualifications of Auditors.

31. No person shall be appointed or act as an auditor of any Society, unless he is either—

(*a*) a member of an Institute or Society of Accountants in the United Kingdom constituted by Royal Charter;

(*b*) a member of the Society of Incorporated Accountants and Auditors; or

(*c*) the holder of a certificate from the Governor in Council entitling him to act as an auditor of Provident Insurance Societies.

Rules for the grant of certificates to Auditors.

32. The Governor in Council shall, by notification in the *Calcutta Gazette*, make rules providing for the grant of certificates entitling the holders thereof to act as auditors of Provident Insurance Societies, and may by such rules provide the conditions and restrictions on and subject to which such certificates shall be granted. Such a certificate shall not entitle the holder thereof to act as an auditor in any Province other than that in which it was obtained.

Persons who may not be Auditors.

33. None of the following persons, namely :—

(*1*) a Director or officer of any Society;

(*2*) a partner of such director or officer; and

(*3*) any person in the employment of such director or officer,

shall be appointed auditor of the Society.

Auditor to be appointed at annual general meeting.

34. Every Society shall, at each annual general meeting, appoint an auditor or auditors to hold office until the next annual general meeting.

Appointment of Auditor by Governor in Council.

35. If an appointment of an auditor is not made at an annual general meeting, the Governor in Council may, on the application of any member of the Society, appoint an auditor of the Society for the current year, and fix the remuneration to be paid to him by the Society for his services.

Appointment of first Auditors.

36. The first auditors of a Society may be appointed by the Directors before the statutory meeting, and if so appointed shall hold office until the first annual general meeting, unless previously removed by a resolution of the members of the Society in general meeting, in which case such members at that meeting may appoint auditors.

Vacancy in office of Auditor.

37. The Directors of a Society may fill any casual vacancy in the office of auditor, but while any such vacancy continues, the surviving or continuing auditor or auditors (if any) may act.

Remuneration of Auditors.

38. The remuneration of the auditors of a Society shall be fixed by the Society in general meeting, except that the remuneration of any auditors appointed before the statutory meeting, or to fill any casual vacancy, may be fixed by the Directors.

Powers and duties of Auditors.

39. (*1*) Every auditor of a Society shall have a right of access at all times to the books and accounts and vouchers of the Society, and shall be entitled to require from the Directors and officers of the Society such information and explanation as may be necessary for the performance of the duties of the auditors.

(*2*) The auditor shall make a report to the share-holders and to the policy-holders entitled to vote at a general meeting of the Society on the

accounts examined by him, and on every account and balance-sheet laid before the Society in general meeting during his tenure of office; and the report shall state—

(*a*) whether or not he has obtained all the information and explanations which he has required;

(*b*) whether, in his opinion, the accounts and balance-sheet referred to in the report are drawn up in conformity with the law; and

(*c*) whether such accounts and balance-sheet exhibit a true and correct view of the state of the Society's affairs, according to the best of his information and the explanations given to him, and as shown by the books of the Society.

PART VI.

Actuaries.

Investigation by Actuary.

40. Every Society which, in the opinion of the Registrar, cannot properly ascertain its actual position without the assistance of an Actuary shall, once in every five years, or at such shorter intervals as may be prescribed by the instrument constituting the Society, or by its rules, cause an investigation to be made into its financial condition, including a valuation of its liabilities, by an Actuary, and shall cause an abstract of the Report of such Actuary to be made in accordance (so far as may be) with the principles explained in the Fourth Schedule to the Indian Life Assurance Companies Act, 1912. Such abstract shall be signed by the Actuary, and two copies thereof shall be deposited with the Registrar, together with the Revenue-account and Balance-sheet, and shall be certified in the same manner.

Qualifications of Actuaries.

41. (*1*) No person shall investigate as an Actuary the financial condition of any Society unless he is either :—

(*a*) a Fellow of the Institute of Actuaries of Great Britain and Ireland or a Fellow of the Faculty of Actuaries in Scotland;

(*b*) where application is made by a Society or by the Registrar, and where in the opinion of the Governor in Council special circumstances exist, an Associate of such Institute of Actuaries or of such Faculty of Actuaries; or

(*c*) such other person having actuarial knowledge as the Governor in Council may, on the application either of a Society or of the Registrar, authorise to be employed to perform the duties of Actuary.

(*2*) All applications in cases (*b*) and (*c*) in sub-rule (*1*) must state the work for the performance of which such Associate or other person having actuarial knowledge is required, and certificates granted in such cases will be made out accordingly.

Certifying of particulars during actuarial investigation.

42. If an Actuary when investigating the financial condition of a Society is not responsible for the particulars extracted from the books, the accuracy of these shall be certified by the Manager and by one of the other senior controlling officers of the Society.

Particulars to be certified by Actuary.

43. An Actuary reporting on the financial position of a Society shall certify—

(*a*) that the calculations are correct and are made (so far as may be) on the principles explained in the Fourth Schedule to the Indian Life Assurance Companies Act, 1912;

(*b*) that these principles have his approval; and

(*c*) that he has obtained all the information and explanations that he has required;

and he shall state—

(*d*) what adjustment was used in the valuation to allow for premium payable more often than once a year, and for the next premium falling due within the year immediately following the close of the valuation period;

(*e*) the method by which the valuation age of the lives was ascertained;

(*f*) the rate at each age of the mortality assumed and of the annuity values used in the valuation, where the tables employed are not published; and

(*g*) the reserve values held against policies effected at ages 20, 30, 40, and 50, and which have been in force for 1, 2, 3, and 4 years, respectively, in respect of—

(*1*) whole Life Assurances;

(*2*) 20-year Endowment Assurances; and

(*3*) 30 „ „ „

Further particulars to be given by Actuary.

44. In the event of the Actuary finding that the financial condition of a Society does not permit of any surplus being distributed, either as bonus to policy-holders or as a dividend to shareholders, he shall state definitely whether or not he finds the Society to be insolvent. If he finds it to be insolvent, he shall state—

(*a*) if in his opinion the Society could be made solvent by a re-adjustment of the rates of premium for future entrants, and by calling up any unpaid capital and applying such portion thereof as may be available to make good the deficiency in the fund, and if so, he shall endeavour to state the amount of capital so required, and

(*b*) if in his opinion the Society cannot be made solvent by application of the subscribed capital alone, he shall endeavour to state what proportion of the sum assured the Society would be able to meet under existing contracts, if at the same time all the premiums thereunder were reduced *pro rata* with the sum assured, and all subscribed capital were fully paid up.

PART VII.

Winding up.

Powers and duties of Liquidators.

45. (*1*) A liquidator appointed under the Act or these rules shall follow the same procedure as is prescribed in the case of an official liquidator appointed under an order of the Court for the winding up of a company under the Indian Companies Act, 1882, and shall have the same powers as such official liquidator has under that Act, in so far as such powers are necessary to carry out such procedure.

(*2*) A liquidator appointed under the Act or these rules may settle a list of contributories and make calls by the same means, and (so far as may be) in the same manner, as is provided in the case of a Court under the Indian Companies Act, 1882; and he shall pay the debts of the Society and adjust the rights of the contributories amongst themselves.

(*3*) When several liquidators are appointed, every power given to a liquidator by the Act or these rules may be exercised by one or more of them as may be determined at the time of their appointment, or in default of such determination, by any number of them not less than two.

(*4*) A liquidator shall, within twenty-one days after his appointment file with the Registrar a notice of his appointment.

Alternative procedure in place of winding up.

46. (*1*) When an inquiry has been held under section 17 of the Act, the Registrar may, if he thinks fit, instead of cancelling the registry of the Society under section 18 and appointing a liquidator to wind up the Society under section 19 of the Act, consent to the Society reducing the amount of its contracts upon such terms and subject to such conditions as he thinks just.

(*2*) When policy contracts have been reduced under sub-rule (*1*), no money whatever shall be paid to share-holders either as repayment of capital, payment of dividend or in any other way until the Society is able to meet policy-holders' claims in full according to the original contract.

Valuation of liabilities.

47. (*1*) When a liquidator has been appointed in terms of section 19 of the Act, he shall, if required by the Registrar, reduce the amount of each of the contracts of the Society upon such terms and subject to such conditions as the Registrar may think just, as a means towards winding up. If the contracts are not to be so reduced in amount, the liquidator shall ascertain the value of the liability of the Society to each person appearing by the books of the Society to be entitled to or interested in policies granted by such Society.

(2) The liquidator shall give notice of such value to such persons and in such manner as the Registrar may direct; and any person to whom notice is so given shall be bound by the value so ascertained.

Procedure for dissolution.

48. (1) When a Society is finally wound up either compulsorily as prescribed by the Act, or voluntarily as prescribed by these Rules, the liquidator shall make a return to the Registrar, which return shall be signed by the Registrar, or by the committee of inspection, (if any), showing how the winding-up has been conducted and the property of the Society has been disposed of; and the liquidator shall then call a general meeting of the Society for the purpose of laying the accounts before it, and giving any explanation thereof.

(2) The said meeting shall be called by advertisement in the *Calcutta Gazette*, and in some newspaper (if any) published in the district in which the registered or principal office of the Society is situated, specifying the time, place and object thereof, and the advertisement shall be so published one month at least before the meeting.

(3) Within one week after the said meeting, the liquidator shall make a return to the Registrar of the holding of the meeting, and of its date.

NOTE.—*If the liquidator fails to compiy with this requirement, he will be liable to the penalty provided by law for such non-compliance.*

(4) The Registrar, on receiving the said return, shall forthwith register it, if approved; and, on the expiration of three months from the registration of the return, the Society shall be deemed to be dissolved. The Registrar may also require, in addition to the final return, periodical returns every six months.

(5) If the return made by the liquidator is not approved by the Registrar, he shall return it to the liquidator, indicating in what respect it is incomplete or unsatisfactory; and the liquidator shall, within three months from the date of the original submission of the return, resubmit his return to the Registrar, and, if approved by him, the Registrar shall register it; and, on the expiration of three months from such registration, the Society shall be deemed to be dissolved.

Publication of dissolution.

49. The Registrar shall, once in every calendar month, publish in the *Calcutta Gazette* a list of those Societies the dissolution of which has been registered by him.

Meeting of creditors.

50. (1) A liquidator appointed under the Act or these rules shall, within seven days after his appointment, send notice by post to all persons who appear to him to be creditors of the Society that a meeting of the creditors of the Society will be held on a date, not being less than fourteen nor more than twenty-one days after his appointment, and at a place and hour to be specified in the notice; and the liquidator shall also advertise a notice of the meeting once in the *Calcutta Gazette*, and once at least in some newspaper (if any) published in the district where the registered office or principal place of business of the Society is situated.

(2) At the meeting to be held in pursuance of sub-rule (1), the creditors shall determine whether an application shall be made to the Registrar for the appointment of any person as liquidator, in the place of, or jointly with, the liquidator appointed either by the Registrar or by the Society (in the case of a voluntary winding up), or for the appointment of a committee of inspection; and, if the creditors so resolve, an application may be made accordingly to the Registrar at any time, not later than fourteen days after the date of this meeting, by any creditor appointed for the purpose at the meeting.

(3) On receipt of any application made under sub-rule (2), the Registrar shall appoint a suitable person as liquidator in the place of, or jointly with, the liquidator appointed either by the Registrar or by the Society, or, if so desired by the application, a committee of inspection.

Provision for establishment and legal assistance for liquidator.

51. A liquidator appointed under the Act or these rules, may, with the sanction of the Registrar, employ such establishment as may be required for the purposes of his office as liquidator, and such legal assistance as may be necessary for the purposes of the institution or defence and the conduct of any legal proceedings.

Vacancies in the office of liquidator.

52. A vacancy in the office of a liquidator, caused by death, resignation or removal, shall be filled up by the Registrar by the appointment of a suitable person, by an order in writing.

Removal of liquidators.

53. Liquidators appointed under the Act or these rules may be removed by the Registrar from office, if it is proved to his satisfaction that the duties entrusted to such liquidator have not been properly discharged.

Power of Registrar to postpone cancellation of registry.

54. The Registrar, before cancelling the registry of a Society under section 18 of the Act, may suspend further proceedings for such time as he thinks fit, to enable the unpaid subscribed capital, or a sufficient part thereof, to be called up. Any capital applied for the purpose of making good deficiencies in the funds shall be written off to those funds, and shall become the property of the policy-holders.

Valuation of policies on winding up.

55. Where a Society registered under the Act is being wound up as provided for in the Act or under these rules, the value of a policy, or of a liability under a policy, requiring to be valued in such winding up, shall be estimated in the manner applicable thereto as follows:—

(*a*) An annuity shall be valued according to the tables used by the Society which granted such annuity at the time of granting the same, and where such tables cannot be ascertained or adopted to the satisfaction of the Registrar, then according to such rate of interest and table of mortality as the Registrar may direct.

(*b*) The value of the policy shall be deemed to be the difference between the present value of the reversion in the sum assured according to the contingency upon which it is payable, including any bonus or addition thereto made before the commencement of the winding up, and the present value of the future annual premiums.

(*c*) In calculating such present values, interest is to be assumed at such rate, and the rate of mortality according to such tables, as the Registrar may direct.

(*d*) The premium to be calculated shall be deemed to be such premium as, according to the said rate of interest and rate of mortality, is sufficient to provide for the risk incurred by the office in issuing the policy, exclusive of any addition thereto for office expenses and other charges.

(*e*) The liquidator, in the case of all persons appearing by the books of the Society to be entitled to or interested in the policies granted by such Society, shall ascertain the value of the liability of the Society to each such person, and give notice of such value to such persons and in such manner as the Registrar may direct; and any person to whom notice is so given shall be bound by the value so ascertained, unless he gives notice of his intention to dispute such value in the manner and within the time which shall be prescribed by the Registrar.

PART VIII.

MISCELLANEOUS.

Fees

56. (*1*) The following fees shall be charged for matters transacted under the Act:—

	Rs.	A.
(*a*) Registration of a Society and its rules	150	0

Note.—A Society, which has already been registered under the Indian Companies Act, 1882, is, on payment of the prescribed fee under that Act, exempt from payment of any fee for re-registration under the Provident Insurance Societies Act, 1912.

	Rs.	A.
(*b*) Registration of amended rule or rules of a Society ...	2	0
(*c*) Filing any paper or document authorised or required to be filed with the Registrar	2	0
(*d*) Inspecting the records of a Society	1	0
(*e*) Granting certified copies of, or extracts from, any document or paper filed with the Registrar, for every hundred words copied	0	2

(*2*) All fees payable under these rules shall be paid in cash, or by postal money-order, to the Registrar.

Prohibitions in respect of name of Society.

57. No Society subject to the Act may register hereafter with a name in which either the two words "Life Assurance" or "Life Insurance" occur; and the Registrar shall refuse to register any Society having a name either the same as that of any existing Society or Life Assurance Company, or so nearly resembling it as to be likely to lead to confusion.

Saving in respect of Indian Companies Act, 1882.

58. Registration under the Act shall not take the place of registration under the Indian Companies Act, 1882.

Publication of documents

59. All papers and documents required to be published under the Act shall be displayed in a conspicuous place in the registered office of every Society, and in every branch office or place where its business is carried on. The papers and documents so displayed must be both in English, and in the Vernacular in use in the district in which the head office is situated. They shall also be published in a newspaper; and printed or lithographed copies thereof, in English, must be sent to the Registrar and to all shareholders and policy-holders.

Registration hours

60. The registration hours shall be between 11 A.M. and 2 P.M., except on Sundays and authorized holidays.

Nominations.

61. Any policy-holder or contributor of a Society registered under the Act, not being under sixteen years of age, may, by writing under his hand delivered at or sent to the registered office of the Society, nominate any person, not being an officer or servant of the Society, unless such officer or servant is the husband, wife, father, mother, child, brother, sister, nephew or niece of the nominator, to whom any monies payable by the Society on the death of such member, not exceeding Rs. 500, shall be paid at his decease, and may from time to time revoke or vary such nomination by a writing under his hand similarly delivered or sent: and, on receiving satisfactory proof of the death of a nominator the Society shall pay to the nominee the amount due to the deceased member, not exceeding the said sum, and the receipt of the nominee over sixteen years of age for any amount so paid shall be valid; but the marriage of a member of a Society shall operate as a revocation of any nomination theretofore made by that member: provided that where the Society pays to a nominee in ignorance of a marriage subsequent to the nomination, the receipt of the nominee shall be a valid discharge to the Society.

Saving of existing nominations.

62. No nomination by an assured person executed before the date when these rules come into force, shall be deemed to be void by reason only of its having been so executed.

Other classes of business (to be specified).		Other assets (to be specified) ...	
Unpaid Dividends Deposits			
Cheques issued, but not presented for payment.			
Other sums owing by the Society (such as sums borrowed by the Society, commission due but unpaid, surrender values outstanding, to be stated separately under each class of business).			

* These sums are, or have been, included in the corresponding items in Forms Nos. 3 and 4.

Note 1.—The balance-sheet must state how the values of the stock exchange securities are arrived at, and a certificate must be appended, signed by the same persons as signed by the balance-sheet, to the effect that in their belief the assets set forth in the balance-sheet are in the aggregate fully of the value stated therein, less any investment reserve fund taken into account.

Note 2.—A certificate must be appended hereto, signed by the same persons as signed the balance-sheet and by the auditor, to the effect that no part of any fund has been applied directly or indirectly for any purpose other than the class of business to which it is applicable and as allowed by rule 29.

Note 3.—Companies having investments with any uncalled liability shall state separately the full amount thereof

Note 4.—Particulars must be given of all loans, including temporary advances, except loans on policies within their surrender values, made at any time during the year to any Director or officer of a Society or to any other Society in which any of the said Directors or officers may hold the position either of Director or officer.

Note 5.—Particulars must be given of all commission or other allowance due or paid to any Director or Manager or other controlling officer of the Society in respect of new business procured.

In the Revenue Accounts should be entered all the financial transactions of the Society by way of income and expenditure during the year, whether such transactions have been completed by the actual receipt or payment of cash, or are outstanding at the end of the year.

On the *Income* side of this account should appear the premiums for each different class of insurance, all entrance fees, fines and other sums due to the Society during the year (whether received or not) under the several items provided in the forms :—

(*a*) Investments made or realized should not be entered in this account, but only the gain or loss made on their realization, which should appear as income if gain, as expenditure if loss.

(*b*) No deposits in, or withdrawals from, Bank are to be brought into this account.

On the *Expenditure* side should appear all expenses incurred during the year (whether paid or outstanding) under the several items provided in the form. Bad debts and losses on Agents' balances should be shown as expenditure.

No item can be included in the funds at the end of the year which was not included in the funds at the beginning of the year, unless it is shown as an item of income of the year. Similarly no decrement can be made from any of the funds in any year without appearing as an item of expenditure in the Revenue Account for that year.

The amount of each different fund at the beginning of the year should be the same amount which was stated in the Revenue Accounts of the Society's last return as the amount of those funds at the end of the year.

If the balance of any account shown in the previous return be found incorrect, the corrected balance should be brought forward in the next return, and an explanation of the difference given on the form itself.

On the Liabilities (or left-hand) side of the Balance-sheet should be brought down from the Revenue Accounts the amounts of the funds at the end of the year, as indicated on the form; and any debts incurred on behalf of the Society, cash (if any) due by the Society, and any other liabilities incurred by it which may be outstanding at the end of the year should be stated.

On the Assets (or right-hand) side should be shown the Society investments together with the cash in hand and any other assets of the Society. Amongst such other assets will be, for instance—

Branch and agency balances;
Outstanding premiums;
Outstanding interest;
Interest accrued, but not payable;
Cheques paid into Bank and in course of realization.

The amounts of these items shown in the balance-sheet will, in the main, be received during the next financial year, but they must not again be included amongst the premiums, interest or cash in the Revenue Account, as they have already been included in the amount shown in that year's Revenue Account as "amount of Life Assurance Fund at the beginning of the year."

Some of these outstanding items which have been taken credit for as an asset may never be paid at all. The amount of those not realized will have to be written off, and the funds will be decreased accordingly.

The profits realized on any class of business prescribed under the Act shall be entered in the profit and loss account, provided only such profits do not belong to any particular fund for which a separate account is submitted.

The following note is added to the Revenue Accounts (Forms Nos. 3 and 4) with regard to preliminary expenses, etc.:—

> "If any sum has been deducted from the expenses appertaining to this account and taken credit for in the balance-sheet as an asset, the sum so deducted shall be shown as in Form No. 7 and attached to this account."

Any sum treated as an asset in this manner should be written off through the Revenue Accounts within five years from the date on which the expense was incurred. In any case, the amount must not be treated as an asset at the time of any actuarial valuation made hereafter of the Society's assets and liabilities.

FORM NO. 15.

[*See* Rule 16 (*2*)].

The following statements must be given by Societies for each class of insurance under which the amount of the sum payable on the policy becoming a claim is not fixed, but depends either wholly or partly on the result of the division of any portion of the funds or premiums amongst the claim policies in proportions to the total premiums paid under each. This shall not be held to apply to policies under which the premiums may vary from year to year or which insure a fixed amount which, so long as the premiums are duly paid, can only vary as the result of bonus ascertained by an actuarial valuation conducted in the manner provided for in the Fourth Schedule to the Indian Life Assurance Companies Act, 1912.

No. 93Marine.—In exercise of the power conferred by section 50A of the Inland Steam-vessels Act, 1884, as amended by the Inland Steam-vessels Act (1884), Amendment Act, 1899, the Governor in Council proposes to make the following revised rules to regulate the navigation of inland steam-vessels in the river Hooghly, in supersession of those published under this Department notification No. 5Marine, dated the 10th January 1902, as amended by notification No. 140Marine, dated the 22nd December 1906. The notification of this Department No. 69Marine, dated the 29th April 1913, is also cancelled.

The rules will be taken into consideration on the expiry of a month from the date of their publication in the Gazette, and the Governor in Council will be pleased to consider any suggestions or criticisms that may be made concerning them by any person within that period.

Steering rules to regulate the navigation of inland steam-vessels in the river Hooghly.

Inland vessels navigating the Hooghly river between Kidderpore Docks and Luff Point shall be navigated on the shallow side of the channel when meeting seagoing vessels.

In Garden Reach, they shall navigate on the edge of College Sand and shall keep to the northward of the ocean-going traffic.

In Panchpara and Sangral Reach, they shall navigate on the edge of Sangral Sand.

In Jarmakers Reach, they shall navigate on the edge of Munikolli Sand.

In Koffri Reach, they shall navigate on the edge of Koffri Sand.

In the upper part of Budge-Budge Reach, they shall navigate on the right bank of the river; in the lower part, on the edge of Budge-Budge Sand.

At Pujali Crossing, Ulubaria and Achipur Reaches, they shall navigate on the edge of the sand on the left bank of the river.
At Moyapur Bar, they shall navigate the shallow tracks.
In Royapur Reach, they shall navigate on the edge of Royapur Sand.
In Roypur Crossing, they shall navigate the shallow tracts.
In Hog River Reach, they shall navigate on the edge of Hog River Sand.
At Fisherman's Point and in Fulta Reach, they shall navigate on the edge of Fulta Sand.
At Niman, they shall navigate on the edge of Shibgunge Sand.
At the James and Mary, they shall navigate the Western Gut when there is sufficient depth of water. When obliged to use the Eastern Gut, they shall navigate on the edge of Nurpur Sand and the Muckraputti Lumps.

When crossing from one reach to the other or from one side of the channel to the other, inland vessels shall not obstruct the passage or cause risk of collision with any seagoing vessels crossing or passing at the same time, and, if necessary, they shall slacken their speed, and shall stop and reverse until the seagoing vessel has passed.

Inland steam-vessels when meeting other inland steam-vessels shall pass port to port.

B. K. FINNIMORE,
Secy. to the Govt. of Bengal.

NOTIFICATION.

JUDICIAL.

Simla, the 12th June 1913.

No. 789.—Whereas the Government of India have acceded to a Convention with respect to the international circulation of motor cars concluded at Paris on the eleventh day of October, one thousand nine hundred and nine;

In exercise of the powers conferred by section 3 of the Motor Vehicles International Circulation Act, 1912 (XII of 1912), the Governor-General in Council is pleased to make the following rules:—

PART I.

Preliminary.

Short title. **1.** These rules may be called the Motor Vehicles International Circulation Rules, 1913.

Definitions. **2.** In these rules unless there is anything repugnant in the subject or context—

(*i*) "The Convention" means the Convention with respect to the international circulation of motor cars concluded at Paris on the 11th day of October 1909.

(*ii*) "International Travelling Pass" means an international road-travel certificate issued under article 3 of the Convention.

PART II.

Motor vehicles temporarily leaving British India.

Constitution and duties of the competent authority under the Convention

3. For the purposes of the Convention, the Commissioner of Police in Calcutta, Bombay, Madras and Rangoon, and elsewhere the District Magistrate, shall be the competent authority, and is hereby empowered to carry out, in accordance with and subject to the provisions of these rules, the following duties, that is to say :—

(*a*) when the owner of any motor vehicle desires to avail himself of the facilities given by the Convention during travel in any of the Contracting States mentioned in Appendix A to the First Schedule—to examine the vehicle, and, if satisfied, after such examination.—

(*i*) in the case of a motor car, that the car is suitable, or is of a type which has been declared by the Government of India to be suitable, for use on the highway outside India, and that it fulfils the conditions specified in paragraph 2 of the First Schedule, or

(*ii*) in the case of a motor-cycle, that the said conditions, as modified by paragraph 5 of that Schedule, are fulfilled;

to issue a certificate of fitness, in Form A in the Second Schedule, or in a form to the like effect:

(*b*) to examine any person submitting himself for examination, and if, upon examination, he is found to be competent, to issue to him a Driver's Certificate of Competence in Form B in the Second Schedule, or in a form to the like effect:

Provided that a Certificate of Competence shall not be granted to any person who is under 18 years of age;

(*c*) subject to the conditions imposed by rule 4, to issue to the owners of motor vehicles, on behalf of the Local Government, an International Travelling Pass, in Form C in the Second Schedule over the signature of a Secretary to the Local Government, or in a form to the like effect.

Conditions of issue of International Travelling Pass

4. (*1*) The following conditions shall be fulfilled before an International Travelling Pass is issued :—

(*a*) every motor vehicle for which an International Travelling Pass is issued shall be a motor vehicle in respect of which a Certificate of Fitness shall have been issued in pursuance of rule 3; and

(*b*) particulars as to the driver or drivers of the motor vehicles shall be specified on the International Travelling Pass in the place provided for the purpose, and every such driver shall possess a Certificate of Competence issued in pursuance of rule 3.

Photograph to be affixed to Driver's certificate

5. Every Driver's Certicate of Competence shall have the photograph of the holder affixed thereon, with the date on which the photograph was taken; and such photographs must not be more than one year old at the time of issuing the certificate.

Certificate or pass to be in English

6. Every such certificate or pass shal be in English.

Validity of certificate or pass

7. Every Certificate of Fitness or of Competence, and every International Travelling Pass, issued under the foregoing provisions shall be valid for a period of one year from the date of issue.

Certificate or pass to be registered

8. The issue of every Certificate of Fitness or of Competence and of every International Travelling Pass shall be entered in a register to be maintained in the office of the Commissioner of Police, or the District Magistrate, as the case may be, in such form as he may consider suitable.

Fees payable on certificate or pass

9. The issue of a certificate or pass under these rules shall be subject to the condition of the prepayment of the following fees, namely :—

	Rs.
Certificate of Fitness of motor-car	5
Driver's Certificate of Competence	5
International Travelling Pass	5

Provided that in the case of a motor-cycle, one-half only of the foregoing fees shall be chargeable.

10. A second International Travelling Pass shall not be necessary for any motor vehicle about to leave British India, if the owner of the vehicle already holds such a pass and the term thereof has not expired: Second pass not required if first is current

Provided that in such a case the original certificate shall be endorsed or countersigned by the Chief Customs Officer at the port of re-embarkation.

PART III.

Motor cars arriving temporarily in British India.

11. Any person in charge of a motor vehicle landed at a port in British India, holding in respect of such vehicle an International Travelling Pass, may, on production of such pass, apply to the Chief Customs Officer of the port for the endorsement of his pass and for the registration of the motor vehicle covered thereby. Application for endorsement of pass and registration of vehicle.

12. On receiving such an application, the Chief Customs Officer shall satisfy himself that the pass was issued by competent authority: that the period of its validity has not expired, and that the vehicle corresponds with the vehicle described in the pass and has affixed to it the plates required to be carried by Article 4 of the Convention, and that the driver or drivers (if any) are the person or persons whose names appear on the pass. Duties of Chief Customs Officer on receipt of application.

13. If the Chief Customs Officer is satisfied that the requirements of rule 12 have been complied with, he shall endorse on the part of the pass set aside for the purpose the name of the port and shall sign, seal and date the endorsement, and shall enter in a register to be maintained by him the following particulars:— Endorsement of pass and registration of vehicle.

(*a*) Number.

(*b*) Place of issue of international travelling pass.

(*c*) Date of issue of pass.

(*d*) Name of authority or association which issued pass.

(*e*) Full name and Home address of owner of car.

(*f*) Description of vehicle (*e.g.*, motor car, motor-cycle, etc.).

(*g*) Shape and colour of body of vehicle.

(*h*) Letters and numbers on identification plates.

(*i*) Date of registration.

14. The Chief Customs Officer shall forward without delay a copy of every entry made in his register in accordance with rule 13 in case of motor vehicles landed at Calcutta, Bombay, Madras and Rangoon to the Commissioner of Police, and in the case of motor vehicles landed elsewhere, to the District Magistrate. Copy of entry in register to be sent to local executive authorities.

15. The endorsement of an international travelling pass and the registration of the motor vehicle covered thereby in accordance with these rules shall, during the validity of such pass, be deemed to be in compliance with the conditions subject to which the motor vehicle may be possessed, used and driven in British India by the persons respectively referred to in such pass. Effect of endorsement and registration.

16. In the case of a motor vehicle covered by an international travelling pass entering a district of British India by land, the application referred to in rule 11 shall be made to the District Magistrate of that district, and these rules other than rule 14 shall apply as if such District Magistrate were substituted for the Chief Customs Officer. Application of rules to motor vehicle entering British India by land.

17. The owner of a motor vehicle which has been registered in accordance with the foregoing rules shall, on the departure of the motor vehicle from any port in British India for a place outside British India, cause the pass in respect of such vehicle to be produced before the Chief Customs Officer at that port, who shall endorse the name of the port and shall sign, seal and date the endorsement, and enter in a register to be maintained by him the particulars specified in rule 13. Production of pass before Chief Customs Officer when motor vehicle leaves for a place outside British India

FIRST SCHEDULE.

Conditions to be fulfilled by motor-cars in order to be allowed to be driven on the highway.

1. Every motor-car, in order to be allowed to be driven on the highway outside India, must either—

(*a*) have been recognised as suitable for use on the highway, after an examination before the competent authority, or

(*b*) belong to a type approved by the Government of India.

2. The examination must be directed specially to the following points:—

(1) the machinery must be such as can be trusted to work efficiently, and must be so designed as to prevent, as far as possible, all danger of fire or explosion, as not to frighten by its noise any animals, whether ridden or driven, and as not to give rise to any other cause of danger to traffic or seriously to inconvenience by the emission of smoke or vapour any persons using the road;

(2) the motor-car must be provided with the following:—

(*a*) a strong steering apparatus which will allow the car to be turned readily and with certainty;

(*b*) two brakes each independent of the other and adequate for its purpose: one at least of these brakes must be capable of acting rapidly and directly upon the wheels or upon brakedrums immoveably fixed thereto;

(*c*) a mechanism which is capable of preventing, even on steep gradients, any backward movement, if one of the brakes is not of itself sufficient for the purpose.

(3) Every motor-car whose weight unladen exceeds 350 kilogrammes must be so constructed that the driver can, from his seat, reverse the movement of the car by means of the driving power.

(4) All the driving and steering apparatus must be so arranged that the driver can manipulate it with certainty, and at the same time have a clear view of the road.

(5) Every motor-car must be provided with plates showing the name of the manufacturer of the chassis and the manufacturer's number, the horse-power of the engine or the number and bore of its cylinders, and also the weight of the car unladen. It should also be provided with a horn and carry not less than two lamps in front and one behind so arranged as to throw light on the number of the car.

Conditions to be fulfilled by drivers of motor-cars.

3. (1) The driver of a motor-car must possess qualifications which provide a sufficient guarantee of public safety.

(2) In so far as the driving of motor-cars outside British India is concerned, no person may drive a motor-car without having received for that purpose an authorization given by a competent authority after having shown himself on examination to be competent.

(3) Such an authorization must not be given to a person less than 18 years of age.

Arrangement of identification marks on motor-cars.

4. No motor-car shall be allowed to pass from one country into another unless it carries, fixed, in a visible position on the back of the car, in addition to the number plate of its own nationality, a distinctive plate displaying letters indicating that nationality. The size of this plate and the method and size of the lettering are prescribed in Appendix B.

Special provisions with regard to motor-cycles.

5. The foregoing rules in this Schedule apply to motor-tricycles and motor-bicycles, subject to the following modifications:—

(1) the machinery intended to prevent a car from slipping backwards, referred to in clause (2) (*c*) of paragraph 2 of this Schedule, is not required, nor is the reversing gear;

(2) the distinctive nationality plate of motor-cycles shall measure only 18 centimetres in width and 12 centimetres in height. The letters shall measure 8 centimetres in height, the breadth of each line being 10 millimetres;

(3) motor-cycles should be provided with a horn and one lamp.

India Office.
June 3, 1913.

GEORGE R. & I.

WHEREAS we deem it expedient to revise the rules for the promotion and precedence of Our Indian Medical Service :

OUR WILL AND PLEASURE is that the Warrant of Our late Royal Father of the 13th March 1908, and Our Warrant of the 8th August 1911, be cancelled and that from and after this date the following rules shall be established, and that by these rules Our Viceroy and Governor-General in Council shall be governed.

1. The substantive ranks of Medical Officers in Our Indian Military Forces shall be as follows :—

Surgeon-General (ranking as Major-General).
Colonel.
Lieutenant-Colonel.
Major.
Captain.
Lieutenant.

The Director-General of Our Indian Medical Service shall hold the substantive rank of Surgeon-General, but may rank as Lieutenant-General when approved by Our Secretary of State for India in Council.

2. An officer will not be permitted to remain in the service if at any time during the first three years from the date of his first commission his retention therein is, in the opinion of Our Secretary of State for India in Council, undesirable.

3. Except as otherwise herein provided, a Lieutenant shall be eligible for promotion to the rank of Captain on completing three years' full pay service, if he has previously passed such examinations as may be prescribed by Our Secretary of State for India in Council, and is in all other respects qualified and recommended. An officer who has not passed the prescribed examinations may be provisionally promoted, if, in the opinion of Our Governor-General of India in Council, he has not had a reasonable opportunity of passing. Such provisional promotion may be cancelled as soon as he has had such opportunity and has not passed.

4. Except as otherwise herein provided, a Captain shall be eligible, if in all respects qualified and recommended, for promotion to the rank of Major on completing nine years' full pay service in the rank of Captain. This period may be reduced by six months in the case of an officer who produces satisfactory evidence of progress in any branch of knowledge which is likely to increase his efficiency. A Captain who may be prevented by exigencies of the service from obtaining an opportunity of qualifying for such accelerated promotion shall have the concession open to him for a period of four years after his promotion to the rank of Major in ordinary course, but any antedate of promotion which may be granted shall be without adjustment of pay.

5. Except as otherwise herein provided, a Major shall be eligible, if in all respects qualified and recommended, for promotion to the rank of Lieutenant-Colonel on completing eight years' full pay service in the rank of Major, including any period covered by antedated promotion without adjustment of pay.

6. Time on half-pay, not exceeding one year, shall be allowed to reckon as service for promotion under articles 3, 4 and 5, if removal to half-pay has been the consequence of medical unfitness caused by duty, military or civil.

7. A Captain after at least six years' service, a Major or a Lieutenant-Colonel may be promoted to the next higher rank by brevet for distinguished service in the field or for meritorious or distinguished service of an exceptional nature other than in the field.

8. A certain number of Lieutenant-Colonels may be specially selected for increased pay for ability and merit.

9. Promotion from the rank of Lieutenant-Colonel with increased pay to that of Colonel, and from the rank of Colonel to that of Surgeon-General, shall be given by selection for ability and merit, and the grounds of such selection shall be stated to Us in writing, and recorded in the Office of Our Secretary of State for India.

10. A Lieutenant-Colonel may also be promoted to the rank of Colonel, and a Colonel to the rank of Surgeon-General, for distinguished service in the field. In any such case the Officer shall remain supernumerary in the higher rank until the vacancy to which, in the ordinary course, he would have been promoted, or, in the case of an Officer promoted to the rank of Colonel, until selection for the rank of Surgeon-General.

11. Exchanges between Officers of Our Indian Medical Service and Officers of Our Royal Army Medical Corps, being of the same rank and below the rank of Major, and transfers of Officers below the rank of Major from either of the above-mentioned services to the other, shall be permitted with the approval of Our Army Council and of Our Secretary of State for India in Council, and on the following conditions :—

(1) That the Officers have less than seven years' service.

(2) That in the case of Captains, their seniority for the purpose of exchange shall be determined as if they had been promoted after the period of service required for promotion to that rank in the service into which they exchange, but that any alteration of date of rank made in pursuance of this provision shall be without adjustment of pay.

(3) Subject to (2) that the senior Officer exchanging takes the place of the junior on the list to which he exchanges, and shall not be promoted until the Officer next above him has been promoted, or has been refused promotion in consequence of failure to qualify for it.

(4) Subject to (2) that the junior Officer exchanging is placed for seniority next below all Officers on the list to which he exchanges whose commissions have the same date as his own.

(5) That the Officer transferred is placed for seniority below all Officers holding the same rank at the time of his transfer, and shall not be promoted until the officer next above him has been promoted or has been refused promotion in consequence of failure to qualify for it,

12. With a view to maintaining the efficiency of the service, Medical Officers shall be placed on the Retired List when they attain the following ages :—

Director-General	62
Surgeon-General	60
Colonel	
Lieutenant-Colonel	55
Major	

But a Lieutenant-Colonel who entered the service before the 1st April 1911, and who has been specially selected for increased pay under article 8 may, if he attains the age of 55 years before he becomes entitled to the pension for 30 years' service, be retained until completion of such service, and in any special case where it would appear to be for the good of Our service that an Officer should be continued in employment, he may be so continued, subject in each case to the sanction of Our Secretary of State for India in Council.

13. An Officer appointed after the 11th September 1890, who may retire on pension before completing 30 years' service, shall be liable, till he completes 55 years of age, to be recalled to duty in case of emergency.

14. Six of the most meritorious Officers of Our Indian Medical Service on the Active List shall be named Our Honorary Physicians and six Our Honorary Surgeons, and they shall relinquish such appointment on retirement. On appointment as one of Our Honorary Physicians or Honorary Surgeons an Officer under the rank of Colonel in Our Indian Medical Service may be promoted to the brevet rank of Colonel.

Given at Our Court at St. James's this twenty-eighth day of May 1913, in the fourth year of Our Reign.

By His Majesty's Command,
CREWE.

William Welsh Witney to be Second Lieutenant, *vice* E. A. Bird, promoted. Dated the 26th August 1912.

MEDICAL DEPARTMENT.

No. 572.—Paragraph 10 of the regulations regarding the grant of study leave to officers of the Indian Medical Service, as published in Army Department Notification No. 867, dated the 6th September 1912, is reconstructed as follows :—

10. For the course of study lodging allowance at the rate of 8*s.* a day for a field officer, 6*s.* for a Captain, and 4*s.* for a Lieutenant, will be granted on the production of the certificates required by rule 12. It is to be understood that, in order to qualify for the grant of study leave or for the receipt of lodging allowance, a definite course of study at a recognised institution, which will occupy the time of the officer for five or six days a week, must be pursued. Lodging allowance will be admissible up to fourteen days for any period of vacation. A period during which an officer interrupts his course for his own convenience cannot be considered as vacation.

In the case of an officer retiring from the service without returning to India after a period of study leave the lodging allowance will be forfeited. If the officer is under Civil Leave Rules the study leave will be converted into furlough to the extent of the furlough standing to his credit at the date of retirement. Any balance of the period of study leave mentioned above which cannot be so converted will be excluded in reckoning service for pension.

Elliott Prizes for Scientific Research for 1913.

WITH reference to Notification No. 5058F. in the *Calcutta Gazette* of the 28th December 1892, Part I, page 1172, the Elliott Prize for Scientific Research will be given to the author of the best original essay prepared and published during the year, giving the results of original research or investigation by the essayist, in Physical, Chemical, Mathematical and Natural Sciences.

2. As only two prizes have been awarded during 1911, and no decision has been arrived at regarding the award for 1912, the Trustees have again specially sanctioned the award of four prizes for the year 1913 for essays showing original work or investigation in the aforesaid subjects.

3. Any Native of Bengal or of Bihar and Orissa, or any Eurasian or domiciled European, residing in Bengal or Bihar and Orissa, may compete for the prizes.

4. The essays of competitors must be sent to the President of the Asiatic Society of Bengal, 1, Park Street, Calcutta, by the end of December 1913. The prizes will be adjudged to the best competitor or competitors, and awarded publicly at the ordinary annual meeting of the Asiatic Society of Bengal in February 1914.

5. Preference will be given to researches leading to discoveries likely to develop the industrial resources of Bengal. In the case of no essay being deemed by the Trustees to be of sufficient merit, no prize is to be awarded.

NOTICE.

UNDER the provision of Rule XX, Part IV of the Government of India Notification No. 212, dated the 10th May 1913, notice is hereby given for the information of friends and relatives that the family vault of Sub-Conductor Robert Tilbury and others in plot No. 6 has fallen in during the last heavy rains. If no person will undertake to restore the same, it will be treated at the next repairs in such manner as the officer-in-charge of the cemetery may decide to be necessary for the maintenance of the cemetery in decent order.

H. B. COGAN,

Officer-in-charge, Military Cemetery, Bhowanipore.

Notification of Sale.

TO be peremptorily sold by the Official Receiver of the High Court, Original Side in his room in the Court-house on the 12th day of July 1913 at 12 o'clock noon, pursuant to the decree dated the 29th day of August 1912, and made in appeal No. 6 of 1912, being an appeal from the decree made in suit No. 346 of 1910 (wherein Baidyanath Dass Babajee was the plaintiff and Mritunjoy Dass Karmokar was the defendant), the undermentioned properties unless the same or either of them be sold previously by private treaty :—

Lot I.—All that lower-roomed messuage, tenement and dwelling-house together with the piece or parcel of land or ground thereunto belonging and on part whereof the same is erected and built, containing by estimation 1 cottah 8 chitaks and 14 square feet, be the same a little more or less, situate, lying at and being No. 9, Gomes Lane, Holding No. 322, Block No. 1, in the southern division of the town of Calcutta, paying an annual revenue to Government of 5 annas 2 pies, and butted and bounded in manner following, that is to say, on the north by the premises No. 8, Gomes Lane, on the south and west by Gomes Lane, and on the east by the premises No. 10, Gomes Lane.

Lot II.—All that upper-roomed brick-built messuage, tenement or dwelling-house together with the piece or parcel of land thereunto belonging and on part whereof the same is erected and built, containing by estimation 1 cottah 3 chitaks and 17 square feet, be the same a little more or less, situate, lying at and being No. 17 (formerly No. 14), Bhubon Mohun Dhur's Lane, Holding No. 290, Block No. 2, in the northern division of the town of Calcutta, paying an annual revenue to Government of 3 annas, and butted and bounded in manner following, that is to say, on the north and east by Bhuban Mohun Dhur's Lane, on the south by a filled up drain, and on the west by premises No. 16, Bhubon Mohun Dhur's Lane.

From a search made at the Calcutta Registry Office, it appears that the following incumbrances are existing against the said properties :—

(1) A mortgage of the premises No. 17, Bhubon Mohun Dhur's Lane, executed by the plaintiff Baidyanath Dass Babajee in favour of one Shaik Mussaffer on the 25th September 1910 and registered by the Sub-Registrar of Assurances in Book I, Volume 95, pages 10 to 16, being No. 2696 for 1910.

(2) A mortgage of the premises No. 9, Gomes Lane, executed by the plaintiff Baidyanath Dass Babajee in favour of the said Shaik Mussaffer on the 28th September 1910 and registered by the Sub-Registrar of Assurances, Calcutta, in Book I, Volume 78, pages 189 to 195, being No. 2695 for 1910.

(3) A mortgage of the premises Nos. 9, Gomes Lane, and 17, Bhubon Mohun Dhur's Lane, executed by the defendant Mritunjoy Dass in favour of one Pramatha Chandra Kar on the 28th August 1911 and registered by the Registrar of Calcutta in Book I, Volume 77, pages 61 to 71, being No. 2365 for 1911.

Under the said decree of the 29th August 1912, it was (*inter alia*) ordered and decreed that simultaneously with the completion of the sale the plaintiff Baidyanath Dass Babajee and the defendant Mritunjoy Dass Karmokar should, at their own costs, charges and expenses, procure reconveyances or releases of the mortgages and charges created by them respectively, and in default of either party the Receiver should apply the moiety of the sale-proceeds payable to the party in default in payment and satisfaction of such mortgages and charges and in obtaining such reconveyances and releases as aforesaid. The abstract of title and conditions of sale can be inspected prior to the sale at the office of Messrs. Ghosh and Kar, Solicitors, No. 12, Old Post Office Street, and will be produced at the time of the sale.

K. SHELLY BONNERJEE,

Official Receiver, High Court.

Notification of Sale.

TO be peremptorily sold, pursuant to decrees dated, respectively, the 28th day of June 1912 and the 7th day of April 1913, made by the Calcutta High Court in suit No 147 of 1911 (Nrisingha Das Dey *versus* Gora Chand Auddy and others), by the Registrar of the said Court in his sale-room in the Court-house on Saturday, the 12th day of July 1913, at the hour of 12 o'clock noon, the undermentioned properties:—

I. Premises No 9 (formerly No. 17), Gopi Mohan Bose's Lane, being a one-storied building with land attached thereto, measuring about 6 cottahs 5 chitaks and 12 square feet, bounded on the north by Gopi Mohan Bose's Lane, on the east by Fakir Chand Dey's Lane, on the south by No. 1A, Fakir Chand Dey's Lane, belonging to Kalidas Anddy, and on the west by No. 8, Gopi Mohan Bose's Lane, belonging to Kalidas Anddy.

II. Premises No. 50, Hridaram Banerjee's Lane, a two-storied building with land measuring about 2 cottahs 9 chitaks, bounded on the north by the bustee land No. 51, Hridaram Banerjee's Lane, belonging to Naundo Lall Banerjee, on the south by Hridaram Banerjee's Lane, on the east by the bustee land No. 49, Hridaram Banerjee's Lane, belonging to Nabin Chand Mukherjee, and on the west by premises No. 50-1, Hridaram Banerjee's Lane, belonging to Mohendra Lall Auddy.

The abstract of title and conditions of sale may be seen at the Registrar's Office in the Court house or at the office of Mr. B. P. Chunder, Attorney for the plaintiff, at No. 11, Old Post Office Street, Calcutta, on any day before the sale and will be produced at the sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

A

BILL

to assimilate certain enactments in force in Eastern and Western Bengal, to amend certain enactments, and to repeal certain other enactments.

WHEREAS it is expedient to extend certain enactments of the Bengal Legislative Council to Eastern Bengal, and to extend certain enactments of the Eastern Bengal and Assam Legislative Council to Western Bengal;

And whereas it is also expedient that certain formal amendments should be made in enactments in force in Bengal;

And whereas it is also expedient that certain enactments in force in Bengal should be repealed;

And whereas the previous sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the passing of this Act; 55 & 56 Vict., c. 14.

It is hereby enacted as follows:—

Short title. 1. This Act may be called the Bengal Laws Act, 1913.

Definitions. 2. In this Act,—

(1) "Eastern Bengal" means the territory mentioned in Part I of Schedule A to the Bengal, Bihar and Orissa and Assam Laws Act, 1912; and VI. of 1912.

(*d*) "Western Bengal" means the territory mentioned in Part II of that Schedule.

Extension of enactments to Eastern Bengal. 3. The enactments specified in Schedule I are hereby extended to Eastern Bengal, to the extent mentioned in column 4 thereof.

Extension of enactments to Western Bengal. 4. The enactments specified in Schedule II are hereby extended to Western Bengal, to the extent mentioned in column 4 thereof:

Provided that the Eastern Bengal and Assam Disorderly Houses Act, 1907, shall not apply to any municipality, constituted under the Bengal Municipal Act, 1884, in which the Calcutta Suburban Police Act, 1866, is in force. [*Cf.* Ben. Act III of 1907, s. 3.] E. B. & A. Act II of 1907. Ben. Act III of 1884. Ben. Act II of 1866.

Amendment of enactments. 5. The enactments specified in Schedule III are hereby amended to the extent and in the manner mentioned in column 4 thereof.

Repeal of enactments. 6. The enactments specified in Schedule IV are hereby repealed to the extent mentioned in column 4 thereof.

Continuance of orders, etc., issued under certain repealed enactments. 7. Every appointment, order, rule, notification or form made or issued under— [*Cf.* Ben. Act I of 1869, s. 25.]

(*a*) the Land Registration Act, 1876, as amended by the Bengal Land Registration (Amendment) Act, 1906, Ben. Act VII of 1876. Ben. Act II of 1906.

(*b*) the Bengal Military Police Act, 1892, or Act V of 1892.

(*c*) the Bengal Disorderly Houses Act, 1906, Ben. Act III of 1906.

shall, so far as it is not inconsistent with—

(*i*) the Land Registration Act, 1876, as amended by the Eastern Bengal and Assam Land Registration (Amendment) Act 1907. Ben. Act VII of 1876. E. B. & A. Act I of 1907.

(*ii*) the Eastern Bengal and Assam Military Police Act, 1912, or E. B. & A. Act III of 1912.

(*iii*) the Eastern Bengal and Assam Disorderly Houses Act, 1907, E. B. & A. Act II of 1907.

as the case may be, continue in force, and be deemed to have been made or issued under tha tAct, unless and until it is superseded by any appointment, order, rule, notification or form made or issued under that Act.

SCHEDULE I.

ENACTMENTS EXTENDED TO EASTERN BENGAL.

(*See section 3.*)

YEAR.	Number.	Short title.	How far extended.	REMARKS.
1	2	3	4	5
		Bengal Acts.		
1899	I	The Bengal General Clauses Act, 1899.	The whole Act, so far as it is applicable to— (1) the other Acts specified in this Schedule, and (2) any Bengal Act hereafter passed and extending to Eastern Bengal.	This Act was repealed in Eastern Bengal by the Eastern Bengal and Assam General Clauses Act, 1909 (Eastern Bengal and Assam Act I of 1909). Its re-extension to Eastern Bengal is necessary— (1) in consequence of the proposal to extend thereto the other Bengal Acts specified in this Schedule, and (2) in order to facilitate the working of future Bengal Acts therein.
1909	II	The Bengal Court of Wards (Amendment) Act, 1909.	The whole Act ...	This Act is identical with Eastern Bengal and Assam Act I of 1911. It is proposed to extend it to Eastern Bengal, and to repeal Eastern Bengal and Assam Act I of 1911 there by an entry in Schedule IV.
1910	II	The Bengal Municipal (Amendment and Validation) Act, 1910.	Sections 1 and 2 ...	Section 2 of this Act amends Bengal Act III of 1884 (Municipalities), which is in force in Eastern Bengal. No similar amending Act has been passed for Eastern Bengal, and it is proposed to extend sections 1 and 2 of the Act thereto, in order to assimilate the law as to Municipalities in Eastern and Western Bengal.
1911	II	The Bengal Vaccination (Amendment) Act, 1911.	The whole Act ...	This Act amends Bengal Act V of 1880, which is in force in Eastern Bengal. No similar amending Act has been passed for Eastern Bengal, and it is proposed to extend the Act thereto, in order to assimilate the vaccination laws in Eastern and Western Bengal.
1911	V	The Calcutta Improvement Act, 1911.	Section 82, and section 86 in so far as it affects section 82.	Although this Act mainly extends only to the Calcutta Municipality and certain neighbouring areas, section 82, and section 86 (in so far as it affects section 82), extend to the whole Province of Bengal as constituted when the Act was passed. Eastern Bengal having since been added to Bengal, it is proposed to extend these sections to the former area.

SCHEDULE II.

ENACTMENTS EXTENDED TO WESTERN BENGAL.

(*See section 4.*)

1	2	3	4	5
Year.	Number.	Short title.	How far extended.	REMARKS.
		Eastern Bengal and Assam Acts.		
1907	I	The Eastern Bengal and Assam Land Registration (Amendment) Act, 1907.	The whole Act ...	Sections 5, 8, 10 and 16 of Eastern Bengal and Assam Act I of 1907 differ from the corresponding sections of Bengal Act II of 1906. The former sections being considered preferable to the latter, it is proposed to extend the former Act to Western Bengal, and to repeal the latter Act there by an entry in Schedule IV.

SCHEDULE II—*concluded.*

ENACTMENTS EXTENDED TO WESTERN BENGAL—*concluded.*

(*See section 4.*)

Year.	Number.	Short title.	How far extended.	REMARKS.
1	2	3	4	5
		Eastern Bengal and Assam Acts—concld.		
1907	II	The Eastern Bengal and Assam Disorderly Houses Act, 1907.	The whole Act ...	This Act is fuller than the corresponding Act (Bengal Act III of 1906) in force in Western Bengal. It is therefore proposed to extend the Act to Western Bengal, and to repeal Bengal Act III of 1906 there, by an entry in Schedule IV. Section 3 of Bengal Act III of 1907 having declared that Bengal Act III of 1906 shall not apply to any Municipality, constituted under the Bengal Municipal Act, 1884, in which the Calcutta Suburban Police Act, 1866, is in force, it is proposed, in the proviso to clause 4 of the Bill, to make a similar declaration in respect of Eastern Bengal and Assam Act II of 1907.
1909	I	The Eastern Bengal and Assam General Clauses Act, 1909.	The whole Act, so far as it is applicable to the other Acts specified in this Schedule.	The extension of this Act to Western Bengal is consequential upon the proposal to extend thereto the other Eastern Bengal and Assam Acts specified in this Schedule.
1912	III	The Eastern Bengal and Assam Military Police Act, 1912	The whole Act ...	This Act is more up to date than Act V of 1892, and it is proposed to extend it to Western Bengal, and to repeal the latter Act there by an entry in Schedule IV.

SCHEDULE III.

ENACTMENTS AMENDED.

(*See section 5.*)

YEAR.	Number.	Short title.	Amendments.	REMARKS.
1	2	3	4	5
		Bengal Acts.		
1866	III	The Bengal Legislative Council (Witnesses) Act, 1866.	*For the words* Lieutenant-Governor of Bengal *and the words* Lieutenant-Governor, *wherever they occur, substitute the words* Governor of Fort William in Bengal.	The effect of section 3 of, and item 1 in Schedule D to, the Bengal, Bihar and Orissa and Assam Laws Act, 1912 (VII of 1912), is to transfer the powers of the Lieutenant-Governor under Bengal Act III of 1866 to the Governor in Executive Council. These powers ought, however, to be exercised by the Governor personally, as President of the Legislative Council.
1876	VII	The Land Registration Act, 1876.	In section 31, *for the words* the said section, *where they first occur, substitute* section 30.	Consequential upon the proposed repeal of part of section 31 of Bengal Act VII of 1876 in Schedule IV, *post.*

SCHEDULE III – *concluded.*

ENACTMENTS AMENDED—*concluded.*

(*See section 5.*)

YEAR.	Number.	Short title.	Amendments.	REMARKS.
1	2	3	4	5
		Bengal Acts—concld.		
1879	IX	The Bengal Court of Wards Act, 1879.	*For* clause (*a*) of section 64 A (which was inserted for Western Bengal by Bengal Act I of 1906, section 10, and for Eastern Bengal by E. B. and A. Act III of 1907, section 12) *substitute* (*a*) in the Calcutta Gazette.	The object of this amendment is to remove the reference to Vernacular Official Gazettes, which have been discontinued in Bengal since the 1st April, 1912.
1899	I	The Bengal General Clauses Act, 1899	*To* clause (6) of section 3 *add* or the Indian Councils Acts, 1861, 1892 and 1909, or made by the Governor in Council of Fort William in Bengal under the Indian Councils Acts, 1861, 1892 and 1909.	Consequential upon the passing of the Indian Councils Act, 1909 (9 Edw. 7, c. 4.) and the creation of a Legislative Council for the Governor of Fort William in Bengal.
		Eastern Bengal and Assam Act.		
1907	I	The Eastern Bengal and Assam Land Registration (Amendment) Act, 1907.	In section 6, *before* alphabetical *insert* the.	This corrects a clerical error.

SCHEDULE IV.

ENACTMENTS REPEALED.

(*See section 6*)

YEAR.	Number.	Short title	Extent of repeal.	REMARKS.
1	2	3	4	5
		Bengal Regulation.		
1817	XX	The Bengal Police Regulation, 1817.	So much as has not been repealed.	This Regulation is obsolete.
		Acts of the Governor General of India in Council.		
1856	XXII	The Karatoya Tolls Act, 1856.	The whole Act ...	This Act is obsolete, as the Karatoya river is not now navigable. If the river be made navigable at any future time, the Canals Act, 1864 (Ben. Act V of 1864), can be applied to it by notification under its second section.
1892	IV	The Court of Wards Act (Bengal) Amendment Act, 1892.	Sections 5 and 11 ...	Superseded by sections 2 and 6 of Bengal Act 1 of 1906 and sections 2 (*1*) and 8 of Eastern Bengal and Assam Act III of 1907, respectively.
„	V	The Bengal Military Police Act, 1892.	The whole Act ..	This repeal is consequential upon the proposal (in Schedule II, *ante*) to extend Eastern Bengal and Assam Act III of 1912 to Western Bengal.

SCHEDULE IV—*concluded.*

ENACTMENTS REPEALED—*concluded.*

(*See section 6*).

YEAR.	Number.	Short title.	Extent of repeal.	REMARKS.
1	2	3	4	5
		Bengal Acts.		
1862	VIII	The Bengal Zamindari Dák Act, 1862.	The whole Act, so far as it applies to Eastern Bengal.	This Act is obsolete. It was repealed in Western Bengal by Act IV of 1907, but has never been formally repealed in Eastern Bengal.
1876	VII	The Land Registration Act, 1876.	In section 31, *the words* by clause (*c*) of the last preceding section to give notice to the Collector of the establishment of any new village, or.	Consequential upon the repeal of clause(*c*) of section 30 of Bengal Act VII of 1876 by section 16 (*d*) of E. B. and A. Act I of 1907.
1904	III	The Bengal Settled Estates Act, 1904.	In section 86, *the words* and also in such Vernacular Gazettes (if any) as the Local Government may direct.	The Vernacular Official Gazettes of Bengal have been discontinued since the 1st April, 1912.
1906	II	The Bengal Land Registration (Amendment) Act, 1906.	The whole Act ...	The repeal of this Act is consequential upon the proposal (in Schedule II, *ante*) to extend Eastern Bengal and Assam Act I of 1907 to Western Bengal.
„	III	The Bengal Disorderly Houses Act, 1906.	The whole Act ...	The repeal in this Act is consequential upon the proposal (in Schedule II, *ante*) to extend Eastern Bengal and Assam Act II of 1907 to Western Bengal.
1909	I	The Indian Lunatic Asylums (Amendment) Act, 1909	The whole Act ...	This Act amended Act XXXVI of 1858, which has been repealed and re-enacted by Act IV of 1912 Act IV of 1912 supersedes Bengal Act I of 1909, but does not expressly repeal it. The Act of 1909 having become obsolete, it is proposed to repeal it.
		Eastern Bengal and Assam Acts.		
1907	I	The Eastern Bengal and Assam Land Registration (Amendment) Act, 1907.	In section 2 (*l*), *the word* Bengal.	This corrects a clerical error The short title of Bengal Act VII of 1876 is "the Land Registration Act, 1876," not "the *Bengal* Land Registration Act, 1876."
1911	I	The Eastern Bengal and Assam Court of Wards (Amendment) Act, 1911.	The whole Act ...	The repeal of this Act is consequential upon the proposal (in Schedule I, *ante*) to extend Bengal Act II of 1909 to Eastern Bengal.

STATEMENT OF OBJECTS AND REASONS.

The main object of this Bill is to assimilate certain enactments in force in Eastern Bengal and Western Bengal, respectively, by—

(1) extending to Eastern Bengal certain enactments of the Bengal Legislative Council which apply only to Western Bengal,

(2) extending to Western Bengal certain enactments of the Eastern Bengal and Assam Legislative Council, and

(3) repealing corresponding enactments which are now in force in the areas affected.

2. The opportunity has been taken to propose the formal amendment of certain enactments in force in Bengal and the repeal of others which are no longer required.

3. Each proposal is explained in column 5 of the Schedules annexed to the Bill. That column is inserted for present convenience, and will be removed before the Bill is passed.

4. Clauses 1 to 6 of the Bill are of a formal character. Clause 7 is required because section 25 of the Bengal General Clauses Act, 1899 (Ben. Act I of 1899), which refers only to "re-enactment", would not be sufficient to continue in force orders and other instruments made under Acts which it is proposed to repeal in order to make way for corresponding Acts of the Eastern Bengal and Assam Legislative Council.

RESOLUTION ON THE ANNUAL REPORT ON EMIGRATION FROM THE PORT OF CALCUTTA TO BRITISH AND FOREIGN COLONIES DURING THE YEAR 1912.

GENERAL DEPARTMENT.

EMIGRATION.

CALCUTTA, THE 1ST JULY 1913.

RESOLUTION—No. 3218.

READ—

The Annual Report on Emigration from the Port of Calcutta to British and Foreign Colonies during the year 1912.

THE most important event of the year was the discontinuance of the emigration of indentured coolies from India to the Colony of Mauritius.

The illegal despatch of certain Muhammadans from Calcutta to work as tailors in Bangkok (Siam) having been brought to the notice of Government, a prosecution under section 97(*d*) of the Indian Emigration Act was instituted and resulted in the conviction of the recruiter. It is reported that no further cases of such illegal recruitment have taken place.

2. As in the previous year, there were five emigration agencies in Calcutta, but only four worked on behalf of British Colonies, the fifth being employed by the Dutch Colony of Surinam. The total number of labourers requisitioned was 10,447 as against 9,706 in the previous year. The number supplied was 8,227 as against 8,861. Though the supply of labourers thus fell short of the demand, the deficiency in the case of Jamaica was practically made up by the despatch of 512 statute adults shortly after the close of the year, while the shortage of 1,600 shown in the case of Fiji is more apparent than real, since the major portion of the requisition for that colony was met from the Madras Presidency. Surinam alone of all the colonies failed to secure the required number of coolies.

3. The number of licenses issued to recruiters in 1912 was 1,065 as compared with 724 in 1911. No reason for this large increase has been given. The increase in the number of emigrants requisitioned by the several colonies may have been a contributing cause, but a further explanation seems to be required, and the matter will be investigated. Fifty-four licenses were cancelled during the year for various causes as against 22 in the previous year. Twenty-nine of these were licenses granted in 1911. Operations were conducted in Bengal, Bihar and Orissa, the United Provinces, Ajmere, the Central Provinces and the Punjab, the largest number of emigrants, nearly 75 per cent. of the total, coming, as usual, from the United Provinces.

4. The total number of emigrants registered was 11,698 as compared with 12,716 last year. The decrease is due to the fact that Fiji recruited about two-thirds of her labourers from Madras instead of shipping them through Calcutta. Nine hundred and fifty-five coolies were rejected as unfit. 47 deserted and 54 were released from their engagements. The deductions on these accounts amounted to 10·14 per cent. as against 11·61 in the previous year; 4·71 per cent. of the persons who actually embarked were returned emigrants who volunteered for registration. The percentage in the previous year was 5. The largest number of emigrants—2,637—again went to Trinidad, followed by Demerara with 2,392 and by Jamaica with 1,457.

5. The Governor in Council is gratified to see that the sanitary arrangements at the depôts continued to maintain their usual high state of efficiency, as is shown by the decrease in the percentages of deaths and sickness from ·31 to ·22 per cent. and from 7·43 to 6·11 per cent., respectively. There were no cases of cerebro-spinal meningitis in the British Guiana Emigration Depôt, where a segregation hospital for the open-air treatment of the disease was established in 1911. Orders have accordingly issued to the effect that the experiment shall be continued for another year. The general figures, however, in respect of this disease during 1912 show a decrease from those of 1911, viz., from 29 cases with 17 deaths to 12 cases with 10 deaths.

6. Two thousand one hundred and eleven emigrants left the colonies during the year, bringing with them savings aggregating Rs. 4,11,165, or an average of Rs. 194-12-4 per head as compared with Rs. 156-5-3 in 1911. Of the 236 emigrants who returned from Mauritius, only 50 paid for their passages and were supposed to have brought back savings. None of them, however, declared any savings on their arrival at Calcutta; the remaining 186 emigrants are reported to have been paupers. The average remittances to India by resident immigrants show little variation from the figures of the previous year. Natal's total of nearly eleven lakhs of rupees again far exceeded the sums remitted from other colonies. As observed, however, in last year's resolution, the Natal figures probably include remittances by traders and other Indian immigrants who are not labourers. The remittances from Mauritius and Fiji show slight increases on the figures for the preceding year, the totals being Rs. 61,481 as against Rs. 53,878 for the former, and

Rs. 57,300 as against Rs. 47,730 for the latter colony. It is reported by the Protectors of Emigrants for these two colonies that the remittances would have been larger but for the fact that immigrants invest considerable sums of money in the purchase of immoveable property and draught animals, obviously with a view to permanent settlement in the country.

7. Two hundred and ninety-six estates of deceased emigrants, valued at Rs. 24,425, were administered by Government during the year. Of these, the heirs of 181 were traced, 64 lapsed to the Colonial and Indian Governments, and the cases of the rest were under inquiry at the end of the year. The emigration accounts closed with a deficit of Rs. 118, but this is accounted for by the fact that a sum of about Rs. 1,700 in respect of fees for emigrants embarked in December was not paid until January 1913.

8. Dr. Banks held the post of Protector of Emigrants throughout the year. The thanks of the Governor in Council are due to him for the efficient manner in which he carried out his duties.

By order of the Governor in Council,

H. F. SAMMAN,

Offg. Secretary to the Government of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 30th June 1913.

Summary.—During the week under report heavy rain fell nearly all over the province causing some damage to standing crops in the western districts and also in Backerganj and Tippera. Preparation of lands for winter rice and transplantation of the same are in progress. The average price of common rice for the province has slightly risen as compared with that of the previous week. Agricultural loans are being issued in the Chittagong Hill Tracts. Scarcity of fodder is still reported from parts of Jessore, Tippera, Noakhali and Bogra. Cattle-disease is reported from seven districts.

No. 5015—5030—62, dated Simla, the 26th June 1913.

RESOLUTION—By the Government of India, Commerce and Industry Department.

INTIMATION has been received from His Majesty's Secretary of State for India that there is little probability of natives of India finding employment in Shanghai and Hankow as watchmen or in similar capacities.

The Governor-General in Council accordingly requests all Local Governments and Administrations to make the above intimation as widely known as possible, particularly in places from which emigration to China is believed to be most common. Intending emigrants should also be warned at the ports of embarkation of the risks they run in proceeding to Shanghai and Hankow.

ORDERED that a copy of the above Resolution be forwarded for information and guidance to the Local Governments and Administrations* noted in the margin and to the Home and Foreign Departments for information.

ORDERED, also, that a copy be published in the *Gazette of India* for general information.

Subjects for examination.

8. The subjects for examination shall be Materia Medica; Pharmacy; reading in English, and writing from dictation in English, prescriptions and labels for prescriptions; and compounding, mixing, preparing and dispensing drugs.

Certificates to be produced before admission to examination

9. No person shall be admitted to an examination held under these rules unless—

(*a*) he produces a certificate of training, and the certificate required by rule 11 to be forwarded to the examining institution is in the hands of the examiners, or

(*b*) he is a student of the third year in the licentiate class in the Campbell Medical School, Sealdah, or in the Medical School at Dacca, and he produces a satisfactory certificate from the teacher of Materia Medica and Therapeutics of the medical school concerned as to the candidate's conduct and attendance at the dispensary and Materia Medica class.

Contents of certificate of training.

10. The certificate of training required by rule 9 must state either—

(*1*) that the holder thereof—

(*a*) has attended regularly for one year or more the class established for Apprentice Compounders in the Campbell Medical School, Calcutta, the Medical School, Dacca, or the Hospital of the Church of Scotland Mission, Kalimpong, Darjeeling, as the case may be, and

(*b*) has received instruction in Materia Medica; in Practical Pharmacy; in reading in English, and writing from dictation in English, prescriptions and labels for prescriptions; and in compounding, mixing, preparing and dispensing drugs, and

(*c*) has acquired a sufficient knowledge of Materia Medica and Pharmacy, and can accurately dispense prescriptions in English, or

(*2*) that the holder thereof—

(*i*) has served for three years as an Apprentice Compounder in some Chemist's or Druggist's establishment recognized for this

purpose by the Inspector-General of Civil Hospitals, Bengal, or in some hospital or charitable dispensary under the management or supervision of the Government in which the said Inspector-General has authorized the reception of persons for the purpose of being trained as compounders, and

(*ii*) has acquired a sufficient knowledge of Materia Medica and Pharmacy, and can accurately dispense prescriptions in English.

Certificate to be forwarded to Examining Institution at commencement of training.

11. At the time when any person is first received into any school or hospital mentioned in rule 10 (*1*) (*a*), or into any establishment or institution of the nature described in 10 (*2*) (*i*), for the purpose of being trained as an Apprentice Compounder,—

(*a*) the Superintendent of the Medical School, or

(*b*) in case of the Hospital at Kalimpong, the Medical Missionary in charge, or

(*c*) in case of a Chemist's or Druggist's establishment, the legally qualified Manager thereof, or

(*d*) in other cases the Civil Surgeon of the district,

shall make entry of his name and descriptive roll in a register to be kept for the purpose, and shall at the same time sign and forward to the examining institution a certificate in Form E, prescribed in the Schedule to these rules, containing a descriptive roll of the person, together with his signature and thumb-impression, showing the details mentioned in the form, stating his age, which shall not be less than seventeen years, and certifying that such person has a sufficient knowledge of Arithmetic and English to read and understand prescriptions and to write directions on labels.

Exemption from certificate under rule 11 in certain cases.

12. Notwithstanding anything contained in rule 9, a certificate under rule 11 shall not be necessary in the case of any person who produces a certificate of having passed the Matriculation Examination or Entrance Examination of an Indian University either fully or in the subject of English, or a certificate of having passed the Middle English Scholarship examination.

Power to refer certificate of training for inquiry.

13. The President of an Examining Committee may, before accepting any certificate of training under rule 9, refer it to the Inspector-General of Civil Hospitals, Bengal, for inquiry; and may, after such inquiry, either accept or reject the certificate at his discretion.

Signature of certificates.

14. (*1*) Certificates granted under rule 2 shall be signed, in cases (*a*), (*b*) and (*c*), by the Principal of the Calcutta Medical College, in case (*d*) by the Superintendent of the Government Medical School, and in case (*e*) by the Inspector-General of Civil Hospitals, Bengal.

(*2*) Every certificate granted under rule 3 shall be signed by the President and each Member of the Examining Committee mentioned in rule 7.

(*3*) No certificate of training shall be accepted under rule 9, unless it is signed by the Superintendent of the School, the Medical Missionary in charge of the Hospital at Kalimpong, a legally qualified Manager of a Chemist's or Druggist's establishment, or the Civil Surgeon of the district, as the case may be.

Form of certificates.

15. (*1*) Every certificate granted under rule 2 or rule 3 shall be in Form A or Form B, as the case may be, prescribed in the Schedule to these rules.

(*2*) Every certificate in Form B must contain a descriptive roll of the person to whom the same is granted, showing the details mentioned in the form; and such roll must be signed by such person and by the President of the Examining Committee mentioned in rule 7.

(*3*) Every certificate granted under rule 10 shall be in Form C or Form D, as the case may be, prescribed in the Schedule to these rules.

Re-examination after failure to pass

16. No person who has presented himself for examination under these rules and failed to pass the examination shall be permitted to undergo a further examination, unless he produces a certificate in Form F, prescribed in the Schedule to these rules, showing that he has attended and received instruction, or served, as required by rule 10, for a further period of six months.

No. 1411—Medl.—The 7th July 1913.—It is hereby notified for general information that the Governor in Council is pleased to make the following rules for the Compounders' classes at the Campbell Medical School and the Dacca Medical School in supersession of all previous rules on the subject :—

Calcutta.
Dacca.

RULES.

A.—*Admission of candidates and fees.*

1. A candidate for admission into the compounder class must be between 17 and 28 years of age, and his name must be registered between the 1st and 15th of April, or between the 1st and 15th of October, of every year.

2. A candidate shall be required to produce a certificate of residence and respectability (1) from any Government officer not below the rank of Deputy Magistrate serving in the district in which he ordinarily resides, or (2) from the Head Master of the School where he was last educated (bearing a date not earlier than one year from the date of application for admission), or (3) from any person satisfactory to the Superintendent.

3. A candidate will be admitted without any examination as regards his preliminary education on producing a certificate of having passed

(*a*) the Matriculation or Entrance examination of an Indian University either fully or in the subject of English, or

(*b*) the Middle English Scholarship examination.

4. A candidate who is unable to produce a certificate under rule 3 will be required to undergo a qualifying examination at the Medical School in—

(*a*) reading and writing English,

(*b*) arithmetic, (simple addition, subtraction, multiplication, division, vulgar fractions and the rule of three).

5. A bonded student from a local body will be admitted on producing a certificate from the Civil Surgeon of the district that he has successfully passed an examination in English and simple arithmetic as detailed in rule 4.

6. The maximum number of students to be admitted is limited to 100 in the Campbell Medical School and 100 in the Dacca Medical School. Should applications be received in excess of the number of vacancies, preference will be given to those candidates who hold the best educational certificates.

7. Every male candidate shall pay a tuition fee of Re. 1 per month. Female candidates will be trained free of charge.

8. School fees must be paid half yearly in advance on or before the 15th of April and the 15th of October of every year. A student who defaults will be liable to a fine to be fixed by the Superintendent for each day's delay. Should the 15th of April or the 15th of October fall on a Sunday or a recognised holiday the school fees shall be received without fine on the re-opening day, except in the case of the Summer and Durga Puja vacations. If the school fee have not been paid by the due date, the Superintendent may remove the defaulter's name from the register and refuse him admission. A student who resigns or leaves the school before the expiry of the half year for which he paid his fee in advance shall forfeit his advance fee.

9. A student whose name has been removed from the register for non-payment of fees may, if his conduct and attendance in the school be good, be admitted again at the beginning of the following session into the class to which he belonged, on payment of any outstanding fees.

10. The Superintendent may refuse to re-admit any student on account of incompetence or misconduct.

B.—*Course of study and instruction.*

11. The course of study shall extend over a period of one year. The course of instruction will include—

(1) Practical Pharmacy.

(2) Reading prescriptions and labels and writing them in English from dictation.

(3) Criticism of prescriptions as to dosage and incompatibles, and the action to be taken when a prescription is not understood or is dangerous.

(4) The compounding, mixing, preparing and dispensing of drugs and the avoidance of waste.
(5) The principles and practice of asepsis and antisepsis.
(6) Bandaging.

12. The students will be instructed daily at the Campbell and Dacca Medical Schools and at the Hospitals attached to them under the supervision of the teachers appointed for the purpose.

13. All students shall be required to attend a three months' course of lectures in Materia Medica and Pharmacy and also practical demonstrations given in the Museum by the teacher appointed for the purpose. They will also be required to attend courses of instruction at the hospitals in bandaging, dressing of wounds, preparing of antiseptic lotions and dressing in the operation-room, sterilizing of instruments, taking of temperature, etc. For this purpose they must help in the routine work of the wards and operation-room in rotation.

14. The Apothecary in the Campbell Medical School and the Sub-Assistant Surgeon in the Dacca Medical School who teaches Materia Medica and dispensing, shall, under the Superintendents, have charge of the class in all matters of discipline, etc. They will be assisted in this work by the Sub-Assistant Surgeons and the compounders under them.

15. The hours of attendance will be fixed by the Superintendent of the School.

C.—*Discipline.*

16. No student shall absent himself from the hospital or the class without the permission of the Superintendent to be obtained through the teacher in charge.

17. Absence from the dispensary or from Materia Medica demonstrations for more than four days in any month (except on authorised leave) shall disqualify a student for the whole year as regards the obtaining of certificates of training required under rule 9 of the rules for the grant of certificates to compounders issued under Bengal Government Notification No. 1410Medl., dated the 7th July 1913.

18. The scholarship of a bonded compounder student will be forfeited if he is absent (except on authorised leave) for more than four days in any month, as this renders him ineligible for appearing at the examination.

19. For the maintenance of discipline the ordinary punishments which may be inflicted by the Superintendents of the Medical Schools according to the nature of the offences are verbal reprimand, written reprimand in the order-book, extra duty, fine, stoppage of leave, rustication and expulsion from the school.

20. Expulsion is reserved for offences of a heinous nature, such as disgraceful or dishonourable conduct, persistent and wilful infringement of the rules, gross insubordination or disrespect towards the constituted authorities.

21. When a student is expelled a full report of the case, with the information required for his identification, must be submitted to the Inspector-General of Civil Hospitals, who will take measures to prevent the student's admission into any other class for the training of compounders.

22. Students breaking any article belonging to the dispensary or Medical School shall pay the value thereof and deposit the same in the office of the Superintendent.

D.—*Examination and grant of certificates.*

23. At the end of the year of study, eligible candidates will be supplied with certificates of training in the form prescribed in rule 10 (i) of the rules for the grant of certificates to compounders, to enable them to appear at the examination to be held under rules 5, 6, 7 and 8 of the same rules.

24. A student who fails at the compounders' examination for the first time will be permitted to attend the compounder class of the Medical School on payment of the usual monthly tuition fee in advance for a term of another six months, at the end of which he shall (if eligible) be furnished with a fresh certificate of training to enable him to appear at the next examination. Should he fail for the second time, he will be allowed on the above condition to attend the class for another term of six months and furnished

with the necessary certificate of training to enable him to appear at the examination for a third time. Should he fail for the third time, he will not be permitted to attend the class again.

25. All male candidates must forward to the President of the Committee of Examiners an examination fee of Rs. 5, at least one week before the date fixed for the examination. A fresh fee must be paid on each occasion that the candidate enters for the examination, but a candidate, who, after payment of the fee, is unable, through illness, to attend the examination, wi l be allowed, on producing a satisfactory medical certificate to that effect, to attend the next examination without payment of a fresh fee.

NOTE.—Female candidates are examined free of charge

26. In addition to the examination prescribed by rule 5 of the Rules for the grant of certificates to compounders, the students of the compounder class of the Medical Schools at the end of the one year of study and the students of the Licentiate class of these schools on the completion of their second year's course, will be allowed to appear at an optional examination, to be conducted by the Superintendent of the School as President and two of the teachers as members, in minor bandaging, preparation of anti-septic lotions and dressings, sterilization of dressings and instruments, and in all the minor duties of hospital work. No additional fee shall be charged for this optional examination.

27. Every student who passes the optional examination under rule 26 shall be granted an additional certificate in the form annexed to these rules, that he is qualified for the duties of a hospital dresser and for hospital ward work generally.

28. An applicant for a duplicate copy of his pass certificate must pay to the President of the Examination Committee by which he was examined, a fee of Rs. 2 and produce an affidavit sworn in a Magisterial Court showing:—

1. Name and residence.
2. Father's name and residence.
3. Date on which he passed and obtained the certificate.

The affidavit should also show that due search has been made for the certificate by the applicant, that there is no hope of its recovery, and that the affidavit has been made by the applicant with a view to apply to the President for the issue of a duplicate certificate in his favour.

Orders and Notifications by the Government of India.

The following order, issued by the Government of India in the Finance Department, published in the *Gazette of India* (Extraordinary), dated the 4th July 1913, is republished for general information.

J. G. CUMMING,
Offg. Chief Secy. to the Govt. of Bengal

NOTIFICATION.

ACCOUNTS AND FINANCE.
PUBLIC DEBT.

No. 695F.

THREE-AND-A-HALF PER CENT. LOAN.

His Excellency the Right Honourable the Governor-General in Council has resolved to borrow three hundred lakhs of rupees for the public service in the following manner:—

2. The Promissory Notes will be issued for the said amount in the Form annexed to this Notification, being the form of the notes of *the Three-and-a-half Per Cent. Loan of 1900-01*, of which loan the notes to be now issued will form a part. All the conditions which apply to notes of *the Three-and-a-half Per Cent. Loan of 1900-01*, will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December.

Tenders.

3. Tenders for the whole or any part of the said amount of Rs. 3,00,00,000 will be received by the Comptroller-General at the Treasury Buildings, Calcutta, from this date to noon, standard time,* of Friday, the 18th July 1913. Tenders must be for sums of 100 Rupees or multiples of that sum.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller-General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three-and-a-half Per Cent. Loan.*" If the tenderer is not resident in India, he must name an agent resident in

* Noon, standard time, corresponds to 12-24 P.M., Calcutta time.

India, to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

NOTE (1).—Tenders made in accordance with these instructions will also be received by the Accountants-General at Madras and Bombay on account of the Comptroller-General, Calcutta, on the 17th July, and up to noon, standard time,* on the 18th July: provided that—

(*a*) they are delivered personally or by clerk or messenger at the Accountant-General's Office (where a receipt will be given for them);

(*b*) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank;

(*c*) each tender is for not less than Rs. 10,000;

(*d*) the deposit is either a promissory note or a Treasury Receipt from the local office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant-General;

(*e*) the amount of the tender is made payable at the place of tender, viz., Madras or Bombay (as the case may be) or in Calcutta;

and the Accountant-General will return deposits on non-accepted tenders and will issue allotment-certificates so far as the tenders are payable in Madras or Bombay.

5. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

Deposits.

7. Each tender must be accompanied by a deposit of not less than one-hundredth or, if the tender be for less than five lakhs of rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (*a*) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (*b*) a cheque drawn in favour of the Comptroller-General on a Bank in Calcutta, Madras or Bombay, or (*c*) Government Promissory Notes[1] standing in the name of, or endorsed to, the tenderer or the person making the deposit.

[1] *It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller-General.*

8. (*a*) Deposits, not being promissory notes, will, in the case of accepted tenders, be credited proportionately in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(*b*) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

Opening of Tenders.

9. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller-General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller-General at the Treasury Buildings, Calcutta, at noon, standard time,* on Friday, the 18th July next, and those received under the terms of note (1) to clause 4 will be similarly opened by the Accountants-General at Madras and Bombay

* Noon, standard time, corresponds to 12-24 P. M., Calcutta time.

at noon, standard time,* on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders: provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100: preference will however be given to small tenders, not exceeding Rs. 2,000, at the lowest accepted rate, such tenders receiving allotments in full as far as possible.

Allotment-Certificates.

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part, such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller-General[1] as soon as possible after the 18th July, and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras and Bombay.

[1] For tenders received by the Accountant-General at Madras or Bombay, and payable at those places, the Accountant General will issue the allotment-certificates

13. If the allotment made on any tender is less than Rs. 3,000, then the whole of the allotment-certificates [after credit of the deposit under clause 8 (*a*)] will be made payable upon the 30th August.

Otherwise, the whole amount of each allotment will be divided into two instalments as follows:—

Instalment I.—As near as convenient to 50 per cent., but not less than 50 per cent., payable upon the 4th August:

Instalment II.—The balance payable upon the 30th August,

and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of Rs. 100.

14. Any allotment-certificates will, on application to the Comptroller-General at Calcutta, be exchanged for an equivalent amount of allotment-certificates of smaller denominations: provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal, or Madras, or Bombay, or in any Branch of these Banks or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras and Bombay, or their Branches, or by the officers in charge of the Government Treasuries at which payment is made, by enfacement upon the relative certificate,

Issue of Promissory Notes.

16. (*a*) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than Rs. 100) bearing interest from the 31st December 1913, and he will also receive interest at 3½ per cent. per annum from the dates on which he may have made payment till the 30th December 1913.

(*b*) Or he may, at his option, by paying interest at the said rate from the 30th June 1913 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from the 30th June 1913.

NOTIFICATION BY THE COMPTROLLER-GENERAL.

THE Comptroller-General requests the attention of tenderers to the following arrangements :—

Filling up Tenders.

(1) They are requested to use only the printed forms of tender, which will be available at his office and at the Currency Office on application to the Darwan on duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras and Bombay, and will also be supplied to the Principal Treasuries.

(2) If the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

Presentation of Tenders.

(3) For all tenders presented to him in his office at Calcutta upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose. The Accountants-General at Madras and Bombay will do likewise in respect of tenders presented to them under note (1) to clause 4 of the Government Notification.

Return of Deposit in case of Non-acceptance.

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller-General or Accountant-General a receipt for the deposit accompanying it. This form should, on the third day after the opening of the tenders, be filled up, signed with the same signature as the tender, and be presented at the Calcutta Office of the Comptroller-General or the office of the Accountant-General. The deposit will then be returned to the bearer in exchange for the receipt.

(5) Deposits upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

Accepted Tenders.

(6) The Comptroller-General at Calcutta and the Accountant-General at Madras or Bombay (in the case of tenders received by such Accountant-General and payable in Madras or Bombay), will issue allotment-certificates to successful tenderers. These certificates will be for the following amounts :—Rs. 100, Rs. 300, Rs. 500, Rs. 1,000, Rs. 2,000, Rs. 5,000, Rs. 10,000, Rs. 20,000, Rs. 50,000, Rs. 1,00,000, making up the full value accepted; and the deposit on the tender will be divided among them; they will be substantially of the following form :—

This is to certify that, in accordance with the terms of Notification No. 695-F., dated the 4th July 1913 (Gazette of India, Extraordinary, dated the 4th July 1913), the abovenamed tenderer has engaged to take up Rs. 2,000 of the 3½ per cent. Loan of 1900-01 at the rate abovementioned on or before : and that on the said payment being completed, he is entitled on endorsing and delivering up this certificate to receive a promissory note or notes of the Government of India for Rs. 2,000 bearing interest from

Arrangements will be made for systematic courses of lectures, tutorial classes, moot courts and regular exercises. Facility will also be given to students to read in the College Library.

The College fees will be Rs. 6 per month. An admission fee of Rs. 6 will be charged in the case of first admission to the College.

Sixteen scholarships of Rs. 10 a month, each tenable for one year, have been established. Five of these will be open to competition among students of the First-year Class, six among the students of the Second-year Class and five among the students of the Third-year Class. The scholarships in the First-year Class will be awarded towards the end of September, upon the results of the College test to be held at that time; those in the Second-year Class will be awarded upon the results of the Preliminary Examination

in Law, and those in the Third-year Class upon the results of the Intermediate Examination in Law. All these scholarships take effect retrospectively from the beginning of the session. Twenty-four scholarships of Rs. 6 a month tenable for one year will also be awarded from the endowment established by the Maharaja Manindrachandra Nandy of Cossimbazar. Students who have graduated from the Krishnath College, Berhampur, will have a preferential claim to these scholarships. But no scholarship will be awarded to a student who has not satisfactorily acquitted himself at the University or College Examination, as the case may be.

Two scholarships of Rs. 32 a month, each tenable for two years, have been established, to be open to competition among students who have prosecuted their studies in the University Law College not less than a year. The award will be made upon the results of the Final Examination in Law and on condition that the recipients do prosecute a course of study for the M.L. Examination under the direction of the Principal.

Provision has been made for the residence of students who do not reside with their parents or *bonâ fide* guardians approved by the Principal of the College. There is accommodation for the residence of 150 students in that portion of the College premises known as the Hardinge Hostel. For students in excess of this number, separate houses have been engaged, sufficient to accommodate another two hundred. A separate house has also been engaged for Mahomedan students. As accommodation in the Hardinge Hostel and in the attached messes is strictly limited, students are advised to apply before the 30th June 1913.

Students are recommended in all cases to take their admission before the 7th July 1913.

To the College is attached an extensive Law Library containing numerous sets of Reports and Text-books, the Library is divided into two sections—(A) for reference, (B) for lending. Books in Section (A) may be consulted by students at any time from 7 A.M. to 8 P.M. Books in Section (B) may be borrowed by students; no deposit is required, if one volume is borrowed. Those who deposit Rs. 5 are allowed to borrow two volumes at a time.

The College is held in the spacious apartments of the Darbhanga Buildings and ample provision has been made for Reading Rooms.

During the last session, the Hon'ble the Vice-Chancellor presided over many of the moot courts and delivered courses of lectures to B.L. and M.L. students. This arrangement will be continued during the ensuing session. Courses of lectures will also be delivered by the Principal for the benefit of M.L. students. Except by special order, no one will be admitted to M.L. lectures who has not taken his Degree in Law from the University College.

All applications for admission are to be addressed to the Principal, University Law College, Senate House, Calcutta. Further information as also a detailed programme of the work and rules for residence in the Hardinge Hostel may be obtained on application to the Librarian, University Law College, Senate House, Calcutta.

GOVERNMENT OF BENGAL.

BENGAL LEGISLATIVE COUNCIL.

NOTIFICATION.

No. 943L., dated the 7th July, 1913.—His Excellency the President having been pleased to order, under rule 39 (*b*) of the Bengal Legislative Rules, 1912, the publication of the Report of the Select Committee to which the Bill to assimilate certain enactments in force in Eastern and Western Bengal, to amend certain enactments, and to repeal certain other enactments was referred, the Report of the said Committee, with the Bill, as amended by them, annexed, is hereby published for general information.

REPORT OF THE SELECT COMMITTEE ON THE BENGAL LAWS BILL, 1913.

WE, the undersigned Members of the Select Committee to which the Bill to assimilate certain enactments in force in Eastern and Western Bengal, to amend certain enactments, and to repeal certain other enactments, was referred, have considered the Bill and have the honour to submit this our Report, together with the Bill, as amended by us, annexed thereto.

We approve the provisions of the Bill subject to the two amendments made in Schedules I and II, which have been underlined in the reprint of the Bill. These amendments relate to the Bengal General Clauses Act 1899, (Ben. Act I of 1899) and the Eastern Bengal and Assam General Clauses Act (Eastern Bengal and Assam Act I of 1909), respectively, the entries in regard to which in column 4 of the said Schedules appeared to us to be somewhat misleading. It is believed that the amendments made will tend to obviate any possible confusion in future in regard to the operation of these two Acts in the areas referred to in Schedules I and II.

We recommend that the Bill, as now amended, be passed.

to assimilate certain enactments in force in Eastern and Western Bengal, to amend certain enactments, and to repeal certain other enactments.

WHEREAS it is expedient to extend certain enactments of the Bengal Legislative Council to Eastern Bengal, and to extend certain enactments of the Eastern Bengal and Assam Legislative Council to Western Bengal;

And whereas it is also expedient that certain formal amendments should be made in enactments in force in Bengal;

And whereas it is also expedient that certain enactments in force in Bengal should be repealed;

And whereas the previous sanction of the Governor-General has been obtained, under section 5 of the Indian Councils Act, 1892, to the passing of this Act; 55 & 56 Vict., c. 14.

It is hereby enacted as follows:—

Short title. 1. This Act may be called the Bengal Laws Act, 1913.

Definitions. 2. In this Act,—

(1) "Eastern Bengal" means the territory mentioned in Part I of Schedule A to the Bengal, Bihar and Orissa and Assam Laws Act, 1912; and VII of 1912.

(*d*) "Western Bengal" means the territory mentioned in Part II of that Schedule.

Extension of enactments to Eastern Bengal. 3. The enactments specified in Schedule I are hereby extended to Eastern Bengal, to the extent mentioned in column 4 thereof.

Extension of enactments to Western Bengal. 4. The enactments specified in Schedule II are hereby extended to Western Bengal, to the extent mentioned in column 4 thereof:

Provided that the Eastern Bengal and Assam Disorderly Houses Act, 1907, shall not apply to any municipality, constituted under the Bengal Municipal Act, 1884, in which the Calcutta Suburban Police Act, 1866, is in force. [*Cf.* Ben. Act III of 1907, s. 3.] E. B. & A. Act II of 1907. Ben. Act III of 1884. Ben. Act II of 1866.

Amendment of enactments. 5. The enactments specified in Schedule III are hereby amended to the extent and in the manner mentioned in column 4 thereof.

Repeal of enactments. 6. The enactments specified in Schedule IV are hereby repealed to the extent mentioned in column 4 thereof.

Continuance of orders, etc., issued under certain repealed enactments. 7. Every appointment, order, rule, notification or form made or issued under— [*Cf.* Ben. Act I of 1899, s. 25.]

(*a*) the Land Registration Act, 1876, as amended by the Bengal Land Registration (Amendment) Act, 1906, Ben. Act VII of 1876. Ben. Act II of 1906.

(*b*) the Bengal Military Police Act, 1892, or Act V of 1892.

(*c*) the Bengal Disorderly Houses Act, 1906, Ben. Act II of 1906.

shall, so far as it is not inconsistent with—

(*i*) the Land Registration Act, 1876, as amended by the Eastern Bengal and Assam Land Registration (Amendment) Act, 1907. Ben. Act VII of 1876. E. B. & A. Act I of 1907.

(ii) the Eastern Bengal and Assam Military Police Act, 1912, or E. B. & A. Act III of 1912.

(iii) the Eastern Bengal and Assam Disorderly Houses Act, 1907, E. B. & A. Act II of 1907.

as the case may be, continue in force, and be deemed to have been made or issued under that Act, unless and until it is superseded by any appointment, order, rule, notification or form made or issued under that Act.

Dated the 9th June, 1913.

DEAR MR. CUMMING,

I am in receipt of your letter of the 14th May and the enclosed Abstract of the Proceedings of the Meeting of the Bengal Legislative Council held on Wednesday, the 2nd April, 1913. I shall be greatly obliged if you will convey to the Council my heartfelt thanks for their kind message of condolence and sympathy.

I remain,

Yours very truly,

(Sd.) MILDRED MARION BAKER.

QUESTIONS AND ANSWERS.

The Hon'ble MR. BYOMKES CHAKRAVARTI asked :—

1. Will the Government be pleased to state— Appeals to the Board of Revenue.

(*a*) the statutes which provide for appeals or applications for revision to the Boards of Revenue ;

(*b*) the number of appeals or applications preferred or made under each statute during each of the last five years from orders made with reference to disputes arising within the five Divisions now constituting the Presidency of Bengal, distinguishing those in which private parties only were interested from those to which the Government were a party ;

(*c*) the number of appeals or applications each year in which counsel were engaged ;

(*d*) the number of appeals or applications every year which were—

(*i*) abandoned,
(*ii*) rejected, and
(*iii*) successful ;

(*e*) the number of applications, if any, in each year in which the interference of the High Court was sought under the provisions of the Specific Relief Act, 1877 ?

The Hon'ble MR. SAMMAN replied :—

(*a*), (*b*), (*c*) & (*d*) "Statements (A), (B), (C) and (D) furnishing the information desired by the Hon'ble Member are laid on the table.

(*e*) There were no applications within the last five years in which the interference of the High Court was sought under the provisions of the Specific Relief Act, 1877."

The Hon'ble MR. BYOMKES CHAKRAVARTI asked :—

Statistics of appointments in the different Provincial Services.

2. Will the Government be pleased to lay on the table statistics showing the number of (*1*) Europeans, (*2*) Domiciled Europeans and Anglo-Indians, (*3*) Hindus, (*4*) Muhammadans (*5*) Indian Christians and (*6*) others holding—

(*a*) appointments in the different Provincial Services ;

(*b*) appointments—

(*i*) carrying salaries above Rs. 1,000 *per mensem*,

(*ii*) carrying salaries between Rs. 500 to Rs. 1,000 *per mensem*,

(*iii*) carrying salaries between Rs. 200 to Rs. 500 *per mensem* ?

The Hon'ble MR. CUMMING replied :—

"Statements (A) and (B) giving the required information are laid on the table."

The Hon'ble MAULVI MUSHARRAF HUSAIN, in the absence of the Hon'ble NAWAB SAIYID NAWAB ALI CHAUDHURI, KHAN BAHADUR, asked :—

3. (*a*) Will the Government be pleased to state the number of students in various colleges in the Presidency on the 31st December, 1912; and also how many of them are Hindus and how many of them are Muhammadans ?

(*b*) Will the Government be pleased to state what is the total number of such students in the case of—

(*i*) Hindus,

(*ii*) Muhammadans,

who have been provided with seats in Government hostels ?

(*c*) Will the Government be pleased to state what was the total expenditure incurred in making such provisions for Hindus and Muhammadans respectively within the period of 1887-1912 ?

The Hon'ble MR. SAMMAN replied :—

(*a*) & (*b*) "On the 31st December, 1912, there were 13,484 students in the various colleges in the Presidency, of whom 12,127 were Hindus and 1,048 Muhammadans; 943 Hindus and 199 Muhammadans were resident in Government hostels on that date.

(*c*) An endeavour has been made to procure the information asked for by the Hon'ble Member, but without success. For some colleges no records of expenditure during the earlier years are now in existence. There is the further difficulty that, prior to the introduction of the new University Regulations, the same hostels were shared by schools and colleges; and separate buildings were not in all cases provided for Hindus and Muhammadans. It is therefore impossible now to ascertain the total expenditure incurred or to distribute it in the manner desired by the Hon'ble Member."

The Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR asked :—

Re-excavation of the Bagerkhal.

4. Will the Government be pleased to state whether it has received any memorial from the inhabitants of Gobardanga-Gaypur bordering on the river Jumuna and its canal named Bagherkhal, situated in the districts of the 24-Parganas, Nadia and Jessore, in the Presidency Division; and if so, will the Government be pleased to state what orders have been passed in the matter ?

Questions Nos 4 & 5 are analogous

The Hon'ble Mr. Finnimore replied :—

"A memorial has lately been received on this subject from Rai Girija Prosonna Mukerjee Bahadur, Chairman, Gobardanga Municipality, and the inhabitants of Gobardanga, Gaypur and other villages within the tract through which the river Jamuna, with its canal known as the Bagherkhal, flows.

The question of the improvement of this river as a sanitary measure and as a navigation project has been before this Government since the year 1874. In the year 1903, the scheme was investigated and the cost was estimated at between three and four lakhs of rupees. On examination it was decided that that portion of the scheme which provided for a navigable canal should be eliminated on the ground that the traffic which might be expected would not justify the expenditure, and it was estimated that the cost of excavating the khal and river and providing a sluice of three vents at the offtake of the khal from the Hooghly would be Rs. 2,71,000.

The scheme was referred to the local officers of Government and to the Collector and the Commissioner, but the inquiry was dropped because, at that time, the local zamindars and tenants were not willing to pay for the cost of the scheme and the District Boards concerned would not come forward of their own accord to take up the scheme under the Sanitary Drainage Act.

A copy of the memorial now received has been forwarded to the Commissioner, with the previous history of the case, and he has been asked to ascertain and intimate to Government if the District Boards of Nadia, Jessore and the 24-Parganas will now move Government to take up the improvement of this river as a sanitary measure, under the Sanitary Drainage Act, and if not, what action he recommends should be taken by Government. Government awaits the receipt of the report of the Commissioner before passing orders on the memorial."

The Hon'ble Raja Hrishikesh Laha asked :—

5. (*a*) Will the Government be pleased to state whether it has received any representation from the inhabitants residing in the tract bordering on the Bagherkhal, praying for the re-excavation of the khal, and at the same time giving an assurance to bear the taxation which would thereby be imposed upon them under the Bengal Sanitary Drainage Act (Bengal Act VIII of 1895) ?

(*b*) Will the Government be pleased to state whether it is intended to re-excavate the khal ; if so, when is the project likely to be taken in hand ?

The Hon'ble Mr. Finnimore replied :—

"The Hon'ble Member is referred to the answer given to question No. 4 on the same subject."

The Hon'ble Maharaja Ranajit Sinha of Nashipur asked :—

Election members to serve in the local board in Thana Magura.

6. Will the Government be pleased to state whether it has received any petition from the inhabitants of Magura, in the district of Jessore, regarding the election of members to serve on the local board in Thana Magura ; if so, will the Government be pleased to state what orders have been passed on the said petition ?

The Hon'ble Mr. Donald replied :—

"A petition was received by Government from certain inhabitants of Ghallia, in the district of Jessore, protesting against the nomination of certain officials as members of the Magura Local Board. Under the Local Self-Government Act, the power of appointment of members of the Local Board is vested in the Commissioner, and the petition was accordingly forwarded for disposal to the Commissioner of the Presidency Division."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Shooting accident at Barrackpore.

7. (*a*) Has the attention of the Government been drawn to the facts of a shooting incident reported in the "Bengalee" of the 23rd April last? Is it the case that a boy while employed in his father's field in manuring the ground was hit by two shots which apparently came from the direction of the Cossipore Volunteer Rifle Range to the east of the Barrackpore Railway Station, and that he was carried to the hospital, where he died the same afternoon between 3 and 4 o'clock?

(*b*) Is it the case that there is a kutcha public road within a quarter of a mile of the place where the boy was shot, and that this road is a little more than a mile from the Rifle Range?

(*c*) Is it a fact that in the neighbourhood there have been several accidents to cattle and that some cows have been killed by shots fired from the direction of the Rifle Range?

(*d*) Is it a fact that manuring operations have been stopped over some 3,000 bighas of land intended for the cultivation of jute, in consequence of the panic which has been caused among the local agriculturists by the recent shooting accident?

(*e*) Will the Government be pleased to state what, if any, precautionary measures it proposes to take, or has taken, with a view to ensure the necessary safeguards for public protection?

(*f*) Will the Government be pleased to state what reparation it proposes to make to the father who, through this accident, has lost his son?

The Hon'ble MR. CUMMING replied :—

(*a*) "The attention of the Government has been drawn to the shooting accident in question.

A youth named Krishnadhan Ghosh of Kantalia was hit, as stated, while manuring the land of his father Motilal Ghosh, about a mile behind the targets of the Cossipore Volunteers' Rifle Range at which firing was going on at the time; he was removed to the Barrackpore Police Cases Hospital, where he died between 3 and 4 P.M. It was at first thought that he was struck by two bullets. He only stated himself that he was hit by one, and expert opinion now favours the view that he was struck by one shot only while in a squatting posture.

(*b*) There is an embanked unmetalled road passing by the side of the field in which the deceased was hit: the scene of the accident is only a few yards from this road; and the road is little more than a mile from the Rifle Range.

(*c*) Only one such accident has occurred. A week before Krishnadhan Ghosh's death, a bullock was hit by a rifle bullet and died instantaneously, about 100 yards from the spot where the deceased was shot.

(*d*) It is apparently not the case that manuring operations have been stopped over 3,000 bighas of land intended for the cultivation of jute in consequence of panic among the local agriculturists. Jute was sown after the rain at the beginning of May; and may be seen all round the scene of the accident.

(*e*) The regular and prescribed precaution of hoisting the red flag, which indicates that persons enter the danger zone at their own risk and which had been in force for the last 20 years, had been taken; but Government are making inquiries in conjunction with the Military authorities as to the safety of the range and the possible need of further precautions, and will take such further action as may be found necessary.

(*f*) When the flag is flying, persons enter the danger zone at their own risk and no compensation is payable or has been claimed. Government will, however, reserve their final decision on this matter until the inquiries as to the safety of the range in present conditions are complete."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Honorary Magistrates at Murshidabad.

8. (*a*) Will the Government be pleased to state whether it is the case, as stated in the newspapers, that the Honorary Magistrates in the district of Murshidabad are not usually invited to serve as Magistrates ?

(*b*) If they are not invited, will the Government be pleased to state the reasons for this ?

The Hon'ble Mr. CUMMING replied :—

(*a*) & (*b*) "It is the case that at the headquarters subdivision of the Murshidabad district the services of Honorary Magistrates were utilized during the past year to a less extent than formerly, because the staff of Stipendiary Magistrates was able to cope with the work."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Proposed railway extension to Bhanga in the district of Faridpur.

9. (*a*) Has the attention of the Government been drawn to a paragraph which appeared in the "Bengalee" of the 18th May, on the subject of the proposed railway extension to Bhanga in the district of Faridpur ?

(*b*) Will the Government be pleased to state how the projects for connecting Faridpur and Bhanga by railway stand at present ?

The Hon'ble MR. FINNIMORE replied :—

(*a*) "The answer is in the affirmative.

(*b*) In the year 1903, a survey was made from Faridpur to Bhanga for the purpose of a steam tramway and an estimate amounting to Rs. 5,84,100 was prepared. The District Board of Faridpur in submitting the plans and estimate for the sanction of Government asked for a grant of the whole sum required for the execution of the work. The Board did not submit any proposals regarding the agency by which the line was to be constructed or as to the financing of the scheme. The project was sent to the Agent, Eastern Bengal State Railway, to inquire if there were any prospect of the scheme being included in the programme of Eastern Bengal State Railway extensions. The Agent replied in the negative and the proposal was then dropped.

In January, 1912, the District Board of Faridpur revived the scheme and submitted through the Divisional Commissioner plans and estimate for a light railway between the two places. The project was sent to the Agent, Eastern Bengal State Railway, for the favour of his opinion on the prospectus, and that officer has referred the matter to the Railway Board. The Railway Board's reply is awaited."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Election of Chairman for the Comilla Municipality.

10. Will the Government be pleased to state whether they have considered the advisability of calling upon the Municipal Commissioners of Comilla to reconsider their proposal to elect the Magistrate as Chairman and to elect a Chairman from amongst themselves ?

The Hon'ble MR. DONALD replied :—

"A memorial to this effect has been received. Government is unable at present to make any statement on the subject."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Scarcity of water in the villages on the lower reaches of the Eden Canal

11. (*a*) Has the attention of the Government been drawn to the scarcity of water in the villages on the lower reaches of the Eden Canal ?

(*b*) Is it the case that it is due to the construction of a dam at Khanpur and that, notwithstanding that some water has been let into the Canal under the orders of the Superintending Engineer, the people still suffer from scarcity of water?

(*c*) Will the Government be pleased to state what steps (if any) it proposes to take to remove the scarcity of water from which the people in that quarter suffer?

The Hon'ble MR. FINNIMORE replied :—

(*a*) "The attention of Government has been drawn to the scarcity of water in the villages on the lower reaches of the Eden Canal by the Subdivisional Magistrate, Serampur, who forwarded a petition on the subject from the villagers concerned to the Executive Engineer, Northern Drainage and Embankment Division.

(*b*) It is not the case that the scarcity of supply is due to the construction of a dam at Goralmuri (there is no dam at Khanpur, as stated in the question). It is due to the fact that the sand dam which is constructed every year at Jujuti, to raise the level of the water in the Damodar river, has time after time been breached by freshets in the river. The whole of the supply entering the Eden Canal at Jujuti was accordingly passed down to the Regulator at Gopalnagar, and although a large proportion of this water was lost in percolation and evaporation, so much as was available was there divided between the north and south Saraswati rivers.

Since the 13th May, the last date on which the sand dam was breached, there has been no demand for drinking water from the Eden Canal.

(*c*) The Government have now under consideration the question of the construction of the Damodar Canal. Should this project be carried out, the scarcity complained of will probably be removed.

Meanwhile weeds are being cleared from the Kana nadi above Gopalnagar to improve the channel, and steps are being taken to flush the Kana nadi in the monsoon and so improve the conditions favourable to a flow of water in that nadi."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Settlement proceedings in Faridpur.

12. (*a*) Has the attention of the Government been drawn to a paragraph which appeared in the columns of the "Faridpur Hitaishi" of the 20th May in which it is stated that, "in the settlement proceedings in that district, the King-Emperor is recorded as proprietor of all estates, while the zamindars and taluqdars are recorded as parties in possession under the King-Emperor"?

(*b*) Will the Government be pleased to say whether the statement is correct?

(*c*) If it is, will the Government be pleased to point out the law, or the order of Government, if any, under which such records are being made?

The Hon'ble MR. SAMMAN replied :—

(*a*) "The attention of Government has been drawn to the paragraph quoted by the Hon'ble Member.

(*b*) The statement referred to is incorrect and appears to have originated in a misunderstanding of the settlement forms in use."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI asked :—

The Provincial Judicial Service.

13. (*a*) Will the Government be pleased to state whether all the twenty vacancies in the Provincial Judicial Service, referred to by the Hon'ble

Mr. Stevenson-Moore in his reply to a question asked by the Hon'ble Babu Upendra Lal Ray on the 5th March last, occurred in the Presidency of Bengal ?

(*b*) If not, will the Government be pleased to say how many of those vacancies are for Bengal and how many for Bihar and Orissa ?

(*c*) Will the Government also be pleased to state how many (if any) of those vacancies have been filled up ?

(*d*) In case none, or some only, of those vacancies have been filled up, will the Government be pleased to state—

(*1*) the reasons why these vacancies have not been filled up, and

(*2*) when they are likely to be filled up ?

The Hon'ble MR. CUMMING replied :—

(*a*) "The answer is in the affirmative.

(*b*) The answer is covered by the previous answer.

(*c*) & (*d*) The vacancies have now been filled up ; the notifications relating to them were published in the Calcutta Gazette of the 25th June."

The Hon'ble BABU UPENDRA LAL RAY asked :—

14. In view of the reply of the Hon'ble Mr. Stevenson-Moore to my questions on the 5th March last, will the Government be pleased to state why the promotions of the members of the Provincial Judicial Service have not yet been given effect to ?

The Hon'ble MR. CUMMING replied :—

"The Hon'ble Member is referred to the answer given to Question No. 15 standing in the name of the Hon'ble Dr. Deba Prasad Sarbadhikari."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI asked :—

Reorganization of the Munsiffs' branch of the Judicial Service.

15. (*a*) Will the Government be pleased to state whether the necessary scheme for the reorganisation of the Munsifs' branch of the Judicial service, at an estimated cost of Rs. 50,000, has been prepared and submitted to the Government of India ?

(*b*) If not, will the Government be pleased to state when such a scheme is likely to be prepared and published, and from what date it is likely to be given effect to ?

The Hon'ble MR. CUMMING replied :—

(*a*) "The answer is in the affirmative.

(*b*) Government are not in a position to say from what date the scheme is likely to be introduced."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI asked :—

Tramway and motor accidents in the Town and Suburbs of Calcutta.

16. (*a*) Has the attention of the Government been drawn to the frequency of tramway accidents and motor accidents in the town and suburbs of Calcutta ?

(*b*) Have the Government any proposals under consideration for minimising these accidents ?

The Hon'ble MR. CUMMING replied :—

(*a*) and (*b*) "As regards motor-cars, the question of regulating their use engaged the attention of Government as early as 1903, when the Bengal Motor Car and Cycle Act (Ben. Act III of 1903) was passed. From the Statement of Objects and Reasons of the Act it will be seen that the prevention of accidents was one of its chief objects. In February 1904, a set of rules was framed under the Act enabling the Commissioner of Police, Calcutta, to regulate the use of motor-cars ; the rules were amended in 1908 and again in 1909. In the Government Resolution on the Calcutta Police Report for 1909, the Commissioner of Police was directed to take the fullest advantage of the increased powers of control afforded by the new Motor-car rules.

The following table will show that sufficient vigilance is exercised in bringing offenders to justice and in preventing accidents by motor-cars; no further action appears to be necessary :—

	No. of persons prosecuted	No. of persons convicted	Licenses suspended	Licenses cancelled	Persons warned
1910 ...	126	110	5	...	...
1911 ..	287	226	9	1	183
1912 ...	376	276	9	...	405

As regards tramway cars, Government are considering whether anything can be done to reduce the number of tram-car accidents, but no definite proposals have yet been formulated. The average number of accidents per running mile is, however, less in Calcutta than in Madras and is only half the number that occur in Bombay."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR asked :—

17. (*a*) Has the attention of the Government been drawn to the recent series of accidents in Calcutta resulting in death or serious injuries to persons knocked down by motor-cars ?

(*b*) Will the Government be pleased to state what steps have been taken to regulate and control the speed of motor-cars and to ensure proper caution and watchfulness on the part of the drivers of cars ?

The Hon'ble MR. CUMMING replied :—

(*a*) & (*b*) "The Hon'ble Member is referred to the answer given to Question No. 16 asked by the Honb'le Dr. DEBA PRASAD SARBADHIKARI."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI asked :—

The "Servants difficulty" question in Bengal.

18. (*a*) Has the attention of the Government been drawn to the correspondence and editorial comments in certain newspapers regarding the "servants' difficulty" question in Bengal ?

(*b*) Have the Government any scheme in preparation or consideration for meeting this difficulty ?

The Hon'ble MR. CUMMING replied :—

(*a*) & (*b*) "Government are aware of the discussions that have taken place on the subject, but they have not been approached directly by any section of the public. As at present advised, Government do not believe that the position is such as to call for their intervention."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI asked :—

Scheme for registration of Medical Practitioners.

19. (*a*) Have the Government any scheme under consideration for registration of Medical Practitioners—

(*i*) in Calcutta ;

(*ii*) in Bengal ?

(*b*) If so, when will the same be published for public consideration ?

The Hon'ble MR. DONALD replied :—

"A Bill to provide for the registration of medical practitioners in Bengal has been drafted and been submitted for the approval of the Government of India. The Bill will be published after its introduction in the Legislative Council."

The Hon'ble MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

Statistics of appointments in the Provincial Civil Service and the Subordinate Executive Service.

20. Will the Government be pleased to lay on the table a statement showing the total number of appointments in—

(*i*) the Provincial Civil Service,

(*ii*) the Subordinate Executive Service,

arranged according to the home districts of the persons holding these appointments ?

The Hon'ble MR. CUMMING replied :—

"The information asked for by the Hon'ble Member is given in the statement which is laid on the table."

Statement referred to in the Answer by the Hon'ble Mr. Cumming to Question No. 20, asked by the Hon'ble Mr. Golam Hossein Cassim Ariff at the Council meeting of the 30th June, 1913.

The Hon'ble MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

21. Will the Government be pleased to lay on the table a statement showing the total number of the jail population (namely, Hindus, Muhammadans and Christians) in each district of the Presidency on the 31st of March, 1913 ?

Statistics of the jail population in the Presidency of Bengal on the 31st March, 1913.

The Hon'ble MR. CUMMING replied :—

"The information regarding the distribution of convicts by religion on a given date, namely, the last day of the year 1912-13, is not immediately available, but the statement, which is laid on the table, shows the distribution by religion of all convicts admitted district by district during the year 1912 ; and this will probably serve the Hon'ble Member's purpose."

The Hon'ble MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

Recruitment of officers for the Jail Department

22. Will the Government be pleased to state whether any minimum educational qualification is prescribed for executive appointments in the Jail Department, and if so, will the Government be pleased to lay on the table a copy of the rules regulating the recruitment of officers for that Department ?

The Hon'ble MR. CUMMING replied :—

"The Hon'ble Member is referred to rule 281 of the Bengal Jail Code."

The Hon'ble MR. G. H. C. ARIFF asked :—

Statistics of the total population of each district in the Presidency

23. Will the Government be pleased to lay on the table a statement showing the latest figures relating to the total population of each district of the Presidency, specifying the number of (*i*) Hindus, (*ii*) Muhammadans and (*iii*) Christians ?

The Hon'ble MR. SAMMAN replied :—

"A statement containing the information desired by the Hon'ble Member is laid on the table."

The Hon'ble MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

Revision of the curricula of Bengal madrasas.

33. (*a*) Will the Government be pleased to state whether the curricula of Bengal madrasas have been revised ?

(*b*) If so, will the Government be pleased to lay on the table a statement showing the old and the new curricula ?

The Hon'ble MR. SAMMAN replied :—

"The question of revising the curricula for madrasas in the Eastern and Western Divisions of the Province is now under the consideration of Government."

The Hon'ble MR. GOLAM HOSSEIN CASSIM ARIFF asked :—

Agricultural farms in the Bengal Presidency.

34. Will the Government be pleased to state—

(*a*) the number of agricultural farms existing in each of the districts of the Bengal Presidency, and how many are entirely Government, and how many private, and

(*b*) whether young men of education are trained in these farms, and if so, how many Hindus and Muhammadans were so trained from 1905 to 1912?

The Hon'ble MR. SAMMAN replied :—

(*a*) "There are altogether eight agricultural farms in the Presidency, viz., one in Hooghly, one in Dacca, one in Rajshahi, three in Rangpur, one in Burdwan and one in Darjeeling; of these all except the last two are Government farms.

(*b*) The answer is in the negative, but sons of cultivators with a limited amount of education in the vernacular are trained at these farms. Twenty-two Hindus and seven Muhammadans have been so trained from 1905 to 1912."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR asked :—

Medical College Hospital.

35. (*a*) Has the attention of Government been drawn to a letter in the "Bengalee" newspaper of the 28th May, 1913, under the heading of "Bungling in Medical College Hospital"?

(*b*) Have the Government been pleased to make any inquiry into the allegation made in the above letter?

(*c*) If so, what is the result of the inquiry?

(*d*) If not, will the Government be pleased to make such an inquiry?

(*e*) Will the Government be pleased to say whether every facility is given to patients of all classes for admission into the Medical College Hospital?

(*f*) What are the rules, if any, for admission of patients?

(*g*) Is there a Board of visitors for the Medical College Hospital? If not, will the Government be pleased to say whether it intends to establish one?

(*h*) Will the Government be pleased to say whether a register is kept of patients admitted and of those who could not be admitted, with the reasons for non-admission noted therein?

The Hon'ble MR. DONALD replied :—

(*a*), (*b*), (*c*) & (*d*) "The attention of Government has been drawn to the letter in the 'Bengalee' newspaper of the 28th May, 1913, under the heading 'Bungling in Medical College Hospital.' An inquiry has been made and the following facts have been ascertained. There is no Diphtheria Ward for adults in the Medical College Hospital. The existing Diphtheria Ward, which is intended for children only, is a very small ward consisting of two small rooms and, although it contains four beds, it is really capable of accommodating only two patients. On the night of the 2nd June, two beds were occupied and, with the relations and others present in attendance on these patients, there was no further accommodation available in the ward. The standing orders relating to infectious cases provide that, when beds are not available, such cases should be sent to the Campbell Hospital, and the Resident Officer therefore gave orders that the case referred to should be taken to the Campbell Hospital. In doing so he was not aware that this hospital does not receive cases of diphtheria. Had he realised this, he would have placed the girl in the Cot Ward, in which she was finally accommodated. This ward is, however, intended only for violent or noisy patients and is not

reserved for infectious cases if this can be avoided. The request for an injection of antitoxin was not complied with as it was not safe or advisable to make such an injection and then send the patient away from the hospital. The girl was admitted into the hospital immediately on her return from the Campbell Hospital, and she was placed in the Cell Ward, the only ward in which accommodation could be provided. It may be added that arrangements are now being made for the construction of a new ward for diphtheria cases.

(*e*) & (*f*) Every facility is given to patients of all classes for admission into the Medical College Hospital so far as accommodation is available. In the event of accommodation not being available, the standing orders are that Europeans shall be sent to the Presidency General Hospital and Indians to the Campbell Hospital, provided accommodation is available in these hospitals.

(*g*) There is no Board of Visitors for the Medical College Hospital, and Government have at present no intention of establishing such a Board.

(*h*) A record is kept of every case applying to the hospital for treatment, and a note is made whether the patient is admitted, sent to the Campbell Hospital or simply attended to. Reasons for non-admission are not recorded."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR asked :—

The Magrahât-Jaynagar Khal.

36. (*a*) Are the Government aware that the Magrahât-Jaynagar khal, from Magrahât station to Jaynagar and its vicinity, is silted up and is not navigable for the greater part of the year ?

(*b*) Will the Government be pleased to state what steps (if any) they propose to take to render the khal navigable throughout the year ?

The Hon'ble MR. FINNIMORE replied :—

(*a*) "Government are aware that the Jaynagar khal between Jaynagar and Magrahât station is partly silted up, but not to such an extent as to render the khal unnavigable for the greater part of the year.

Complaints of the insufficient depth of water in the khal were received in December, 1912, and in order that the silt might be removed, the drainage of the khals in the Magrahât basin was commenced in January, 1913. The merchants of Magrahât and the residents of Jaynagar represented, however, that it would cause inconvenience if the khal was closed at that time for silt-clearing, and, on their representation, the closure of the khal was deferred until the 1st April 1913, when the work of silt clearance was taken up. Owing to early and heavy rain the work could not, however, be completed.

(*b*) It is impossible to prevent the deposit of silt in the khal, and the only means of keeping the khal navigable is by periodical removal of the silt by hand labour. This will be done by Government as occasion may require."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR asked :—

The case of Mr. Meredith.

37. (*a*) Has the attention of the Government been drawn to the judgment of Mr. Keays, the Second Presidency Magistrate of Calcutta, in the case in which a bailiff of the Small Cause Court (Mr. Meredith) and another person (Mr. Bomswetsch) were charged with assaulting a Hindu married woman named Srimati Sanjibani Dassi of 4, Jagannath Soor's Lane ?

(*b*) Is it a fact that Inspector Lahiri, to whom a complaint was made, noted in his register that they "smell of liquor," which was denied by the accused ?

(*c*) Has the attention of Government been drawn to the concluding part of the judgment in which the Magistrate made the following statement :—

> "That Sanjibani Dassi did get some trivial scratches is undoubted and that she fell down is also doubtless true, but I do not feel that I should act on the evidence of the witnesses who state that Mr. Meredith gave her a push inasmuch as I have not accepted their evidence as regards the kicking. I acquit both the accused"?

(*d*) Have Government considered the advisability of holding a departmental inquiry and of moving the High Court?

The Hon'ble Mr. CUMMING replied :—

(*a*), (*b*), (*c*) & (*d*) "Government are informed that the case is still *subjudice* and are accordingly unable to make any statement about it."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR asked :—

Victoria Jute Mills Assault Case.

38. (*a*) Has the attention of Government been drawn to an article in the "Bengalee" newspaper of the 8th May last in which it is stated that "one Mr. Henderson of the Victoria Jute Mills was charged with having assaulted a coolie and caused serious injuries to his person which resulted in the death of the unfortunate coolie"; that the trying Magistrate also found "the accused guilty of using unnecessary and dangerous violence and being criminally careless of the consequences"; and that the Magistrate fined the accused Rs. 100?

(*b*) Is it a fact, as stated in the "Bengalee" newspaper of the 20th May last, that the Police sent up the case under section 325 of the Indian Penal Code as a case of grievous hurt, the charge was drawn up under section 325 and the entire proceedings conducted under section 325, but that "at the last moment the accused was convicted under section 323 and sentenced to pay a fine"?

(*c*) Will the Government be pleased to publish the full particulars of the case and judgment of the trying Magistrate?

(*d*) Have the Government considered the advisability of moving the High Court on the subject?

The Hon'ble MR. CUMMING replied :—

(*a*), (*b*), (*c*) & (*d*) "The attention of Government was drawn to the case at the time, and the papers of the case were called for and examined. The Magistrate considered that a fine would be the punishment called for by the offence, as he found that the accused caused hurt by criminal recklessness and not by wilful malice. The Magistrate convicted the accused under section 323 and not under section 325. The subsequent death of the coolie was due to cholera. Government gave due consideration to the case and did not think it necessary to move the High Court."

The Hon'ble MAULVI MUSHARRAF HUSSAIN, in the absence of the Hon'ble MAULVI A. K. FAZ-UL-HAQ, asked :—

Punitive Police in Jessore and Khulna.

39. Has the attention of the Government been drawn to an article in the "Mussalman" in its issue of the 4th April, 1913, under the heading "Punitive Police in Jessore and Khulna" and to the judgment in a recent case in which some men belonging to the force have been convicted of extortion?

(*b*) Will the Government be pleased to state whether the Punitive Police will be retained?

The Hon'ble MR. CUMMING replied :—

(*a*) "The answer is in the affirmative.

(*b*) "The additional police will be withdrawn from the 1st July, 1913, but Government consider that an extra force of police is required to preserve the peace. This force will be maintained at the cost of Government."

The Hon'ble MAULVI MUSHARRAF HUSSAIN, in the absence of the Hon'ble MAULVI A. K. FAZ-UL-HAQ, asked :—

Alleged Police Oppression.

40. (*a*) Has the attention of the Government been drawn to an article in the issue of the "Mussalman," dated the 4th April, 1913, under the heading "Police Oppression"?

(*b*) If so, will the Government be pleased to state what further action, if any, has been taken?

(*c*) If not, do the Government propose to take any notice of the serious allegations made in the article?

The Hon'ble MR. CUMMING replied :—

(*a*) "The answer is in the affirmative.

(*b*) & (*c*) No further action has been taken. The allegations regarding extortion on the part of the police were found to be false. Further inquiry was considered unnecessary."

The Hon'ble MAULVI A. K. FAZ-UL-HAQ asked :—

Shirking of duty by the Basirhat Police.

41. (*a*) Has the attention of the Government been drawn to an article in the issue of the "Mussalman," dated the 23rd May, 1913, under the heading "Shirking of Duty by the Basirhat Police"?

(*b*) If so, will the Government be pleased to state whether the officer in charge of the thana has been punished?

The Hon'ble MR. CUMMING replied :—

(*a*) & (*b*) "The answers are in the affirmative."

The Hon'ble NAWAB SAIYID HOSSAM HAIDER CHAUDHURI, KHAN BAHADUR, asked :—

Scheme for the supply of good drinking water to the residents of Chittagong.

42. (*a*) Are the Government aware that hardly any convenient arrangements exist for the supply of good drinking water to the residents of the town of Chittagong?

(*b*) If so, will the Government be pleased to state whether they intend to take any measures to remove this want?

The Hon'ble MR. DONALD replied :—

"A scheme for the supply of good drinking water in Chittagong has been submitted by the Municipal Commissioners of Chittagong and is now under the consideration of Government."

The Hon'ble NAWAB SAIYID HOSSAM HAIDER CHAUDHURI, KHAN BAHADUR, asked :—

Introduction of the "Circle system" in the Presidency of Bengal.

43. Will the Government be pleased to state—

(*i*) in which of the districts of the Presidency the "Circle System" has been introduced?

(*ii*) and of the Circle officers, how many are Hindus, and how many Muhammadans?

The Hon'ble MR. CUMMING replied :—

(*a*) "The Chaukidari Circle System has been introduced in the following districts :—

(1) Burdwan,	(6) Khulna,
(2) Birbhum,	(7) Dacca,
(3) Hooghly,	(8) Faridpur,
(4) Nadia,	(9) Tippera,
(5) Murshidabad,	(10) Noakhali, and

(11) Bogra.

(*b*) Of the Circle Officers, 19 are Hindus and 2 Muhammadans."

The Hon'ble MAHARAJA RANAJIT SINHA of Nashipur asked :—

44. Will the Government be pleased to lay on the table information on the following points regarding the Lalbag Subdivision in the District of Murshidabad, for the last five years, namely,— Police cases, etc., in the Lalbag Subdivision in the district of Murshidabad.

the number of cases instituted on complaints and on Police reports under the Code of Criminal Procedure, 1898 (Act V of 1898), which were—

(*a*) dismissed under section 203,

(*b*) compounded under section 345 and

(*c*) struck off under sections 247 and 259 of that Code?

The Hon'ble MR. TWIDELL replied :—

"A statement showing the number of cases instituted in the Lalbagh subdivision which were dismissed, compounded, and struck off under certain sections of the Criminal Procedure Code, is laid upon the table."

STATEMENT REFERRED TO IN THE ANSWER BY THE HON'BLE MR. TWIDELL TO QUESTION NO. 44 ASKED BY THE HON'BLE MAHARAJA RANAJIT SINHA OF NASHIPUR AT THE COUNCIL MEETING OF THE 30TH JUNE, 1913.

The Hon'ble MR. G. H. C. ARIFF asked :—

45. Will the Government be pleased to lay on the table a statement showing the number of cases of kidnapping and abduction of Muslim women, under section 366 and cognate sections of the Indian Penal Code, 1860, instituted before Magistrates in Bengal, and how many ended in convictions during the years 1908, 1909, 1910, 1911 and 1912? Kidnapping and abduction of Muslim Women.

The Hon'ble MR. TWIDELL replied :—

"Statistics on the subject are not available and could not be obtained without examining a large number of individual records."

LEGISLATIVE BUSINESS.

THE BENGAL MUNICIPAL (SANITARY OFFICERS) BILL, 1913.

3. The Hon'ble Nawab Syed Shams-ul-Huda moved that the Bill to provide for the appointment of Sanitary Officers for certain Municipalities outside Calcutta be referred to a Select Committee consisting of the Hon'ble Mr. Lang, the Hon'ble Mr. Donald, the Hon'ble Mr. Bompas, the Hon'ble Mr. Vernon Woods, the Hon'ble Maharaja Ranajit Sinha of Nashipur, the Hon'ble Babu Surendra Nath Banerji, the Hon'ble Babu Surendra Nath Ray, the Hon'ble Babu Mahendra Nath Ray and the mover, with instructions to circulate their report in time for its consideration in Council at the meeting to be held on the 1st September, 1913.

The Hon'ble BABU SURENDRA NATH RAY said :—

"My Lord,—I sent in an amendment a few days ago, and I think I was rather late in sending it and it has been disallowed. In this amendment I prayed that the Bill might be referred to the municipalities of the Presidency, Burdwan, Howrah, and Hooghly in order to have the opinion of the Municipal Commissioners; we can, under the rules, discuss the principle of the Bill, before it is referred to the Select Committee.

My Lord, this Bill, at first sight, seems to be a simple Bill of a few sections, but any one who will go through its provisions will see that it embodies provisions subversive of the first principles of local self-government. This is not only my opinion but is also the opinion of a large number of persons who are connected with the municipalities of Bengal. In a Bill of this kind, which, professing to help us with sanitary officers, lays axe at the root of self-government, I thought it proper to ask for the opinion of not only my constituencies, I mean the municipalities of the Presidency Division, but also the opinion of all the municipalities of Bengal proper having an income of Rs. 5,000 and upwards. Their number is about 96. I have received the opinions of about 53 of them, and I was not surprised to see that out of the opinions I have received, as many as 44 municipalities are opposed to the principle of the Bill. It is only in 4 municipalities where they have got official Chairman that the Bill has got its support. One is really surprised to see why the opinion of all the municipalities in the Province was not taken by Government, why the Government thought it proper to choose some municipalities and take only their opinion. Are we to understand that Government were not desirous of having a formidable array of non-official opinion adverse to the Bill? In answer to my letter inviting the opinion of the Chairman and Commissioners of the municipalities of Bengal on the Bill, the Chairman of the Serampur Municipality has written to me as follows :—'It is a matter of regret that Government have not been pleased to ask for the opinion of the municipalities interested in the Bill, for it is a case of double wrong done to them, inasmuch as the present Bill, being of a compulsory character, seeks to cast an unmerited reflection upon all the municipalities in the Presidency, and then they are denied their say in defence by not being allowed an opportunity to express their opinion on the same.' But, my Lord, it appears that even some officials, who are connected with municipalities and are thus in a position to speak on the subject are opposed to the principle of the Bill. The Subdivisional Officer of Asansol and Chairman of the Asansol Municipality, a member of the Indian Civil Service, was pleased to place my letter before the Municipal Commissioners inviting their opinion on the Bill and has written to me as follows :—'The Bill is opposed in principle. At present we do not feel the need of Health Officers or Sanitary Inspectors.'

You may have already read the opinions of Mr. Cook, District Magistrate of Bankura, circulated to us with other papers by Government, as well as those of Mr. W. D. R. Prentice, Magistrate of Hooghly, and Mr. D. C. Patterson, Magistrate of Howrah and Chairman of the Howrah Municipality. Their opinions, if read between the lines, clearly show that the existing state of things does not warrant the introduction of the proposed Bill. The opinion of Mr. Strong, the District Magistrate of Bakarganj, is what is shared by the generality of the municipalities. He says that "the bar to the carrying out of sanitary measures in municipalities is not, as a rule, the want of expert advice as much as the want of funds." I need not repeat here what has been said by our esteemed colleague in the Council, the Hon'ble Mr. Beatson Bell. He is waiting to hear us to make up his mind, but his words are significant. Non-official public opinion, whether European or Indian, is the same. I have received opinions from about 53 municipalities of the Province and I ought to inform you that, in nearly 46 of them, whether presided over by European, Hindu or Muhammadan Chairmen, they either do not see the necessity for the Bill or condemn it altogether.

Having given these facts I respectfully beg to submit for the consideration of your Excellency's Government that I think I have made out a case

for the postponment of the passing of this Bill, at least for not proceeding with this Bill any further at this stage without having the opinions of all the municipalities. If Administration Reports published under the authority of Government have any weight, I think the municipalities have been doing good work. Where, then, is the need for this Bill? It is only on the supposition that the municipalities have not only not done their duty but that they have persistently and contumaciously acted against the wishes and directions of Government, that they have failed in the discharge of the duties entrusted to them, that the introduction of such a Bill as this is justifiable. Section 46 of the Bengal Municipal Act gives the municipalities the power to appoint Health Officers Section 65 of the Act gives the Local Government the power to supersede Commissioners in case of incompetency, default or abuse of power and the result of such supersession is, as stated in section 66 of the Bengal Municipal Act, that all the Municipal Commissioners shall, as from date of the order, vacate their offices as such Commissioners, and that all the powers and duties of the Commissioners shall, during the period of supersession, be exercised and performed by such persons as the Local Government may direct. Under this state of things, I mean the municipalities having got under the present Act the power of appointing Health Officers and Government the power of superseding municipalities in case they do not do their duty, one would like to know where comes the necessity for passing such a Bill as the present one. This is, to say the least, a retrograde measure. After a period of nearly 30 years of training in self-government we have been practically told that we have been weighed in the balance and found wanting, that all the recommendations of the Decentralisation Commission to confer larger powers upon municipalities count for little and that instead of conferring larger powers, the powers we have already got are going to be curtailed. Non-official opinion is almost the same whether they be municipalities like those of Titaghur or Raniganj consisting mainly of European Commissioners and presided over by experienced European Chairmen, or they be the municipalities of Manicktolah, Burdwan or Bogra presided over by experienced Muhammadan Chairmen, or the municipalities of Dinajpur. Rangpur, Serampur, Berhampore or Ranaghat. It has been pointed out by the municipalities of the Presidency in letters to me that the Bill contravenes the liberal principles of Local Self-Government, as, when it is passed, no option will be left to the municipalities in the matter of the employment of the Sanitary Officers who might be first thrust on them whether they are actually in need of their services or not. The element of compulsion is the most objectionable feature of the Bill. It is the opinion of a large number of municipalities that the appointment of Health Officers, and Sanitary Inspectors at the instance of the Local Government appears to be uncalled for. It is a new restriction on the freedom of action of the municipalities, as given in section 46 of the Bengal Municipal Act. The present Bill, if passed into law, would compel municipalities to appoint Health Officers and Sanitary Inspectors, even when they strongly feel that there is no need for them. Such compulsion is open to grave objection, specially when the municipalities are expecting an enlargement of their powers and privileges in view of the recommendations of the Decentralisation Commission. It has been justly pointed out to me in one of the letters received by me from the municipalities that they were not aware of the reasons which might have induced the Government to think that the Municipal Commissioners are not competent to decide for themselves as to whether they required the services of any sanitary officers for the purpose of improving the sanitation of their own municipal town. It has also been pointed out to me, probably by all the municipalities from whom I have received a reply, that the municipalities of Bengal, with very few exceptions, are generally very poor and that they require more money for employing a larger menial staff for their conservancy and other like arrangements to carry out necessary sanitary improvements and not highly-paid officers of doubtful utility. I cannot resist the temptation of quoting the words of the Right Hon'ble the Secretary of State for India in reply to Lord Midleton the other day in the House of Lords in the Debate on Sanitation in India. "It was wiser," he thought "not to spend too much upon mere machinery and the

payment of officers." My Lord, the ordinary sanitary needs of municipalities are well known to everyone connected with them. We require pure drinking water, we require good drainage, we require jungles to be cut down and we require our latrines to be cleared. All these require money and ordinary common sense, not expert advice. As has justly been said by Mr. Cook, the District Magistrate of Bankura, these Sanitary Inspectors on a pay of Rs. 50 to Rs. 150 a month will not be superior to the ordinary overseers of municipalities on a pay of Rs. 35 to Rs. 50. We have not been told what is the work to be entrusted to these Sanitary Inspectors and Health Officers. The cry is everywhere for funds. The municipalities are quite alive to their sanitary requirements. Government may contribute towards the pay of the Sanitary Inspectors or Health Officers, but who will pay for the thousand and one defects which these Inspectors and Health Officers will think it their duty to point out, if for nothing else, at least to justify their existence? Is the Government prepared to pay for all that? Or is the present Bill a precursor to a sanitary cess without which the Government will say hereafter no sanitary improvements according to the light of Sanitary Inspectors and Health Officers can be effected. My Lord, I do not think it proper to take up more of your Lordship's valuable time. I hope the opinion of the municipalities interested will be asked and placed before the Council. That will be only just and fair. If, however, it is sought to hurry on this Bill without calling for those opinions, if public opinion on the Bill is thus shut out, it would be setting back the hand of the dial, it will be taking a retrograde step for which there cannot be any meaning. We have peace within and calm around us. Why unnecessarily raise a storm?

My Lord.—Before I resume my seat I beg to place before this Council some of the opinions received by me from the Municipalities of the Province. They represent not only the views of the Chairmen of Municipalities but those of the Commissioners.

Kamarhati.—The Commissioners of this Municipality are of opinion that Health Officers or Sanitary Inspectors are not at all necessary for this Municipality. The ordinary laws of sanitation are very well known to the Commissioners, and it is not for want of any knowledge in that direction but for want of funds that many necessary improvements cannot be carried out. Municipalities like this that do not find sufficient fund even to maintain their roads properly cannot afford to maintain Health Officers or Sanitary Inspectors and the Commisssioners quite endorse your view that the cost involved in maintaining such officers, even if partly contributed to by Government, would be better utilised in admitted and obvious sanitary or other requirements.

Raniganj.—Considered the expediency of amending the Bengal Municipal Act to provide for the appointment of Sanitary Officers and Inspectors in the municipality and the Hon'ble Babu Surendranath Ray's forwarding of same of 1st May, 1913, and unanimously agree that no amendment was necessary as far as this Municipality was concerned and considered that the appointment of Sanitary Inspectors in this municipality would be waste of money that can be better spent on sanitation for which the Commissioners and Chairman are willing to take the responsibility.

Narayanganj.— . . that in view of the fact that this Municipality does not feel the necessity of having a Health Officer at present, as the money spent on that account may be better utilised in improving drainage, etc., the question of appointing such an officer be put off for the present.

Manicktollah.—The employment of additional staff with the object of improving sanitation will be quite futile when the cause for insanitation remains unremoved. The Commissioners, therefore, are not inclined to burden the Municipality with any extra expenditure by the appointment of Sanitary Inspectors at present when they are unable to give effect to the drainage scheme drawn up by the Sanitary Engineer.

South Barrackpur.—The Municipal Commissioners venture to think that municipalities should be left a free hand in a matter like this. The sanitary

improvements required and practicable from the financial point of view in such municipalities like this are well known to the Commissioners themselves and can be carried out by them without any extraneous help.

Berhampur.—The absence of Health Officers or Sanitary Inspectors was never felt by this Municipality, and I think the additional cost involved in the employment of these officers might be better utilised for other improvement or conservancy.

Santipur.—The absence of Health Officers and Sanitary Inspectors has not at all been felt in this Municipality and that the additional cost involved in the employment of such officers may be better utilised for necessary sanitary purposes and also that the expenditure for the payment of those officers' salaries from the municipal fund will limit the resources of the Municipality.

Navadwip.—The Municipal Commissioners do not think the appointment of Health Officers or Sanitary Inspectors absolutely necessary in the interest of sanitation of the local municipality and the absence of such officers has not been much felt in this Municipality.

Serampur.—Looked at from whatever point of view no case for statutory compulsion has been made out, and that there is absolutely no occasion, at least for some time to come, for the same . . . sanitary improvements are not carried out in municipalities to the desirable extent, not on account of the absence of sanitary officers, but on account of the want of necessary resources to carry them out.

Suri.—There is no need for sanitary officers of any sort.

Barisal.—In our opinion the provision in the Bill making it compulsory for municipalities to appoint Health Officers or Sanitary Inspectors at the instance of Local Government appears to be uncalled for . . . There are often urgent sanitary measures which the Commissioners cannot undertake not for any want of expert sanitary advice but for necessary funds.

Faridpur.—All the sanitary arrangements of the town like Faridpur are mere matters of common sense, which are easily executed by the executive with the help of the Municipal overseer.

Comilla.—This Municipality is of opinion that the additional cost incurred in the employment of Health Officers and Sanitary Inspectors may be better utilised for such sanitary purposes as supply of pure drinking water, good drainage and jungle-cutting and that the payment of such officers from the municipal revenue even partially will limit the resources of the municipalities which would otherwise have been available for admitted and obvious sanitary or other requirements of the municipalities.

Jalpaiguri.—That the principle of the Bill is opposed to the principle of Local Self Government . . . That the municipal administration in the mufassal does not suffer so much from the weakness of the sanitary executive or for want of sanitary advisory directions as from the lack of funds to make the necessary sanitary improvement.

The Hon'ble MR. BYOMKES CHAKRAVARTI said :—

My Lord, I oppose this motion, and I have fortified myself with papers which I have received from something like 50 municipalities, and they all say that they are quite alive to the sanitary requirements ; they do not want an inspector to come and tell them how foul water and stagnant drainage are objectionable from the point of view of sanitation. They do not want an officer who is to be trained for eight months to come and tell them that pure water is necessary for the health of a municipal town. The whole object of this Bill is to amend section 46 of the Bengal Municipal Act. Under section 46, every municipality has power, if it has the money, to employ a health officer for the purposes of sanitary improvement. But the want of the municipalities is not the want of an officer to tell them what

is to be done, but their want is a want of funds. What is the good of providing an inspecting staff and what are they to do? To inspect and say that there are stagnant pools, there are choked drains, that there is no good drinking water in the town. Everybody is alive to them. Now what is then suggested? To take away the power from the municipality, to vest it with the Government with regard to qualifications of these men with eight months' qualification, with regard to their salaries, and with regard to their allowances, and further with regard to the nature and strength of the service, and the Government there means really one officer. *i.e.*, the Sanitary Commissioner, who is already overwhelmed with work, and who, I venture to think, has not the time, nor the information at his disposal to give directions with regard to these matters. Then, as it has been pointed out, what is the good of having municipalities at all if they are not to be left to look after the health of the people in their charge? I suppose if there is a municipality worth having it consists of men who are alive to sanitary necessities. But, apart from any other question, the question is, as the Hon'ble Mr. Beatson Bell pointed it out very nicely, "he who calls for the tune must pay for it." It seems to us that we are going to call for the tune, and not pay for the whole of it; and at the same time we are calling upon people who have not got the money to pay for the tune, and that is the position.

The Hon'ble MR. BEATSON BELL said :—

I do not think that Mr. Chakravarti has quoted me rightly. I said that they would pay as far as possible.

The Hon'ble MR. CHAKRAVARTI said :—

Probably those are not the exact words, but the sense is there.

I am going to read from a resolution on Local Self-Government which was published on the 18th May, 1882. That resolution lays down that "the Government should revise and check the acts of the local bodies but not dictate them. Executive authorities should have two powers of control. In the first place, their sanction should be required in order to give validity to certain acts, such as the raising of loans, the imposition of taxes in other than duly authorized forms, the alienation of municipal property and the like. In the second place, the Local Government should have power to interfere either to set aside altogether the proceedings of the Board in particular cases, or, in the event of gross and continued neglect of any important duty, to suspend the Board temporarily." That was laid down as the cardinal principle for the guidance of Local Self-Government in 1882. Now let us take a very cursory and short view of what has happened since then. As far as I can find from the literature on the subject in 1905, the Royal College of Physicians and Surgeons in England formulated a scheme for medical and sanitary organization in India. It is very comfortable to do so from London or from England, because you are a long way off, and you do not know what the necessities here are. Apparently, on the basis of that, there was in the year 1907 correspondence between the Local Government and the Government of India. As to what that correspondence was I do not know. It has not been brought out, nor do we know what view was taken by the Government of India. Then we find, in May 1912, a scheme which is formulated by the Government of India for the whole of India. Then following upon that, in Bengal we had a complete somersault as I shall show from the Administration Report. In December 1912, we suddenly woke up to the necessity that, for the purposes of sanitation in Bengal, especially in municipal areas, what we want is an inspecting staff who will go about and tell us what the sanitary requirements of the place are. Well, I have taken pains to look through the Administration Reports regarding municipal matters and Reports of the Sanitary Commissioner from 1901 to 1910, and I find no such complaint made anywhere therein. There is nothing but constant commendation and praise of the sanitary work of the mufassal municipalities. I am aware of no instance, nor has any such been cited by the Hon'ble Member

in charge of the Bill, where any local body has not realised its responsibilities in this matter. If that is so, how or why is it "desirable that the Local Government should be empowered to insist on municipalities realising their responsibilities in this matter"? They are prefectly aware of their responsibilities on the subject. Why should this Bill be further proceeded with until the Government has established, what it now says regarding this Presidency, that "one of the main pressing needs of municipal administration is the strengthening of the sanitary executive"? What do we want to be told what we have got to do? Fifty municipalities have written to say they are perfectly aware of what their responsibilities are, but their misfortune is that they have not got the funds. Therefore it seems to me that, in point of fact, until we have ascertained in the first place as to whether the municipalities are not alive to their responsibilities, and, secondly, until we have ascertained as to whether the present central authority is the proper authority for the guidance of the municipalities in the mufassal, and until further we have ascertained whether the people whom, out of their motion, they have already employed, are successful or not, and in the third place whether there is any necessity for compulsion, and until and unless we have got a number of trained men, already to our hands for the purpose of employment, I do not see any necessitity for the introduction of this Bill at all, because in point of fact, to use an American phrase, we are "too previous" on the subject.

The Hon'ble BABU MAHENDRA NATH RAY said :—

My Lord, every legislative measure for the improvement of sanitation in municipal areas has my heartiest support. Coming, as I do, from the biggest municipality in this Province, in which the sanitary conditions are not satisfactory in spite of its annual income of 10 lakhs of rupees, I feel how great and urgent the needs of sanitary measures are, and I can fully sympathise with the condition of other municipalities whose resources are not so adequate. At the same time it is only just and desirable that, before a Bill like the present is referred to the Select Committee, we should discuss its principles. The principles of this Bill, as far as I can see, may be considered to be two in number. First, that a legislative impulse is needed to put the sanitation of our municipalities on a proper footing. With that principle I have the fullest sympathy. I had not the good fortune to consult my colleagues of other municipalities, but I can give this Council what my experience, as a Commissioner of over 20 years' standing of the most important municipality in this Province, is.

The Hon'ble BABU SURENDRA NATH BANERJI said :—"Except Calcutta."

The Hon'ble BABU MAHENDRA NATH RAY said :—

I was only talking of the mufassal municipalities. We find that we have to trouble ourselves there every day, not always with success, for the improvement of the sanitary conditions of the town. I would not believe it if I was told that all the municipalities of this Province are so alive to the needs of sanitary reform that no legislative impulse is at all necessary. That may be rhetoric; but it is not common sense, it is not justifiable by experience. But, then there is, I am afraid, another principle involved in the Bill—the principle of introducing a good deal of the elements of compulsion which, naturally, we, who represent these popular institutions, cannot and do not approve of. I find for instance that, so far as this aspect of the Bill is concerned, there is in the first place an element of compulsion introduced by which it would be open to the Local Government to insist upon the appointment of Health Officers in any municipality which it chooses to select. In the second place, I find that the Local Government has got to prescribe, independently evidently of any suggestion or initiative from the local bodies, the class and pay of Health Officers, the number and pay of Sanitary Inspectors and the qualifications for Health Officers and Sanitary Inspectors in any such municipality. Comparing these proposals with the existing law, one is bound to notice a considerable element of compulsion introduced. I do not now

talk of the Calcutta Corporation of which I was timely reminded by my hon'ble friend (Mr. Banerji), where of course the whole thing is left to the Commissioners—I mean the question of the pay and of the qualifications of the chief officers under the municipality. So far as the present Bengal Municipal Act is concerned, it is the Commissioners alone who decide whether a Health Officer and subordinate officers are to be appointed in any particular municipality. They are to fix their pay and number, when such officers are appointed. Then, again, it is the Commissioners who make rules for the qualifications of the Health Officers and other subordinate officers who may be appointed in the Health Department. It is clear therefore that a comparison of the existing law and the proposed law shows that a good deal of freedom on the part of the Municipal Corporations in the mufassal is proposed to be taken away, and before so much element of compulsion is sought to be introduced by new legislation, it seems to me that a justification for such drastic measures is called for. A reference has been made in the Statement of Objects and Reasons for the introduction of this Bill to the law contained in what is known as the Local Self-Government Act controlling the District Boards; but perhaps it has been overlooked that, although the Act requires that each District Board shall appoint its own sanitary officers, the question of the pay of the Sanitary Inspector to be appointed by the District Board and of the subordinate officers, is left to the District Board. So that even when compared with this Act, municipalities are now sought to be deprived of the power of fixing the pay and allowance of their sanitary officers. This is a matter which no lover of self-government in this country can welcome. I have considered, in submitting these few observations for your Excellency's consideration, that these are not matters of detail, but of principle, as matters of detail will no doubt be considered in Select Committee, and it is premature at this stage to deal with or consider them. But so far as the elements of compulsion, to which I have referred, are concerned, which place it out of the power of municipalities to lay down the qualifications for the officers whom they should appoint, to fix the class and the number of such sanitary officers whom they have got to appoint, and to fix the pay and allowances of these officers, it seems to me, my Lord, that this proposed measure is open to considerable objection, and that it is not a matter of detail, but a question affecting the very principle of the Bill.

With regard to the rules for the qualifications of officers to be appointed by the different municipalities under the present Municipal Act, the rules are to be made by the Municipal Commissioners themselves, subject to the sanction of the Local Government. It is now proposed to reverse that order of things, and it will be henceforth for the Local Government to frame, evidently, a uniform set of rules for all municipalities in the Province—a thing which is not desirable from many points of view. The rules which regulate the appointment or the qualifications of Sanitary Officers in a municipality like Howrah should not, at any rate, be the same as the rules for the appointment and qualifications of Sanitary Officers in a small municipality with an income of a few thousand rupees. It is therefore wisely left under the present law to each municipality to make its own rules for the qualifications of officers to be appointed by them, subject of course to the sanction of the Local Government.

A reversal of this state of things, I submit, is open to considerable objection. No doubt, in 1896, those who have followed the progress of municipal legislation in this country, might have noticed that a new principle was introduced only with regard to Veterinary Inspectors. Under what circumstances I do not know, but, in 1896, a new section was introduced in the Bengal Municipal Act, keeping intact all the rules and legislative provisions, which authorised Municipal Commissioners to make rules for qualifications for officers to be appointed by themselves, but as I have said, with the solitary exception with regard to the appointment of Veterinary Inspectors, in respect of which the Local Government was to make the rules. I was inquiring the other day what led to this peculiar exceptional measure being introduced. I was told that it was decided to have a veterinary

hospital, and that the persons who would come out of it had to be provided for and, unless rules were made by the Local Government and if each municipality were left to itself to make rules, it would not be convenient to get suitable appointments for persons turned out of this veterinary institution at Belgachia. Since then, for these 17 years, no such proposal has been heard of, and I must respectfully submit that the provision now sought to be introduced of making a uniform set of rules for the qualifications of all sorts of sanitary officers throughout the Province, is not justifiable under the circumstances. This is, my Lord, all that I have to say on the principal policy of the Bill. So far as the Bill is needed, in my opinion, to give some sort of motive power to these municipal corporations to set their houses in order in regard to sanitation, I do not agree with some of my colleagues that we all understand what it is, and that we need no such legislation. At the same time let there be legislation, but let it not be of such a character. If some sort of central authority is constituted in this country composed of some representative element, it may well exercise the power of putting compulsion on the Municipal Commissioners in this respect. Such compulsion would be less resented than the compulsion coming from the executive authority.

These are matters which no doubt your Excellency will take into consideration, but surely the principles of Local Self-Government and the absence of compulsion, as far as possible, are elements which should be borne in mind when making a legislation, the necessity for which I sincerely admit.

The Hon'ble BABU RADHA CHARAN PAL said:—

My Lord, whatever views have been expressd by some of the members representing the mufassal municipalities, I believe even in their ardent opposition to this Bill they recognise the good intentions of Government which pervade throughout the Bill. My Lord, the Government have been anxious for some years past to improve the sanitary conditions of the municipal towns and villages of Bengal, and they have taken various measures to extirpate malaria, cholera and other scourges from the places, which are decimated by these fell diseases. But, my Lord, there is one thing which I feel bound to express before your Lordship, and it is this that, while we recognise the good intentions of the Government, the whole Bill, as it has been framed, shows from the beginning to the end that it is practically a measure which places in the hands of Government every little power which is required to enforce sanitary measures or rather enforce the provisions which have been drafted into this Bill. My Lord, as has been put by the previous speaker, I will only mention three provisions which practically place all the power required in the hands of the Local Government. The first is the appointment of sanitary officers—the Local Government directs the Health Officer to be appointed, and the mandate shall have to be carried out by the municipalities concerned. The salary and allowances of the Sanitary Officers will be fixed by the Local Government and the mandate will have to be carried out by the municipality. The qualifications of the candidates for employment as Health Officers and Sanitary Officers will be laid down by the Local Government, and the only power that is left to the Municipalities in this Bill, my Lord, is to choose one person out of A, B or C. The pay is fixed by the mandate which comes from the Local Government, the qualifications are laid down by the Local Government and only that little power of appointing the officer is left to the Municipal Commissioners.

My Lord, I wish that power had been taken into the hands of the Government; then the responsibility of this measure would have been entirely in the hands of the Local Government. Responsibility as to the success or otherwise of the introduction of the Health Officer in any particular area would have rested with the Government. My Lord, I feel bound to say that there is a feeling amongst our countrymen that, with the march of education, with the wider scope given to the aspirations of my countrymen, the Government would gradually give larger and larger scope to the self-government which it pleased the Government, some 30 years ago, to concede to the people of this country. But, my Lord, this measure, although framed

with the best of intentions, I must say, has been received with not a little surprise by my countrymen, as to a great extent curtailing the little powers which they possess, even under the present Municipal Act.

My Lord, the Bill, I understand, will be referred to a Select Committee, and probably will be passed on or about the 30th August next. I would respectfully ask your Lordship whether there is any necessity for pushing the Bill. I find only some four or five opinions have been placed before us. I believe a very large number of municipalities have to be consulted and their opinions have not yet reached your Excellency's Government. I think, therefore, my Lord, it would be not only of great advantage to the Select Committee, but also paying some deference to public opinion if the reference to the Select Committee is deferred for some reasonable time.

My Lord, I admit the appointment of Health Officers from my own experience is necessary in some of the very large municipalities whose number can be counted on one's finger-ends. I find that no distinction has been made in this Bill as to the classes of the municipalities to which it will be applicable and I believe some distinction ought to be made in the Bill. It is, I believe, a matter of principle and not a matter of detail. There is great force in the observations of some of my hon'ble friends and from my own experience in the Calcutta Municipality. I can quite appreciate it, and it is that, if there is no proper drainage, if there is no proper water-supply, if there are no proper roads, what would be the use of having a Health Officer in a municipality which cannot afford to carry out these principal improvements which are known to any man in the municipality possessing common sense? My experience of the duties of the Health Officer is that, where a main drain is laid, and the houses on both sides of that particular street are in an insanitary condition, the Health Officer required the houses to be put in proper order, to be properly drained, and equipped with filtered water-supply, etc. All these things are the duty of the Health Department, but, my Lord, if the primary thing is wanting, if there is no drainage, no water-supply, then what improvement is to be made in the habitations of the people there? It is a question of money, and I think, my Lord, there ought to be a clear distinction between the different classes of the municipalities to which the provisions of the Bill would be applicable, because, unless these improvements are first carried out, it will be futile to saddle them with a highly paid Health Officer and sanitary inspecting staff. My lord, I submit that a Health Officer on a very low salary would be worse than useless. I think, my Lord, that very few municipalities can afford to pay a well-qualified Health Officer, and I think therefore that the Bill, as drafted, which would be applicable to all the municipalities, is very objectionable from that point of view. On these grounds, my Lord, I think I cannot support the reference to the Select Committee of this Bill.

The Hon'ble BABU SURENDRA NATH BANERJI said :—

My Lord, I confess that I rise to speak on this Bill somewhat under a sense of embarrassment. Here we have a Bill introduced by the Government, actuated by the highest motives, by the desire to communicate to some of the backward municipalities that legislative impluse which many of them undoubtedly need. On the other hand, the Bill contains povisions which distinctly are an infraction and an infringement of the elementary principles of Local Self-Government. The question therefore before us is: Should we have Local Self-Government first, or Sanitation first? I ask, What is the sense and the judgment of the country? If that issue were to be placed before the country, I have no hesitation in saying, and I think that my anticipation of the judgment of the country will be endorsed by Hon'ble Members round this table, that my countrymen with an overwhelming spontaneity would give preference to Local Self-Government. They would say, Local Self-Government first. Sanitation afterwards. But, my Lord, rightly understood, and understood and approached from the point of view of practical statesmanship, Local Self-Government and Sanitation go hand in hand, twins indissolubly linked together. My Lord, effective sanitary improvement

proceeds upon the basis of popular concurrence and support. If you wish properly to sanitate any area, you cannot do so without the whole-hearted moral support of the community concerned.

My Lord, in this connection, I am reminded of a memorable rebuke administered by a great Lieutenant-Governor, one of the greatest that ever administered the affairs of this Province, a rebuke addressed to an over-zealous Health Officer, who wanted to stimulate and quicken the sanitary pace of the Calcutta Corporation.

"Mr. Payne must remember," said Sir Ashley Eden in a document which has become historical, "that a single case of sanitary improvement carried out with the concurrence and the moral support of the people is equivalent to a hundred instances of sanitary improvement enforced against their wishes and their deliberate will." My Lord, this is a principle which, I think, ought never to be overlooked by a responsible Government. But what I fear is that, if this Bill were passed into law, in its practical operation, this principle would be interfered with.

What is needed is money for useful projects of sanitation, for water-supply, for drainage schemes; but if this Bill were passed into law, what I fear is this: that there would be a disproportionate measure of expenditure incurred in respect of the supervising agency. My Lord, this is not the apprehension of an irresponsible non-official member like myself, but it represents the fears and anxieties which trouble the minds of responsible officers of Government, whose opinions are in that packet of papers which have been circulated to us. My Lord, this tendency has already developed itself in one important department of Government—the Education Department—where the inspecting staff is in excess of the requirements of our educational institutions, and we are anxious that this should not take place in respect of the great department of Sanitation. What is needed, Sir, is money for ordinary sanitary purposes. What are the requirements of a mufassal municipality? My Lord, I have devoted the best part of my life-time in the service of a little mufassal municipality, and I can speak with some little personal experience in this matter. All we have to do is to clear the jungle, to keep the roads in a state of good repair, fill up or excavate bad tanks, and to remove the filth. Do you require sanitary experts for this work? I think not. Any man with a fund of common sense, with a fund of ability, is equal to work of this kind. Our overseers are fully qualified for this work, and their salaries vary from Rs. 20 to Rs. 40.

Occasionally there are great projects of water-supply, there are important projects of drainage, but then we require a special staff and special arrangements. I would even go a step further and say that occasionally there are outbreaks of cholera, small-pox and even of plague, and when we have such awful visitations we need sanitary advice, and then my suggestion would be to appoint a sanitary inspector or health officer, not for one municipality, but in respect of a group of municipalities, and that would meet the requirements of the case.

My Lord, the question is one of Local Self-Government, and we on this side of the House would fail in our duty if we did not enter a solemn and emphatic protest against this Bill in the name of those whom we have the honour to represent. No matter how great and noble the purpose of a legislative project may be, if it is calculated in any way to interfere with the sacred rights and privileges which have been conferred by the institution of Local Self-Government there will, I hope, always go forth a great protest from this side of the House to which I have the honour to belong.

It is a question of Local Self-Government in the first instance, it is also a question of finance. The Government of India in their resolution declared that they would be prepared to pay half the expense of the salaries of Sanitary Inspectors in a municipality. The mufassal municipalities are thankful for this gift, but the other half has to be contributed by these poor municipalities, and where is the money to come from? It may be a question of Rs. 50 a month, or even less, but the Government of India who make this

declaration in their resolution, may withdraw from it at any moment on the ground of their finances being insufficient. But upon the municipalities is imposed a statutory obligation to pay for these Inspectors. We are placed, therefore, compared with the Government, in this position of disadvantage. My Lord, if these papers which have been circulated are consulted, it will be found that there is an official opinion recorded there. I think it is Mr. Cook who says, that municipalities having a revenue of less than Rs. 10,000 should be exempted unless they apply by a majority of one-third. I think there is a feeling in the minds of those distinguished officials who are in touch with the mufassal municipalities that the Bill would operate harshly, that sanitary improvement does not lie in providing a supervising agency, but in providing funds for the real work of sanitation, *i.e.*, the clearing of jungles, the improvement of the drains, and supply of pure drinking water. Your supervising agency will come in when the funds have been found for these necessary and urgent purposes. Let us wait for our projects. Let us wait for our sanitary schemes, and then the Inspectors and Health Officers and the whole train of supervising officers can come in their own good time.

In any case, my Lord, you have consulted some of the officers and the municipalities in the mufassal ; why not consult all concerned ? There is no urgency in this matter. We could wait a couple of months, and we shall not thereby imperil the chances of sanitary improvement. The prospect will not be darkened by a deepening cloud. If we waited for two months, we could consult the local bodies concerned. Those who are called upon to pay have a right to be heard ; those upon whom it is proposed to impose a burden are entitled to a hearing, and to have an opportunity of expressing their views. You are introducing an important deviation from the principles of Local Self-Government, you are substituting compulsion for persuasion. The late Sir Edward Baker said from that chair, which your Excellency so worthily graces at this moment, that in the new era the policy of persuasion was to be substituted for the policy of compulsion. You are deviating from that policy, and inasmuch as you are making so serious a departure, I think that those who would be most affected by this piece of legislation are entitled to a hearing, and I hope that that will be the sense and judgment of this Council.

The Hon'ble MR. J. G. APCAR said :—

My Lord, may I venture to say a few words ? It has not any particular application to this particular measure, and I hope my hon'ble friend in charge of the Bill will not take my remarks as being directed to him personally. But there seems to be a general practice, when important measures are introduced, as from the discussion this measure appears to be regarded, for it to be introduced in the most brief manner possible, simply a proposal to refer the Bill to certain Hon'ble Members who will form a Select Committee. I humbly submit for the consideration of your Excellency's Government that the public, and even this Council, are entitled to some explanation of what is being proposed. But when measures are introduced by simply a reference made to a Select Committee, with no word of explanation, an exposition of the principle of the Bill when the motion is made, we do not get that help which we look for, nor the public, to which I think they are entitled.

The Hon'ble DR. NILRATAN SARKAR, said :—

My Lord, it is with a good deal of reluctance that I rise to oppose the very first Bill with regard to sanitary measures which has come before this Council, but I have tried to look at the matter from a different point of view, and I find it impossible for me to bring myself over to the point of view of the Hon'ble Member in charge of the Bill. It is a strong desire with me to see all the municipalities provided with Health Officers if possible. At the same time, I believe that it is for the municipalities who feel the necessity of such officers to appoint them themselves. But it is quite a different thing that sanitary officers should be appointed by them under legislative compulsion. The question is—Has the necessity arisen at the present moment for

such compulsory legislation? A very large amount of evidence has been placed before this Council by the Hon'ble Babu Surendra Nath Ray who has proved that the main want, almost the only want of these municipalities at the present moment, is not effective legislative measures in the mufassal municipalities, but is one of money, and that the want of so-called driving power is not felt by many of them. But in spite of this, these measures seem to me to be obligatory upon the municipalities to appoint Health Officers and Sanitary Inspectors whose number, whose qualifications and also whose remuneration are to be determined by Government. Now this goes against the essential principles of Local Self-Government. On the other hand, it is quite possible, my Lord, that with the help mentioned by the Hon'ble mover and with facilities given to the municipalities by training specially qualified men, these municipalities might be properly qualified to meet and conduct their sanitary affairs with the help of a qualified staff. That will not be effected in a day; gradual persuasion might gradually prevail. My Lord, at least the argument of persuasion might be given precedence in this particular case. I am one of those who believe that the Central Government should have a good deal of authority that should be exercised over the local bodies, but such authority should be exercised with great caution and also very sparingly. A great authority on Local Self-Government has said "that these local bodies may be permitted to even mismanage their business to some extent so that they may grow in an atmosphere of freedom." Such central control, if exercised off and on, my Lord, is sure to lead to disaster. Amongst other things it may strike a death blow to local initiative, to local responsibility and to local interest without which no Local Self-Government can be a reality.

My Lord, in the circumstances, I find it impossible to support the principles of the Bill. My attitude would have been different if the constitution of the central power had been different. I find in the despatch of the Government of India, dated the 23rd May 1912, that these Boards are beneficial in emphasising the importance of the subject of sanitation in correlating sanitary schemes with administrative exigencies and in securing direct discussion between sanitary experts and those who can appreciate and represent the attitude of the general population. Where is the Board in Bengal where such a discussion can be held between the representatives of the people and the sanitary experts? Let us have such a Board first, and after that we would like to have and we could put up with any amount of central control in this matter. In the circumstances, I feel it difficult to support the principles of the Bill.

The Hon'ble NAWAB SHAMS-UL-HUDA said:—

My Lord, I confess I was not prepared for this strenuous opposition to a simple measure which I had the privilege of introducing in this Council. I will try to show that there is no apprehension of the nature suggested in the speeches of Hon'ble Members who have preceded me. My friend, the Hon'ble Mr. Apcar, complained that the motion for referring the matter to the Select Committee had not been accompanied by an explanation of the principles of the Bill. If my learned friend had taken pains to read what I said in introducing the Bill, probably he would have found that that criticism was not justified. However, my Lord, I need not pursue this any further. A great deal has been said about the Bill being inconsistent with the principles of Local Self-Government. I deny that there is anything of the kind, and also I deny that we intend to cast any slur on the municipalities by the introduction of this measure. It is all very well to speak of the principles of Self-Government, but I ask my friends, is it not a principle of Local Self-Government that self governing bodies should depend on their own resources for carrying on their duties? For the last few years, large sums of money have been spent by Government in helping municipalities to put their houses in order, and when Government does that, is it unjustifiable to insist that these municipalities should have a machinery with which to supervise the

proper expenditure of the money that Government has been granting these bodies? Is not the Government justified in examining the present condition of municipalities and to say that the machinery is inadequate? My Hon'ble friends opposite have laid great stress on the fact that municipalities are perfectly conscious of their sanitary requirements. That may be to a certain extent true, but if that is to be judged by the results that have been achieved, and by the prevalence of the various diseases within municipal limits, I must say that the extremely favourable light in which the Hon'ble Members view the sanitary condition of the municipalities will be found somewhat difficult to support. Now, my Lord, the Bill, I do not think, is half as unpopular with the municipalities as my friends would represent it to be. We have this fact that 25 municipalities, in anticipation of the measure, have asked us for aid. We know that several other applications have been made to Commissioners of Divisions and the Divisional Commissioners are waiting for the passing of this Bill to send up these applications to the Local Government. My Lord, in introducing the Bill I explained the circumstances that required the measure and also outlined what Government intended to do. As regards consulting municipalities :- it is not every municipality that will be affected by the measure, it will be only a limited number of municipalities which will be required to appoint Health Officers and Sanitary Inspectors. When the proposed legislation has been passed it is intended ordinarily to require all municipalities with a population of about 50,000 or over, to employ Health Officers of the first class, while all municipalities of about 16,000 inhabitants and an annual income of Rs. 50,000 will have to appoint Health Officers of the second class. It is proposed to divide Sanitary Inspectors into two classes—one on a pay of Rs. 50 to Rs. 100 and another on Rs. 100 to Rs. 150 rising in five years. It is intended ordinarily to require all municipalities with a population of about 10,000 to employ one Sanitary Inspector, those with a population of 30,000, two Sanitary Inspectors, and those with a population of 50,000, at least three such inspectors. There may be exceptional cases requiring exceptional treatment. If the resources of any municipality are really insufficient to meet this expense, Government will be willing to consider such applications for a grant-in-aid as may be considered reasonable and well founded. So that, though we are forcing these officers on some of the municipalities, I cannot say that, having regard to the figures which I have quoted as embodying the views of this Government, it will be said that we are asking too much of the municipalities. I think some recognition was due to the fact that the Government of India had agreed to pay half the salary of the Health Officers, and they also recommended that, when the resources of any municipality were not sufficient, even to meet that half, that provincial Governments will consider the desirability of coming to the aid of these municipalities. In making grants on sanitation,—and my Hon'ble friends know well how large these grants have been in recent years,—we want definite schemes which we can examine and say that it is right to spend money in aid of such schemes. If municipalities have not got men to draw up these schemes and to place them in an acceptable form before us, they cannot get the benefit of the large sums that we still hold for the help of these municipalities, and I think that this Bill is not only required in the interests of the Government but also in the interest of the municipalities, and in this matter I think that the interests of the municipalities and the Government are the same. I think this Bill will bring a good deal of relief to municipalities and that they will readily and cheerfully avail themselves of the opportunities that we give them.

The Hon'ble Babu Mahendra Nath Ray, who has been for many years connected with the Howrah Municipality, also has joined in the general complaint. Let us take the case of the Howrah Municipality. The Howrah Municipality has a whole-time officer of its own and, under our rules, they are bound only to appoint a man on Rs. 500, Government contributing Rs. 250 out of that amount. Recently, the Howrah Municipality came up with a proposal to give their Health Officer a pay larger than Government wanted to fix; they wanted to pay him Rs. 800 and asked Government to pay half of that amount and Government acceded to the request. Of course, if a measure

is examined only from a theoretic point of view, something may always be said against it. But I ask my friends to examine this measure from a practical point of view and to say what may be the insidious motives that Government can possibly have in launching a measure of this kind. The Bill itself is a very elastic one, and we have provided a number of safeguards. As soon as the Bill is passed into law, it is not intended to extend it to all municipalities. The Bill provides that, whenever it is desirable that this Act should be extended to any municipality, "the Local Government may, by notification published in the Calcutta Gazette, announce its intention to declare this part to be in force in any municipality."

"If the Commissioners or any inhabitant of any such municipality object to this part being declared in force in the municipality, they or he may, within a period of six weeks of such publication, send such objection in writing to the Secretary to the Government of Bengal, and the Local Government shall consider all objections so sent."

"After the expiration of the said period, the Local Government, if no objections have been so sent, or if it considers that the objections so sent are insufficient, may, by a like notification, make the proposed declaration."

So that any municipality, which has any reasonable ground to put forward with a view to being kept outside the scope of the Act, will have ample opportunity of representing its case to the Local Government. If my Hon'ble friends will proceed on the assumption that the interest of the Government in the matter of sanitation is not different from the interests of the municipalities or of the people, they ought to consider this to be a sufficient safeguard. It has been complained—Why should we make the rules, and not leave it to the local bodies to frame their own rules? The difficulty is this:—we require men of a particular stamp for the work, men with particular qualifications and they will not be available, at any rate there will be much discontent if men of the same qualifications are to be employed on certain terms in one place and on different terms in another. We want to have a body of men, to train them as far as we can, so that they may be available for the municipalities when their services are required, and, if Government gives them the training, Government has a right to see that these trained men are employed on at least the minimum pay that would be acceptable to them, and in laying down the scale of pay, we really lay down the minimum pay likely to be acceptable to men possessing the necessary qualification. That is the reason why it could not be left to every local body to regulate the pay of these men according to the length of its own purse; but wherever it will be found that any municipality really finds difficulty in providing the funds, I have already said that we shall always be glad to come to the help of such municipalities. No doubt the complaint is still there that they have to pay half. If any of my friends on the other side of this House were to get an offer that their servants would get half their pay from Government, I am perfectly sure that they would jump at the idea, and I do believe that the municipalities would also welcome an arrangement by which a large sum of money will be contributed by Government for the pay of officers whom they might have been expected to employ entirely out of their own funds. As I have said, they have shown readiness by already applying for trained men, and some men are already under training.

The Hon'ble Mr. Chakravarti said they required funds and not advisers. My friend is totally mistaken; we are not providing advisers to municipalities but we are providing men who will look, on behalf of the municipalities, to the conservancy of the municipal towns. Most of them will be drivers of mehters, and I daresay the municipalities do require the services of such men, and when they get a substantial portion of their pay contributed by Government I am perfectly certain that the municipalities will welcome the measure. In the beginning, there is always much suspicion raised in the minds of men about the evil intentions of the Government and of its desire to get rid of Self-Government, and I am not surprised at the fact that many

municipalities have written to some Hon'ble Members opposing the measure. Probably, when the measure is passed and people see how the Act works, and find the benefit that the Government is prepared to bring them, I have no doubt that the Bill instead of being unpopular would be welcomed by the country. I do not desire to say that municipalities have not done their duty in respect of sanitation, but if we examine the death-roll from malaria and cholera and other preventible diseases, we are sure to be convinced that the municipalities have not proceeded at the rate at which Government has a right to expect them to proceed.

A division was then taken, with the following result :—

The result of the division being ayes 28, noes 13, the motion was carried.

THE BENGAL LAWS BILL, 1913.

4. The Hon'ble Sir William Duke moved for leave to introduce a Bill to assimilate certain enactments in force in Eastern and Western Bengal, to amend certain enactments, and to repeal certain other enactments.

He said :—

My Lord,—I beg for leave to introduce a Bill to assimilate certain enactments in force in Eastern and Western Bengal, to amend certain enactments, and to repeal certain other enactments. I trust that the measure which I desire to introduce will not give rise to controversy. It has been our desire so to frame it as to avoid any possibility of the kind.

This Bill has already been in the hands of all Hon'ble Members for over a month, it having been decided, in deference to a wish expressed by a Member during the Budget debate, to publish and circulate it before its formal introduction in Council. The Bill is purely a formal measure and, as is explained in the Statement of Objects and Reasons, is mainly intended to assimilate certain enactments in force in Eastern Bengal and Western Bengal, respectively, and to obviate, so far as may be, the inconvenience which might result from having two different measures, relating to the same subject-matter in force in the two main divisions of the Province. The opportunity has further been taken to introduce into the Bill a few formal amendments of certain enactments in force in Bengal, and to repeal two or three other enactments which are now spent. Thus, for example, the Bengal General Clauses Act, the Bengal Court of Wards Act, and the Bengal Vaccination Act have been extended to Eastern Bengal for the reasons explained in each case in column 5 of the first Schedule to the Bill; while as the Acts of the Eastern Bengal and Assam legislature specified in Schedule II appear to be preferable and and more up to date than the analogous Bengal Acts, it is proposed to substitute them for the latter. The several amendments set out in Schedule III are purely formal, as a perusal of the Schedule will show, while the reasons given for the repeal of the enactments mentioned in the 4th Schedule will, it is believed, be found to be unexceptionable. The Bill is, indeed, what is known as a "draftsman's Bill" and is the outcome of an exhaustive examination of the Bengal and Eastern Bengal and Assam Statute Books by Mr. Wigley, than whom, as the Council will agree, no more careful or conscientious investigator in this line in this country could probably be found.

2. Hon'ble Members will doubtless have noted that the Bill does not seek to assimilate all the enactments which might be dealt with in a measure of this nature. For instance, there are at present divergencies in the Court of Wards, Tenancy, Cess, Local Self-Government, and Excise Acts in force in the two divisions of the Presidency, but it was not thought to be either convenient or suitable that important enactments of this kind, in regard to the assimilation of which there might be material differences of opinion, should be included in a purely formal measure such as this Laws Bill was intended to be. These important Acts, and any others that may call for similar treatment, will accordingly be dealt with separately as occasion offers, and the Council are therefore at present only asked to give legislative sanction to an uncontroversial lawyers' Bill. It is on this account that I shall propose that (myself apart) lawyers only should be appointed to the Select Committee which it is proposed to nominate for the consideration of this very modest measure.

The Hon'ble MR. BYOMKES CHAKRAVARTI said :—

If I may be permitted to say one word, not for the purpose of opposition at all because I do not think that either on this side of the House or on the other side, there is any opposition to this formal measure. But, my Lord,

my name has been mentioned as one of the Members who is to serve on the Committee. My difficulty is, I find, that your Excellency's library is so magnificently equipped that we do not possess a single extra copy of the Act which we are going to consolidate or substitute for the different parts of the country. I believe I wrote some time ago to the Legislative Secretary and, although his answer was a very courteous one, he said that he had only one copy, and so he suffered from the same difficulty. My Lord, although it is said that everybody ought to be presumed to know the law, and those who are lawyers are supposed to know it even better, yet I myself do not in fact know what the Eastern Bengal Acts are, and it will be very difficult for me to assist the Select Committee unless Mr. Watson is able to provide us with some copies of these Acts.

The motion was put and agreed to.

5. The Hon'ble Sir William Duke moved that the said Bill be referred to a Select Committee consisting of the Hon'ble Mr. Twidell, the Hon'ble Mr. Mitra, the Hon'ble Mr. Sinha, the Hon'ble Mr. Byomkes Chakravarti, the Hon'ble Babu Mahendra Nath Ray and the mover, with instructions to circulate their report in time for its consideration in Council at the meeting to be held on the 1st September, 1913.

The motion was put and agreed to.

The Council was then adjourned to Monday, the 1st September, 1913, at 11 A.M.

PROPOSED DIVISION OF THE DISTRICT OF MIDNAPORE INTO TWO DISTRICTS.

POLITICAL DEPARTMENT.

POLITICAL.

DACCA, THE 7th JULY 1913.

RESOLUTION—No. 6072P.

THE attention of Government has for many years been directed to the desirability of improving the arrangements for the administration of the Midnapore district. The history of the question dates back to the year 1836, when Hijli, which had hitherto been a separate collectorate, was annexed to Midnapore, with the exception of three fiscal divisions transferred to Balasore ;

but the inconveniences of this amalgamation were soon felt, and in 1852, the Collector of Midnapore recommended the separation of Hijli into a separate collectorate as before. In 1876 again Sir Richard Temple proposed to divide the district into two parts; but the change had to be deferred for financial reasons. Ever since then the fact that Midnapore is too large a charge for one District Officer has been universally admitted; but, mainly for financial reasons, nothing has been done.

2. The district of Midnapore comprises an area of 5,145 square miles with a population of 2,821,201. It stands third in point of population and second in area among the districts of this Presidency. Not only is it an extensive and populous district, but its revenue administration in several branches is exceptionally onerous. Its large and important Government estates require careful and exacting management, and the administration of its canals involves numerous duties of a kind that do not attach to most Bengal districts. The burden thrown on the district staff is forcibly illustrated by a comparison of the work in several branches with that of the districts of Murshidabad and Chittagong, neither of which can in any sense be regarded as a small or light district.

The subjoined statement shows the state of crime in the year 1912 in the three districts :—

District.	Offences reported to the courts.	Cases brought to trial.	Persons convicted.	Witnesses examined by Magistrates.
Murshidabad ...	6,431	2,606	2,043	8,588
Chittagong ...	6,099	3,569	2,165	13,753
Midnapore ...	10.259	4,765	2,922	11,949

The comparative figures for land revenue, excise revenue, and road and public works cesses in 1912-13 are as follows :—

				Rs.
	Land Revenue.			
Murshidabad	...	...	...	10,77,856
Chittagong	...	...	...	13,33,643
		Total	...	24,11,499
Midnapore	...	...	...	25,92,806
	Excise Revenue.			
Murshidabad	...	...	...	2,14,458
Chittagong	...	...	...	2,12,386
		Total	...	4,26,844
Midnapore	...	...	...	5,37,605
	Cesses.			
Murshidabad	...	...	...	1,89,136
Chittagong	...	...	...	2,63,952
		Total	...	4,53,088
Midnapore	...	...	...	4,07,457

It is apparent that even the routine work of this huge district is more than enough to tax the energies of a single District Officer, and that consequently many matters requiring special attention have perforce to be neglected. The District Officer, tied to his desk and overburdened with a multitude of duties, is precluded from acquiring that intimate knowledge of his charge which he ought to possess, nor is he seen and known by the people as he should be. In view of the recent history of this district nothing could be more unfortunate than the lack of close personal contact between the District Officer and the people which at present prevails. The time has therefore arrived for devising a remedy by which the almost intolerable burden on the district staff may be appreciably lightened and the administration made more satisfactory in the interests of the inhabitants.

3. Various schemes designed to effect this object have been considered from time to time. One proposal is to create more subdivisions in the existing district, so as to break up the unwieldy Sadar subdivision of over 3,000 square miles. But it is doubtful if a measure of this kind would be any more than a palliative of the evil, giving no relief to the District Officer but rather tending to increase his work. Another scheme is to reduce the size of the district by transferring some of its subdivisions to one or more of the surrounding districts. The objections to such piecemeal transfers of portions of the district are, however, manifold. The proposal involves alteration in the boundaries and areas of several districts with consequent administrative rearrangements in each, while the statistics of all of them would be rendered useless for comparative purposes. The strongest objection of all is that even if the suggested transfers were effected, the residuary district would still be too large.

4. In 1904, under the orders of Sir Andrew Fraser, a Committee was appointed composed of officers of great experience, several of whom had special knowledge of Midnapore and its neighbouring districts, to consider the best way of dividing the district into two parts. The Committee recommended the formation of two districts, one to be called Contai, corresponding more or less to the former district of Hijli, and to consist of the subdivisions of Contai and Tamluk with a new subdivision of Dantan comprising the thanas of Dantan, Narayangarh and Sabang, now, as then, forming part of the Midnapore Sadar subdivision; the other to be called Midnapore, and to consist of the reduced Sadar subdivision, the Ghatal subdivision, and proposed new subdivision of Garhbeta. Before, however, action was taken on these recommendations the local officers were asked to invite the opinions of the leading men of the district on the proposed partition. It was apparent from the large number of representations received that the creation of the proposed new district would cause real inconvenience to the majority of the inhabitants owing to the inaccessibility of the proposed head-quarters at Contai. It was evident also that for the same reason the district could not be conveniently administered from that place, and that its formation would involve undue expenditure. This scheme was accordingly abandoned.

5. In 1906 the question was again carefully examined by Government in consultation with the local officers, and the consensus of opinion was in favour of separating the northern portion of the district, to be called the Midnapare district, with head-quarters at Midnapore, from the southern portion, to be called the Hijli district, with head-quarters at a point close to Kharagpur. This scheme, however, was held in abeyance owing to the conditions prevailing at the time; and as the only possible alternative means of lightening the strain of overwork from which the District Officer was suffering, an additional District Magistrate was appointed to the district. This arrangement has been in existence continuously for the last four years, but experience of its working only points to its condemnation. An equitable division of work between the two officers can only be secured by depriving the District Officer of certain functions, such as the Chairmanship of the District Board, which offer special facilities for keeping him in touch with the people of the district and ascertaining their needs and feelings. The experiment which was tried of appointing the additional District Magistrate to be Chairman of the District Board was found in practice to be unsatisfactory,

and was consequently abandoned. There are statutory objections to the Collector transferring many of his revenue powers; and there are many important branches of the administration, such as education and sanitation, which the District Magistrate must retain in his own hands if he is to remain the real head of the district. No satisfactory solution of the difficulty can be found by a rearrangement of departments between the two officers. Consequently, even with the assistance of the additional Magistrate, the balance of the duties which must fall on the District Officer is excessive. It appears therefore, that while the appointment of an addititional District Magistrate may furnish the necessary amount of relief in a district which is somewhat larger than the normal, it is impossible by this arrangement to secure an adequate remedy in a district like Midnapore, in which the volume of work is fully twice that of an ordinary district.

6. The scheme which was recommended in 1906 has now been re-examined. It provided for a division of the district into two parts—the northern portion to be called the Midnapore district, with head-quarters at Midnapore; and the southern portion, to be called the Hijli district, with head-quarters at Kharagpur. The proposed new Midnapore district would consist of the following subdivisions :—

	Area in square miles	Population.
I.—*Midnapore sadar subdivision* (consisting of thanas Midnapore, Salbani, Garhbeta and Keshpur)	947	347,459
II.—A new subdivision to be opened at Jhargaon (consisting of thanas Jhargaon, Binpur and Gopiballabhpur) ...	1,203	355,793
III.—*Ghatal subdivision* (consisting of thanas Ghatal, Daspur and Chandrakona) ...	372	301,396
Total ...	2,522	1,004,648

The proposed Hijli district consists of—

I.—*Hijli sadar subdivision* (consisting of thanas Kharagpur, Debra, Sabang, Narayangarh and Dantan) ,,	1,120	596,828
II.—*Contai subdivision* (consisting of thanas Contai, Egra, Pataspur, Bhagwanpur, Khajri and Ramnagar) ...	849	618,223
III.—*Tamluk subdivision* (consisting of thanas Tamluk, Panskura, Maslandapur, Sutahata and Nandigram)	654	601,502
Total ...	2,623	1,816,553

Compared with the remaining 26 districts of the Presidency, the proposed Hijli district would have a larger area than 14, while the new Midnapore district would be larger than 11. In point of population the Midnapore district would be larger than 7 districts, and the Hijli district would be larger than 19.

7. In the course of further examination of the partition proposed in 1906, the Governor in Council has directed his attention to two disadvantages involved in its arrangements. The inequality in the population is obvious; and the proposed southern district would still be unnecessarily large both in area and in population. Moreover, although it is certain that the northern district will eventually develop to a considerable extent, yet the unhealthiness of the north-east portion has recently put a stop to the increase of population; on the other hand the southern area is progressive. It would appear that some slight readjustment might correct these disadvantages. The population in the proposed Midnapore sadar subdivision is small, while that in both the Tamluk subdivision and in the Hijli subdivision is large. The transfer to

the Midnapore sadar of the thana Debra from the proposed Hijli sadar subdivision and of the thana Panskura from the proposed Tamluk subdivision would produce less discrepancy between the area and population of the northern and southern areas. The inhabitants of Debra thana would go to Midnapore head-quarters as they do at present; and as for Panskura thana, the railway communication through Kharagpur Junction to Midnapore is probably on the whole no less convenient for the inhabitants of that thana than the road journey to Tamluk head-quarters. The rearrangement involves no great discrepancy of area; the more thinly peopled district would have an excess of about 20 per cent. of area, which seems not unsuitable. Besides, the compactness of the two districts is on the whole improved, and the population of each area is brought nearer to the standard size.

8. If the arrangements proposed in 1906 be revised as suggested above, the following would be the distribution :—

Proposed Midnapore district.

	Area in square miles.	Population
I.—*Midnapore sadar subdivision* (consisting of thanas Midnapore, Salbani, Garhbeta, Keshpur, Panskura and Debra) ...	1,231	558,249
II.—A new subdivision to be opened at Jhargaon (consisting of thanas Jhargaon, Binpur and Gopiballabhpur) ...	1,203	355,793
III.—*Ghatal subdivision* as at present (consisting of thanas Ghatal, Daspur and Chandrakona)	372	301,396
Total ...	2,806	1,215,438

Proposed Hijli district.

I.—*Hijli sadar subdivision* (consisting of thanas Kharagpur, Sabang, Narayangarh, and Dantan)	988	530,029
II.—*Contai subdivision* as at present (consisting of thanas Contai, Egra, Pataspur, Bhagwanpur, Khajri and Ramnagar) ...	849	618,223
III.—*Tamluk subdivision* as at present, but exclusive of Panskura (consisting of thanas Tamluk, Maslandapur, Sutahata and Nandigram)	502	457,511
Total ...	2,339	1,605,763

If the comparison which was made regarding the divisions proposed in 1906 be repeated as regards these revised areas, it is found that the proposed Midnapore district will have a larger area than 17 of the remaining 26 districts, and a larger population than 9; while the proposed Hijli district will have a larger area than 9, and a larger population than 16.

9. The leading residents of the Midnapore district who were consulted on the previous occasion on the division proposed in 1906 urged some objections which may be summarized as follows :—

(*a*) that partition will reduce Midnapore from being one of the most important districts of Bengal to one of the least important, for Midnapore town owing to its geographical situation would be the head-quarters of the sparsely populated northern and western portions of the district, while the most highly cultivated and wealthy tracts are situated in the southern part of the present district;

(*b*) that Hijli will become a much more important district than Midnapore, and that its head-quarters town will, in course of time, overshadow the Midnapore town and reduce the latter to insignificance;

(*c*) that the zamindars from the southern part of the district who have houses and offices at Midnapore, the people whose children are educated at the Midnapore College, and generally all those who have long-standing associations with Midnapore will be affected by the partition ; also that it will take a long time for similar associations to grow up around Hijli, and that, at any rate during the first few years of its existence as a district head-quarters, people who have to go there for business will experience considerable inconvenience and hardship for want of suitable accommodation ; and

(*d*) that the people of the proposed Hijli district will suffer inconvenience owing to the situation of the revenue and criminal courts at Hijli and of the civil and sessions courts at Midnapore.

10. Most of these objections would apply to any scheme of partition. It is impossible to deny that the prosperity of Midnapore town will for a time be affected when it ceases to be the head-quarters of the most advanced and prosperous part of the present district. House property may fall in value, and the zamindars of the southern portion of the district who have houses in Midnapore may find some difficulty in disposing of them ; and it will be some time before they are able to replace them by similar houses at Hijli. Since however that place is only six miles distant from Midnapore with good railway communication, there will be no immediate necessity for zamindars to provide themselves with new houses. On the other hand it has been urged that these grievances only affect a limited class of the community, and that they ought not to outweigh the advantages of the division of the district, which is necessary in the interests of the general administration. The great mass of the inhabitants, it is believed, must be gainers by the partition, unless the new district head-quarters be so placed as to be more inconvenient of access than Midnapore. This was the real objection to the Contai scheme ; but the new site which is near Kharagpur is for practically the whole of the proposed district distinctly easier of access than Midnapore since it is at a junction where four main lines of railway meet, whereas at present the vast majority of persons going to Midnapore from any part of the area in question must change train at Kharagpur and thence continue their journey to Midnapore.

11. As regards the proposed name of the new district and its head-quarters, Kharagpur has been suggested. It has been pointed out, however, that this name has no revenue associations ; that it has already been appropriated as the name of the large and growing railway station and railway workshops of the Bengal-Nagpur Railway ; and that it would be inconvenient to have two important, separate, but closely neighbouring stations bearing the same name. On the other hand it would be appropriate to revive the name of the old revenue district of Hijli, which originally occupied the greater part of the district now to be constituted, and to give to the head-quarters of the district the same name as the district itself.

12. His Excellency the Governor had occasion to discuss the question with several of the leading inhabitants of the district when he visited Midnapore in January last, and he then promised that local opinion would be consulted before Government came to a decision on the matter. The Governor in Council now desires to ascertain fully the views of the people of the district, both as regards the scheme of division as now revised, and the most satisfactory manner of bringing it into effect. All such opinions should reach Government if possible not later than the 15th September 1913.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*, and that it be forwarded to the Commissioner of the Burdwan Division, with the request that copies, both in English and in the Vernacular, may be widely circulated within the Midnapore district.

By order of the Governor in Council,

J. G. CUMMING,

Offg. Chief Secretary to the Government of Bengal.

LIBERALITY OF BABU HAZARI MULL JUGON PROSAD OF CALCUTTA.

No. 1045M., dated Calcutta, the 8th July 1913.

From—The Offg. Secy. to the Govt. of Bengal, Municipal Dept.
To—The Chairman of the Corporation of Calcutta.

With reference to your letter No. S.-1268, dated the 16th June 1913, in which you have reported that Babu Hazari Mull Jugon Prosad, a Marwari gentleman residing in Calcutta, has made a generous contribution of Rs. 30,000 towards the construction of a Pilgrim Rest House which it is proposed to build at Kalighat, I am directed to request that you will be so good as to convey to the donor the thanks of Government for his liberality and public spirit.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 7th July 1913.

Summary.—During the week under report rainfall was general all over the province and was heavy in parts of Eastern Bengal. The excessive rainfall during last month has done a considerable amount of damage to the standing crops. The crops which have suffered most are those which were sown late and those which are in low lands. As the sowing season in Western Bengal is much later than that of Eastern Bengal, the amount of damage done in the former area is much greater than that done in the latter. The Collector of Rangpur reports that the prospects of the jute crops in his district are good. The Collector of Rajshahi reports that the prospects of the jute crop are good on high lands, although not on low lands. The Collector of Pabna reports that the prospects of standing crops are good. The Collector of Faridpur reports a poor crop for low and late sown lands but a fairly good crop for the higher lands. The same remark applies to the districts of Mymensingh and Dacca. Transplantation of *aman* paddy is in progress and harvesting of *aus* paddy and jute has commenced in Eastern Bengal. The average price of rice has risen slightly as compared with that of the previous week. Injury to standing crops from insect-pests is reported from Khulna and Bakarganj. Scarcity of fodder is reported from parts of Midnapore, Bogra and Tippera and cattle-disease is reported from eleven districts.

No. 1428L.R.—The 14th July 1913.—Under section 3 (17) of the Bengal Tenancy Act, 1885 (VIII of 1885), Babu Sarat Chandra Guha, Sub-Deputy Collector, is authorised to discharge the functions of a Revenue Officer, under the provisions of that Act so far as they relate to Revenue Officers, for the purposes of a survey and the preparation of a record-of-rights in the district of Malda.

Malda.

He is also vested with the powers of an Assistant Settlement Officer under rule 40 (Chapter VI) of the rules under the Bengal Tenancy Act.

No. 1894T.R.—The 9th July 1913.—Whereas by an order No. 1624L.R., dated the 23rd April 1912, which was published at page 768 Part I, of the *Calcutta Gazette* of the 24th idem, it was notified for general information that the estimate of the probable expenses to be incurred in respect of the repairs, maintenance and works connected therewith of the Argowal drainage channel and sluice in the district of Midnapore, for a period of fifteen years commencing from the 1st April 1913, amounted, at the rate of Rs. 1,884 per annum, to Rs. 28,264.

Midnapore.

2. And whereas, as required by section 63 of Act II (B.C.) of 1882, this estimate was locally published in June 1912 with a general notice calling on all persons interested to prefer to the Collector of Midnapore, any objections they might think proper against such amount being fixed as the total sum payable.

3. And whereas three petitions of objection filed before the Collector of Midnapore, have been duly considered and disposed of by the Governor in Council, with the result that two of them, filed respectively by Babu Durga Prosad Das and others and Babu Upendra Nath Mitra have been disallowed, and one submitted by the raiyats of villages Bijaynagar, Dishimulya and Deghadari in the district of Midnapore has been allowed, the Governor in Council is pleased, under section 63 of Act II (B.C.) of 1882, to fix the estimated amount of Rs. 28,264, as the sum payable during the period of fifteen years, commencing from the 1st April 1913, by the zamindars of the estates benefited by such repairs, maintenance and works.

No. 1430L.R.—The 15th July 1913.—In exercise of the power conferred upon him by section 108A of the Bengal Tenancy Act, 1885 (VIII of 1885), the Governor in Council is pleased to empower Mr. A. W. Cook, I.C.S., Collector of Bankura, to make corrections, in accordance with the provisions of that section, in entries of records of rights in the areas specified in Notification No. 2108L.R., dated the 21st July 1911, published at page 1096, Part I, of the *Calcutta Gazette* of the 26th idem

Bankura.

No. 2190M.R.—The 9th July 1913.—In exercise of the power conferred by section 48 (1) of the Land Acquisition Act, I of 1894 the Governor in Council is pleased to withdraw from, the acquisition of the land measuring, more or less, 3¾ chitaks of standard measurement, which was required by the Serampore Municipality for widening a portion of Mukherjee Lane near its junction with the Brahmanpara Lane in the village of Serampore, in the district of Hooghly, and in respect of which declaration No. 1421L.A., dated the 23rd March 1912, was published at page 628, Part I, of the *Calcutta Gazette* of the 27th idem.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

IN continuation of Resolution No. 1161-1185-1, dated the 17th February 1913, the following information relative to the Fourth International Rubber and Allied Industries Exhibition and the First International Cotton, Fibres, and other Tropical Agricultural Products and Allied Industries Exhibition which will be held in London in the year 1914 is published for general information.

The Government of India have decided not to participate in the exhibitions.

Extract from preliminary prospectus.

INTRODUCTION.—These Exhibitions will be held at the Royal Agricultural Hall, London, from the 24th June to the 9th July 1914, in connection with, and during the sitting of the International Congress of Tropical Agriculture, which will be attended by Delegates from all parts of the world.

Already a large number of British and Foreign Governments as well as many commercial firms of Europe and America have intimated their intention to exhibit, and it will be at the option of the Governments, Associations, Companies and Firms to show their rubber separately from the Cotton, Fibres and other tropical agricultural products that may be grown in their respective countries, or to combine them, as one exhibit of all products.

Arrangements will be made for the International Congress to hold meetings of certain Sections at the Exhibition during the Fourth International Rubber Conference, and Delegates will have the opportunity of attending both.

The coming Exhibitions should very materially benefit Agricultural Industries of the tropical and sub-tropical countries, as their scope will be widely extended and they are being organised for the purpose of displaying to visitors from all parts of the world, not only rubber, but all commercial products grown in the soil. The various products that are grown in tropical or sub-tropical countries and exported to different places are seldom brought together so that manufacturers, dealers, etc., from all parts of the world can meet and examine them, and discuss supplies with the representatives of Governments, producers, etc. London is the convenient centre, and June is the time of the year most convenient for representatives from producing countries to visit England; it is also a season when manufacturers and dealers can find it convenient to visit this country and converse with producers from far distant parts. London is without a doubt the proper meeting ground for the Congress of Tropical Agriculturalists, Manufacturers, and others interested in these great and increasing industries.

AREA OF THE EXHIBITION.—The available space for the Exhibition covers an area of over 200,000 square feet.

DECLARATION.

No. 3440.—The 14th July 1913.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., (1) for the East Bamondiha siding—such portion of the North Burradhemo siding as lies between mile 136 feet 4,194 and mile 137 feet 176, and (2) such portion of the Borachack-Sodepore branch as lies between mile 156 feet 2,595 and mile 137 feet 659 of the East Indian Railway and as is edged with pink on the plans L.A.M.A. Nos. 211 (1) and 211 (2), and whereas coal mines are situate under the said land, and whereas the Damuda Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seams known as the Raghunathbatti and Dishargarh seams, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Damuda Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working.

Burdwan.

Now, therefore the Governor in Council is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Damuda Coal Company, Limited, in the manner and subject to the restrictions below specified, viz.:—

(*a*) No coal shall be extracted in any place where the distance from the natural surface to the top of the gallery, if driven, is less than 50 feet.

(*b*) Where the distance from the natural surface to the top of the gallery, if driven, is 50 feet or more, only such galleries shall be driven as are marked by the red lines upon the plans L.A.M.A. Nos. 211 (1) and 211 (2). Such galleries shall not exceed 12 feet in width, and, in the case of the Raghunathbatti seam, 6 feet in height and in the case of the Dishargarh seam, 12 feet in height and the pillars formed by such galleries shall be left unworked for the support of the acquired land.

(*c*) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(*d*) These restrictions shall apply to the Raghunathbatti and Dishargarh seams only and to the area edged with pink on the plans, and the Damuda Coal Company, Limited, shall give notice under section IV of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under such area or to work coal under any other area of acquired land, and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the two plans marked L.A.M.A. Nos. 211 (1) and 211 (2) signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

NOTIFICATION.

No. 1M.P.I., dated the 14th July 1913.—In exercise of the power conferred by clause (*a*) of sub-section (*3*) of section 4 of the Indian Electricity Act, 1910 (IX of 1910), the Governor in Council hereby revokes, with effect from the date of this notification, the Darjeeling Electric License, 1904, which was granted to the Municipality of Darjeeling under this Department Notification No. 203 M.P.I., dated the 5th August 1904.

II. In exercise of the power conferred by section 3 of the Indian Electricity Act, 1910 (IX of 1910), the Governor in Council is pleased to grant to the Municipal Commissioners of Darjeeling the following new license to supply electrical energy in the area specified in the said license :—

THE DARJEELING ELECTRIC LICENSE, 1913.

License for the supply of energy granted by the Government of Bengal under the Indian Electricity Act, 1910 (IX of 1910), to the Municipal Commissioners of Darjeeling to supply energy in the area with the powers and upon the terms and conditions specified below.

SHORT TITLE.

1. This license may be cited as "The Darjeeling Electric License, 1913."

INTERPRETATION.

2. The several words, terms and expressions to which by the Indian Electricity Act, 1910, or by the rules thereunder, meanings are assigned shall have in this license the same respective meanings, provided that in this license :—

(*1*) "the Act" shall mean the said Indian Electricity Act, 1910;

(*2*) the expression "the Licensee" shall mean and include the said Municipal Commissioners of Darjeeling and their permitted assigns; and

(*3*) the expression "deposited map" shall mean the plan of the area of supply hereinafter specified which has been deposited with Government, in pursuance of the rules under the Act, which plan is signed for the purpose of identification by the Secretary to the Government of Bengal in the Public Works Department and by the Chairman of the Darjeeling Municipality.

AREA OF SUPPLY.

3. The area above referred to, within which the supply of energy is authorized by this license (the area of supply under the Act), is the whole of the area bounded as follows and delineated in the deposited map :—

North—By a straight line from the junction of the Sidrapong jhora and Little Rungeet river to the junction of Ging jhora with the Rungnu river.

East—By the Rungnu river to the point where it is joined by the Senchal jhora, thence by a straight line to the south gate to the Water Works reservoir on Senchal.

South—By a straight line almost due west to the junction of the Serjung jhora with the Little Rungeet river.

West—By the Little Rungeet river to the starting point.

LIMITS WITHIN WHICH THE SUPPLY OF ENERGY IS TO BE COMPULSORY.

4. (*1*) The works to be executed to the satisfaction of the Local Government under clause IV of the schedule to the Act are the following, namely :—

(*a*) Supply for all purposes within the Municipal limits of Darjeeling.
(*b*) Supply for all purposes within the Cantonment limits of Jalapahar, Katapahar and Lebong.

(*2*) If the licensee fails to comply with the provisions of sub-clause (*1*), this license may be revoked.

LIMITS OF PRICES TO BE CHARGED IN RESPECT OF THE SUPPLY OF ENERGY.

5. The prices to be charged by the licensee for energy supplied by him shall not exceed the following *maxima*, namely :—

(*a*) Within so much of the area of supply as is within the Municipal and Cantonment limits referred to in clause 4 of this license, annas eight per Kilowatt hour; and

(*b*) Within so much of the area of supply as is outside the Municipal and Cantonment limits referred to in clause 4 of this license, annas twelve per Kilowatt hour; or

in the case of a method of charge approved by the Local Government in accordance with clause X of the Schedule to the Act, such *maxima* as the Local Government may fix on approving the matter.

LIMIT OF SUPPLY.

6. When the maximum supply of energy to consumers has reached the limits of the capacity of the generating plant, the licensee shall not be bound to supply energy to any further applicants.

RESOLUTION ON THE REPORT ON THE CENSUS OF BENGAL, BIHAR AND ORISSA AND SIKKIM, 1911.

GENERAL DEPARTMENT.

MISCELLANEOUS

CALCUTTA, THE 14TH JULY 1913.

RESOLUTION—No. 3435.

READ—

The Report on the Census of Bengal, Bihar and Orissa and Sikkim, 1911, by Mr. L. S. S. O'Malley, I.C.S., Superintendent of Census Operations, Bengal.

THE fifth census of Bengal was taken on the 10th March 1911, and showed the population of the Province to be 57,206,430 as compared with 78,493,410 returned at the previous census of 1901. But in the interim the area of the Province had been reduced from 196,408 square miles to 148,592 by the administrative changes of 1905 and the transfer of Sikkim to the direct control of the Government of India in 1906. The taking of the census was followed by another redistribution of territories, which still further reduced the area and population.

2. The census operations were conducted by Mr. L. S. S. O'Malley in Bengal and by Mr. J. McSwiney in Eastern Bengal and Assam, and the procedure followed in these two provinces has been described in detail in two separate volumes. The Provincial and Imperial tables have, however, been compiled on a different principle, those for Bengal and Sikkim forming one volume and those for Bihar and Orissa another.

3. The present report, which deals with the results of the census not only in the Presidency of Bengal, but also in the Province of Bihar and Orissa and the State of Sikkim, has been read with interest by the Governor in Council, who desires to place on record the following observations regarding the main features of the operations in Bengal.

4. The administrative changes of 1905 and 1912 threw a heavy additional burden on the census officers. To afford a basis for comparison with previous years, the published statistics for each preceding census had to be recast twice, viz., once, before the census, for the two Provinces then in existence, and again, after the census, for the new Provinces of Bengal, Bihar and Orissa and Assam. This retarded the issue of the Report and added to the cost of the operations.

The total cost of the census for Bengal is estimated at Rs. 2,67,322, which represents an incidence of Rs. 5-12-4 per mille of the population, a rate but slightly in excess of that for 1901 in spite of the intermediate rise in wages and the extra work resulting from the administrative changes.

As in previous years, the bulk of the work was performed by an army of unpaid helpers, the number of whom reached nearly 350,000 in Bengal. To all of these great praise is due for the efficient performance of their honorary duties; their task was difficult and not wholly free from danger. The organisation was excellent, and many astonishing facts are recorded of the speed with which returns were brought in from remote corners of the wilder districts.

5. The Presidency of Bengal, as now constituted, embraces an area of 84,092 square miles and contains a population of 46,305,642. Somewhat smaller than the British Isles, it has almost a million more inhabitants. The density of the population ranges between 1,850 to the square mile in the district of Howrah and 30 in the Chittagong Hill Tracts; the average is 551. The only other district with a population of over 1,000 to the square mile is Dacca. In the 24-Parganas, in spite of its huge mill population, the average is only 502, for the district contains large tracts of the Sundarbans, a very sparsely populated area.

The actual increase in the population since 1901 has been nearly 3½ millions, or 8 per cent. There has been a gradual but steady rise in the

percentage of increase at each successive census since 1872. Different localities show widely different rates of increase, but during the last 20 years it is in the most populous areas that the pace has been quickest on the whole.

The influence of efficient drainage works upon the growth of the population is well illustrated by the area round Magra Hât, a tract of nearly 300 square miles in the district of the 24-Parganas. Thirty years ago this tract was described as one where fever was constantly present in every village, its inhabitants "inured to a semi-amphibious life by a long course of preparation resulting in the survival of the fittest." Now all this has changed, and the population, which is entirely agricultural, already shows an increase of 29 per cent. since 1901, although the drainage scheme has not even yet been fully worked out.

6. *Cities, Towns and Villages.*— Since the last census the urban population has increased by 13 per cent., a rate considerably in excess of the average for the whole population. It cannot, however, be said that the depopulation of the rural tracts is yet a serious problem, for 936 persons out of every 1,000 still live in the country. Two-fifths of the urban population centre in Calcutta and Howrah, and there has been a striking growth of the riparian population along the Hooghly, in the districts of the 24-Parganas, Hooghly and Howrah. These centres of the manufacturing industry show some remarkable figures. Bhatpara, for example, has increased by 500 per cent. since 1881, and now contains a population of over 50,000. Titagarh has trebled its population since 1901, and Bhadreswar, on the other side of the river, has increased by 61 per cent. Since 1901, the number of factories in the 24-Parganas district alone has risen from 74 to 124, and the number of operatives from a little over 94,000 to nearly 170,000. The jute mills in Bengal now employ over 200,000 hands, about double the number recorded at the previous census.

The total population of Calcutta and its suburbs has reached the huge figure of 1,043,307, which places it second only to London in the British Empire, and gives it rank among the 12 largest cities of the world. This population is made up of an agglomeration of races and castes from all parts of India and from many foreign lands. Three hundred and ninety-seven separate races, castes and nationalities were returned at the census, and more than half the residents were born outside Calcutta. Over a quarter of a million of Calcutta's inhabitants derive their living from industrial occupations and close on 200,000 from trade.

7. *Migration.*—The balance of migration is strongly in favour of Bengal, for it receives nearly 2 millions of immigrants, but sends out only half a million. Bihar and Orissa contribute the greatest number of immigrants, 1¼ million, and the United Provinces come next with over 400,000.

8. *Religion.*—In Bengal as now constituted 97·6 per cent. of the population consists of Musalmans and Hindus, the former outnumbering the latter by 3¼ millions and forming over 52 per cent. of the whole. The figures of relative growth show that during the last decade the increase among Muhammadans has been nearly thrice as great as among Hindus.

Of other religions, Animists number nearly three-fourths of a million, Buddhists a quarter of a million, and Christians 130,000. Jains, Sikhs, Jews, Parsis and others are very few in number.

9. *Age, Sex and Civil Condition.*—The rate of infant mortality is appalling. One child out of every five dies within a year of birth. Calcutta, in spite of its good sanitation and good water-supply, heads the list with a death-rate among infants of 31 per cent. Early marriage, utter ignorance of the simplest rules of hygiene, insanitary surroundings, and, among the parents of the labouring classes, poverty, which compels the mother to work almost up to the day of her confinement, are among the causes which reduce the chances of a child surviving the early stages of its life.

On the other hand the longevity of Hindu widows is remarkable: all lead simple lives, and many, bereaved at an early age, escape the dangers of child-birth.

The universality of marriage in Bengal continues, despite the rise in the market value of both brides and bridegrooms owing to the increased cost of living and the widening of the field of selection by improvement

in communications. But it is a significant fact that the average age of marriage is steadily rising. The spread of enlightened views is to some extent responsible for this, but grim necessity often compels a father unwillingly to defer the marriage of his daughters till after they have attained a marriageable age.

10. *Education.*—Bengal stands first among all the Provinces in India, not only for the actual number of persons able to read and write, but also for the proportion (7·7 per cent.) which they bear to the total population. Madras comes next with 7·5 per cent. and Bombay follows with 6·9. The total number of literate persons in the Presidency is 3½ millions, of whom slightly more than a quarter of a million are females.

Of individual areas, Calcutta heads the list with one out of every three of its inhabitants able to satisfy the test of literacy. This is a remarkably high proportion considering the large number of low class immigrants engaged in menial duties. At the other end of the scale come the districts of Mymensingh, Rajshahi, Rangpur and Malda with less than 5 per cent. of literates.

The actual addition to the number of literate persons in the Presidency since 1901 is 632,222. of whom 90,342 are females. The percentage of increase among the whole population is 21½ and that among females as high as 56. The increase would have been greater still but for the fact that the standard for literacy prescribed at this census was higher than that previously adopted. In 1901 the only criterion laid down was ability to read and write, but in 1911 no person was recorded as literate unless he could write a letter to a friend and read the answer to it. One result of this raising of the standard is that the proportion of literates among children of ten years and under has in most places either remained stationary or actually fallen.

The backwardness of Muhammadans in education is clearly shown by the fact that whereas the Muhammadans outnumber the Hindus by more than three millions, yet there are only two of the former to every five of the latter who can read and write. A curious phenomenon noticed by Mr. O'Malley is that the degree of literacy in each community varies inversely with its local strength. Thus in Western Bengal, where the number of Muhammadans is smaller than elsewhere, the proportion of literate Muhammadans is greater. Similarly in Eastern Bengal, where the Hindus are largely outnumbered by the Muhammadans, 1 in every 4 is literate; while in Western Bengal the proportion is 1 in 5.

Peculiar interest attaches to the figures which show the relative advance in literacy among these two communities. At the census of 1901 the percentage of literates was 10·3 among Hindus and 3·5 among Muhammadans. Now it is 11·8 and 4·1, respectively. The increase has been in the proportion of 7 to 8 among the former and 6 to 7 among the latter: in other words, Muhammadans have made rather more rapid progress in education than Hindus. An examination of the figures for the two sexes, however, discloses the fact that while among Muhammadans the increase has been almost uniform in both sexes (males 29 per cent. and females 31 per cent.), in the Hindu community the increase has been four times as rapid among females as among males, the percentages being 64 and 16, respectively.

The endeavours of certain of the lower Hindu castes to raise their social status is reflected in their standard of literacy. Thus the Kaibarttas, Pods, Namasudras and Rajbansis all show signs of improvement, and the Pods especially have made great strides.

The increase during the last decade in the number of educational institutions in Bengal has been remarkable, there having been an addition of nearly 4,000 schools and more than 400,000 pupils. Most striking of all is the fact that the number of girls' schools and of their pupils has increased threefold.

11. *Languages.*—Mr. O'Malley's Chapter on Languages is full of interest. The instructions as to the language to be recorded were revised this year so

as to prescribe not that language which a person most often used but that which he ordinarily spoke in his own home.

The change has resulted in greater accuracy in the returns, and from a linguistic point of view Bengal appears more homogeneous now than ever before. Bengali is the language of 92 per cent. of the population, and Hindi and Urdu account for another 4 per cent., while nearly 45 out of the 46 millions speak languages belonging to the Indo-European family.

The Hindi and Urdu speakers centre mostly round the mills of Howrah and the 24-Parganas, which draw their labour from Bihar and the United Provinces.

12. *Infirmities.*—As in 1901, four infirmities are recorded, viz., insanity, deaf-mutism, blindness and leprosy. The last decade has witnessed an increase in all the infirmities except leprosy. In Bengal there are 43 insane persons to every 100,000 of the population, insanity being most prevalent to the east of the Bhagirathi. No district except Darjeeling and Nadia has less than 25 insane persons per 100,000, and the proportion rises as high as 157 in the Chittagong Hill Tracts. The Chapter dealing with Insanity contains a highly interesting account of the beliefs among both educated and uneducated classes about the causes and cures of insanity.

Deaf-mutism, with its associates, crétinism and goitre, is most prevalent in North Bengal, and especially in Sikkim. The proportion of sufferers to general population has remained stationary since the last census.

Blindness is less prevalent than it was, except in the Presidency Division, where the proportion remains stationary.

The number of lepers has also decreased.

13. *Caste.*—The Chapter on Caste is the longest and most interesting in this volume. At the last census, statistics of all castes and tribes were compiled. At this, it was laid down that statistics should be prepared only for the more important castes, and for such others as Local Governments might for special reasons wish to include. The Government of Bengal had figures collected for all castes and tribes which in 1901 numbered 50,000 or more in the Province, for all that numbered 25,000 or more in a single district, and for certain others of special local importance or ethnological interest. The Government of Eastern Bengal and Assam compiled figures for 450 groups with a strength varying from 1 to 22 millions.

Mr. O'Malley's observations bear witness to the extraordinary social unrest that prevails to-day among the lower castes. No part of the census aroused so much excitement as this. A belief got abroad that the object of the census was to fix the relative status of each caste and to settle claims to social superiority ; and this belief was largely fostered by the fact that at the last census castes were classed in order of social precedence. Petition after petition poured in from members of different castes praying to be designated by new names, or to be placed higher on the list. Somewhat different methods were adopted in the two Provinces of Bengal and Eastern Bengal and Assam for dealing with these delicate problems. In Eastern Bengal and Assam, for example, the numerous groups of Muhammadans who desired to be called Sheikhs were all entered as such, irrespective of what the enumerators considered or knew them really to be. The result has been an extraordinary (and misleading) increase in the numbers of Sheikhs in North and East Bengal ; in fact, 95 per cent. of the whole Muhammadan population of the province have now been recorded as Sheikhs. In Bengal, on the other hand, such latitude was not allowed, and members of a group were entered only under those names by which the group was generally known. It was wisely decided that at this census there should be no classification by status, and thus the difficulty of deciding to which of the four main divisions of Hindus each individual belonged was overcome. But the case of those castes who wished to arrogate to themselves an entirely new name was different, and the new name was entered by the census authorities if it was recognised by the Hindu community at large and was not used by any other caste. Thus the Chandals have been entered as Namasudras and the Chasi Kaibarttas as Mahishyas. The case of the Namasudras is

curious and instructive. A generation ago they were content to call themselves Chandals. Advancing in wealth, they adopted the title of Namasudra, and at the census of 1891 they were entered as "Namasudra or Chandal." In 1901 they were entered as "Namasudra (Chandal)." In 1911 Chandal was dropped, but their further prayer to be called Namasudra Brahmans was disallowed.

Similarly, the Rajbansis claim to be entered as Kshattriyas and the Shahas as Vaisyas.

A comparatively modern symptom of this anxiety for the improvement of social status is the growth of the caste Samiti or Sabha. Most of these bodies have come into existence since the last census and especially since the Partition of Bengal in 1905. Their main object is to improve the social position of the caste, and their organization varies from combinations of the loosest kind to limited liability companies.

In this connection it is interesting to note that the statistics show that the "Bhadralok" castes are progressive. The Brahmans have increased by 7½ per cent, the Baidyas by 9 per cent, and the Kayasthas by 13 per cent.

This Chapter on Caste is remarkable for its careful review of many matters of great ethnological interest, such as "initiation into caste" and "caste government." Some of these have a very important bearing on the administration of the country at the present day. Mr. O'Malley remarks that on the whole the accessibility of the law courts is tending to weaken the system of caste self-government. There is also a tendency for the panchayat system to be supplanted by the practice of referring disputes to the local zamindar.

At the same time, Co-operative Societies, a comparatively new growth, are providing a new village organization which discharges many of the functions of the caste panchayats. Being formed on a basis of unlimited liability, these Societies find it necessary to inquire closely into the position of new members, and, as a result, the tendency has been for these Societies to exercise a very salutary influence towards curtailing marriage expenses and reducing litigation, two of the largest items of expenditure in village life. Numerous examples are reported of the way in which Co-operative Societies intervene with good effect in the village social life.

Though there is, properly speaking, no caste system among Musalmans, yet in the organization of panchayats they have assimilated Hindu ideas. A remarkable example of this is the general panchayat of Dacca, an organization which is recognised by all Muhammadans except the Ashraf class, and exists for the settlement of disputes between members of the community. Disputes are decided in the first place by a panchayat; from them there is an appeal to an appellate "bench," and from that again to a "full bench" consisting of the highest office bearers of the Association.

14. *Occupations.*—The classification of occupations has at this census been regulated by a new scheme drawn up by the Census Commissioner on the basis of that prepared by M. Bertillon which has already been adopted by many other countries. Instead of 8 main classes, 24 orders, 79 sub-orders and 520 groups, a classification has been adopted consisting of only 4 main classes, 12 sub-classes, 55 orders and 169 groups. Mr. O'Malley observes that even this classification is more elaborate than Indian conditions seem to require, but that its defects are few and unimportant.

Nearly three-fourths of the people are supported by agriculture. The head "Industries" embraces nearly 3½ millions, of whom about one-fourth depend on textile industries. The figures connected with the manufacture of jute show the astonishing increase of 140 per cent. since 1901. This industry provides for 328,000 persons. Transport supports nearly a million persons and public administration nearly half a million. Professions and the liberal arts account for nearly a million. The legal profession has increased by 30 per cent. since 1901, there being now nearly 10,000 lawyers in Bengal.

Extremely interesting results were obtained from an industrial census held concurrently with the general census. For mills, mines, etc., employing over 20 persons, a special schedule was prescribed and this was filled in by

the owners or managers themselves. The total number of such concerns was found to be 1,466, employing over 600,000 persons, one-third of whom find employment in jute mills, and nearly another third on tea plantations. The great industrial centres are the districts of Calcutta, Howrah, Hooghly, and the 24-Parganas, where two-thirds of the industrial undertakings of the province are concentrated. Of the various industries, Indians own practically all the brass foundries, oil mills, rice mills, timber yards, brick works, etc., while Europeans enjoy an absolute monopoly of the jute mills and predominate in the tea gardens and machinery and engineering works. A noticeable feature in this connection is the large and steadily growing predominance of extra-provincial labour in these industrial centres. The Bengali is in a minority in nearly all, and most markedly in the jute mills.

The distribution of occupations between Hindus and Muhummadans forms an interesting commentary on the intellectual position of the followers of the two religions. The percentage of Musalmans in the total population is 52 and that of Hindus 45. But 37 per cent. of the latter and only 15 cent. of the former follow non-agricultural pursuits. The landlords, again, consist mainly of Hindus, the proportion being 7 Hindus to 3 Musalmans. These figures show that the great majority of the Musalmans have not yet risen beyond the stage of the cultivator who tills his own holding.

15. In conclusion the Governor in Council desires to place on record his appreciation of the labours of the District Officers, and of the host of officials and non-officials through whose devoted services the census of 1911 was carried to a successful conclusion, and to whom are due the accuracy, the care and the punctuality which have characterised the census throughout. His Excellency in Council wishes especially to acknowledge the services of Mr. O'Malley in conducting the census operations with such energy and ability and in compiling a report of conspicuous merit under conditions of unusual difficulty. The names of the officers commended by him and of those who have been separately reported for their good work will be recorded in the Appointment Department.

By order of the Governor in Council,

PRELIMINARY FORECAST OF THE JUTE CROP OF 1913.

On an average of five years ending 1910-11 the area under jute to which the Bengal jute forecast relates has represented 89·3 per cent. of the total area under jute in British India.

The new system for the calculation of the area under jute.—In the note which was published in connection with the final forecast of the jute crop for the year 1912, it was indicated that the system on which the figures had been previously compiled was being superseded by a more direct method of calculating the area under jute by means of a census of jute fields taken on the spot. The revised figures which are now published as the district figures for last year have been compiled on the new system and can, therefore, be compared directly with the figures for the present year, which have been prepared on the same system. The figures for the present year cannot, however, be compared with advantage with the figures previously published for last year, which were obtained by a different and less accurate system of calculation. In several districts the new figures have been checked with figures for the same areas obtained from the Settlement Department, and this check has served to demonstrate their approximate accuracy. There is, therefore, good ground for believing that the revised figures for last year now put forward are very much more correct than those previously published.

It will be noted that the result of the new enquiry has been to lower last year's figure for the total acreage under jute in this province by 11·4 per cent. It must, however, be clearly understood that this change is merely an adjustment due to a modification in the system by which the acreage under jute has been calculated, and does not indicate that the estimate of crop outturn will necessarily show a proportionate reduction. Careful investigation is being made into the question of the average outturn of jute per acre, and it is believed that the average hitherto accepted (three bales) will be found to be too low. The results of the enquiries now being made will be embodied in the final forecast.

2. *Character of the season.*—In February and March the rainfall was generally above the normal throughout the province; but there was a great and general defect of rain in the month of April which interfered with sowings to some extent, especially in North and Western Bengal. In May the season was on the whole favourable. In nearly every district the rainfall was above the normal, but the excess was of moderate amount. In June, however, especially in the earlier part of the month, the rainfall was very much in excess and the amount of damage done to the crop has been in consequence considerable, although not of equal extent throughout the province. The greater amount of damage has been done in the western districts. This is partly because sowings are later in those districts and the plants are therefore less able to withstand heavy rain and flood than those in a more advanced stage, partly also because the species of jute grown in the western districts is less capable of withstanding waterlogging than the variety more commonly sown in Eastern Bengal. The reports from some of the Eastern Bengal districts are not, however, nearly so unfavourable and indicate that, on the whole, the crop is in fair condition in those districts.

It will be observed, therefore, that the situation this year is essentially different from that of last year. Last year the *deshi* crop grown in Western Bengal was distinctly above the normal, while the crop in Eastern Bengal was on the whole somewhat inferior. This year, however, it is safe to say that the *deshi* crop has been very considerably damaged, while the prospects in some districts of Eastern Bengal appear to be better on the whole than they were last year.

3. *Acreage.*—The actual acreage figure now put forward for the Province of Bengal for last year is 2,620.786 acres and the present estimate of acreage for this year is 2,782,943 acres. These figures show an increase in favour of this year of 6·2 per cent. Adding the figures returned for Bihar and Orissa and Assam, the grand total for the present year is 3,191,178 acres as against 3,014,777 acres for last year. The increase for Bihar amounts to 3 per cent. and that for Assam to 5·4 per cent. The increase for the three provinces taken together amounts to 5·8 per cent.

4. *Stocks.*—The quantity of last year's jute now left in the province is practically nil.

APPENDIX I.

First Jute Forecast of 1913.

District	Estimated Area under Jute—		Whether much, little or no jute remains in the district from the crop of 1912	Date by which the sowing of the crop generally commenced this year, and whether that date was early, normal, or late.	Remarks by District Officers.
	Last year	This year.			
1	2	3	4	5	6
	Acres.	Acres.			
24-Parganas	89,200	81,200	Very little.	In all subdivisions in April. Normal everywhere, except in Barrackpore subdivision, where sowing commenced in May; hence late.	The decrease in area this year is due to want of rain during April and excessive rain afterwards. The weather was favourable at the time of sowing, but most unfavourable afterwards and this condition continues at the present time. The effect of heavy and unseasonable rain was bad for the growth of the crop. In Baraset subdivision the damage is to the extent of 10 annas, and in Basirhat subdivision 6 annas of the area cultivated has altogether been damaged. In the Sadar, Barrackpore and Diamond Harbour subdivisions the damage is estimated to be 50 per cent. of the area cultivated. The present condition of the crop is unsatisfactory and the outturn, it is feared, will be worse than that of last year
Nadia ...	91,000	92,200	Little	Beginning of May. Late.	The increase in the area sown is due to the high prices obtained last year. The weather was not favourable. Want of rainfall in the sowing season retarded the sowings. Recent heavy rains have affected the growth of the crop. The present condition is not favourable and the outturn is likely to be worse than last year.
Murshidabad	40,000	39,700	Nil ...	May. Normal, except in Lalbagh subdivision, where it was late.	The decrease of area sown as compared with last year is due to heavy rainfall at the sowing season, thereby hindering cultivation. The weather was not favourable at the sowing time, but is favourable now. Excessive rainfall has obstructed the growth of the crop. About one anna damage is expected for the above reason. The present condition of the crop is good. The outturn is expected to be normal.
Jessore ...	125,000	115,100	Little	May. Rather late.	The decrease in the area under jute this year as compared with last year is due to want of rain at the time of sowing. The weather has been unfavourable owing to want of rain at the beginning and the excessive rainfall later on. The crop has been considerably damaged by floods. In low lands the seedlings have been wholly destroyed. The present condition of the crop is not hopeful. The outturn is not expected to exceed more than 3 to 5 maunds per acre and will be worse than in last year.
Khulna ...	38,100	34,000	Very little.	First week of May, which was a little late.	The decrease in the area sown this year is mainly due to heavy rainfall in June. Hot and dry weather prevailed at the time of sowing and this was followed by an excessive rain till now. Consequently ploughing and sowing operations were retarded at the beginning and afterwards the low lands were flooded. Damage caused by excessive rain is considerable and is estimated about 50 per cent. The present condition of the crop is bad and the outturn will likely be worse than last year.

District	Estimated Area under Jute—		Whether much, little or no jute remained in the district from the crop of 1912.	Date by which the sowing of the crop generally commenced this year, and whether that date was early, normal, or late.	Remarks by District Officers.
	Last year	This year			
1	2	3	4	5	6
	Acres.	Acres.			
Burdwan ...	12,500	12,280	Very little.	Beginning of May. Normal.	In the Sadar subdivision a considerable area under jute is reported to have been washed away by floods of the river Damodar. The weather was rainy and not favourable to the crop. Excessive rain has retarded the growth of the crop and did much damage. Damage done to the crop by floods is excessive in some of the thanas of the Sadar and Kalna subdivisions. The present condition of the crop is not good and the outturn per acre would be worse than last year.
Midnapore ...	11,000	12,957	Little	Ditto ...	The increase in the area sown this year is due to the favourable weather condition at the time of sowing, namely, in May, and also to the general profitableness of the cultivation. The weather conditions were good at the sowing time. There was, however, heavy and continued rain in June which damaged the young plants in many places and has also delayed sowings to certain extent. The present condition of the crop is satisfactory. The outturn, so far as can be judged from present conditions, is likely to be worse than that of last year.
Hooghly ...	38.123	40,637	Ditto...	Middle of April. Normal.	The increase in the area sown is small and is due to the high price realized from jute. At the commencement of the sowing season the weather was very hot, but during the latter half of May and in June there was exceptionally heavy rain which has done very great damage preventing the proper weeding of the crop. The present condition of the crop is poor and the outturn is expected to be much less than that of last year.
Howrah ...	18,000	20,100	Nil ...	Middle of May.	The increase of area sown is due to the high prices which prevailed last year as well as to the timely rainfall at the time of sowing. The weather was favourable at the beginning, but it proved unfavourable on account of recent, prolonged and heavy rains. The excessive downpour has considerably damaged the crops, grown on low lands. As reported by the Subdivisional Officer of Ulubaria and Superintendent of Police, about 12 annas crops have been damaged. The present condition is not good and outturn per acre is likely to be worse than last year.
Rajshahi ...	104,200	106,900	Little	On low lands by the first part of March, and on high lands by the latter part of April and the beginning of May. Normal.	On the whole there has been a slight increase of area which is rather due to an attempt to get more accurate figures this year than to anything else. There was want of rain for some time after sowing followed by excessive rainfall. The effects of the weather were not favourable on the cultivation and the growth of the crop. The crop on the low lands has been partially damaged by heavy rain. The present condition of the crop is fair and the outturn is likely to be worse than that of last year.

District.	Estimated Area under Jute—		Whether much, little or no jute remains in the district from the crop of 1912.	Date by which the sowing of the crop generally commenced this year, and whether that date was early, normal, or late.	Remarks by District Officers
	Last year	This year.			
1	2	3	4	5	6
	Acres.	Acres.			
Dinajpur ...	85,000	80,000	Little	First week of May. Late.	The decrease in area this year is due to want of rainfall in March and April and also to revision of jute area made by the Panchayats. For want of timely rainfall sowing of the crop was delayed and in some plots sowing could not be made at all. The heavy rainfall in May and June has also greatly interfered with the proper weeding of the plants. The prospects of the crop are not very hopeful and the outturn is likely to be worse than last year.
Jalpaiguri ...	50,000	57,500	Nil ...	Last week of March to middle of April. Normal.	The increase in area as compared with last year is due to revision of last year's figures. The character of the weather was on the whole favourable. A little crop was damaged for want of timely rainfall. The present condition of the crop is good and the outturn is expected to be the same as last year.
Darjeeling ...	2,600	2,340	Nil ...	Second week of April. Normal.	Drought interfered with the sowing of a large area originally intended and prepared for jute. The drought was followed by heavy rainfall which also produced the same effect. The decrease in the area is due to the above facts. The effect of the weather on the crop has been very injurious. The crop was damaged to some extent on low lands owing to heavy rainfall. The present condition of the crop is poor, but the outturn is likely to be more than last year.
Rangpur ...	265,000	275,000	Nil ...	Middle of March.	The increase in area is due to favourable weather conditions at the time of sowing. Seasonable rainfall helped the growth of the crop.
Bogra ...	85,000	90,000	Little	Middle of May. Late.	The increase in the area sown this year is due to larger profits last year. There was want of rain at the sowing time and excessive rain up till now. Sowing was hampered for want of rain at the sowing time and excessive rain afterwards affected the weeding. Thus the growth of the crop has been retarded to a great extent. The crop was appreciably damaged by floods in the eastern portion of the district. The present condition of the crop cannot be said to be very favourable and the outturn on an average per acre is likely to be worse than last year's.
Pabna ...	220,000	230,000	...	.....	Heavy rains in the middle of June obstructed the weeding operations of the crop to a certain extent. The prospect of the crop is fairly good.
Malda ...	38,000	38,000	Little	End of April. Late.	The weather at sowing time was good, but heavy showers in the month of June have retarded the weeding of a portion of jute lands. The condition of the crop on the whole is good. There has been no damage.
Dacca ...	230,000	270,000	...	March. Normal.	The increase in area this year is due to high prices of last year and to favourable weather at the time of sowing. Want of rain in April hindered growth of the crop. There has been no damage.
Mymensingh	500,000	558,602	Little	End of March. Normal.	The increase in area this year is due to revision of figures made by the Panchayats in jute area. On the whole the weather was favourable, but there was drought for some time after sowing and there were sudden floods afterwards in Netrakona subdivision, and more rain was wanted in Tangail subdivision at the sowing time. About 20 per cent. damage was done to the crop by drought, flood, and insect pests. The condition of the crop is good and the outturn is expected to be better than last year.

Faridpur ...	221,765	222,820	Very little.	End of March and beginning of April. Normal.	The increase in this year's area has been slight owing to the drought in April and the heavy rain in June. The weather was not very favourable owing to prolonged drought of April. The heavy rain in June has interfered with the growth of the crop to a very large extent. The level of water by the middle of June was much above the average, with the result that young jute went under water, resulting in its growth being stopped. The heavy rain also interfered with weeding of the jute. The present condition of the crop is much worse than last year; the outturn is in many areas likely to be poor.
Bakarganj ...	37,000	48,000	Nil ...	Early in April.	The area under jute has increased by 11,000 acres or 29 per cent. This increase is attributed to the high prices which prevailed for jute last year. The season began favourably and sowing began early in April. The weather in April and May was favourable and the crop made good growth, but continuous heavy rain throughout the month of June has done serious damage to the crop, and the outturn is expected to be worse than last year.
Chittagong...	200	200	Nil ...	Second week of April to the middle of May. Normal	The decrease of 100 acres in the area sown as compared with the area published last year is due to the decrease actually found by census through Panchayat in the Sadar Circle. The character of the weather at sowing time and up till now has not been favourable. Heavy rains caused damage to the crop The present condition of the crop is likely to be worse than last year.
Tippera ...	234,483	268,279	Little	March ...	The damage to jute crop appears to be most noticeable in the jurisdiction of thana Nasirnagore, where it is estimated to be 3 per cent. In some other places, although the crop has not been actually damaged, the outturn of jute will be below the normal per acre as it will be stunted. On the whole throughout the district the damage may be estimated at 2 to 3 per cent., although the outturn will be more than that of last year owing to larger area under cultivation.
Noakhali ...	45,000	48,158	Very little.	Latter part of March. Normal.	The increase of area is due to high prices of jute prevailing last year. The weather was favourable at sowing time, but heavy rains in June did slight damage to the crop. The present weather is favourable to the growth of the crop. Slight damage (about $\frac{1}{16}$th) was done by heavy rains in the month of June. The outturn per acre is likely to be little better than last year.

Add—For Cooch Behar	39,615	38,970	Very little.	March to May. Late.	The decrease in the area this year is due to unseasonable rainfall. The weather was not favourable to the crop. There was want of rain at the time of sowing and heavy rain in latter part of May and in the month of June has prevented the weeding operations. The crop has also been damaged by insect pests in some places. The present condition of crop is fair and the outturn is likely to be worse than last year.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR JUNE 1913.

I. *Character of the season.*—During the month under report the rainfall was excessive all over the province. The fall was above the normal everywhere. The usual rainfall statement is appended.

II. *Progress of agricultural operations.*—The preparation of fields for winter rice and transplantation of seedlings were in progress during the month. Sowing of jute and *bhadoi* paddy was completed in the Eastern districts by the first week of the month and was proceeding in the Western districts during the month. Agricultural operations were greatly hampered on account of excessive rainfall. The weeding of jute was carried on with difficulty. There was a considerable amount of flooding in low lands.

III. *State of standing crops.*—The state of standing crops was on the whole not very good in parts of Western Bengal, but was fair to good in Eastern Bengal.

IV. *Prospects and probable outturn of harvests.*—A poor crop on low and late sown lands is anticipated; a fairly good crop is likely to be obtained on the higher lands.

V. *Damage to standing crops.*—Reports of damage to standing crops from excessive rain were received from the 24-Parganas, Jessore, Midnapore, Hooghly, Howrah, Bogra, Tippera, Faridpur, Noakhali and Bakarganj.

VI. *Condition of agricultural stock.*—The reports of the condition of agricultural stock were on the whole favourable. Cases of cattle-disease were reported from the districts of Murshidabad, Burdwan, Birbhum, Midnapore, Khulna, Rajshahi, Dinajpur, Malda, Mymensingh, Noakhali, Darjeeling, Bakarganj and Tippera.

VII. *Failure of pasturage and fodder.*—The supply of fodder was sufficient, except in parts of Midnapore, Bogra, Tippera and Jessore.

VIII. *Prices of food-grains.*—During the second fortnight of the month under report, the price of common rice rose in six districts, fell in four and remained stat onary in the rest. It varied from 6¾ seers per rupee in Tangail to 9¼ seers a rupee in Chittagong.

IX. *The condition of agricultural people.*—The condition of the agricultural population was reported to be good.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 14th July 1913.

Summary.—During the week under review rain fell all over the province. The fall was heavy in parts of North Bengal and generally light to moderate elsewhere. Considerable damage to standing crops from the effects of the excessive rainfall of last month is still reported from certain districts. The condition of standing crops is, however, generally good on high lands. Prospects are improving on the whole. Weeding of jute and *aus* paddy is proceeding in the western districts. Transplantation of winter paddy is being pushed vigorously and harvesting of *aus* paddy and jute has commenced in the Eastern Bengal districts. The average price of rice has risen by about 0·89 per cent. as compared with that of the previous week. Scarcity of fodder is reported from parts of Jessore, Midnapore, Bogra, Tippera and Noakhali, and cattle-disease is reported from twelve districts.

NOTIFICATIONS.

No. 2296P.D.—The 18th July 1913.—Whereas it appears to the Governor in Council that a pamphlet, entitled "Come over into Macedonia and help us," contains words of the nature described in section 4, sub-section (*1*), of the Indian Press Act, 1910 (I of 1910), inasmuch as they are likely to bring into hatred or contempt certain classes of His Majesty's subjects in British India :

Now, therefore, in exercise of the power conferred by section 12, sub-section (*1*), of the said Act, the Governor in Council hereby declares all copies of the said pamphlet wherever found to be forfeited to His Majesty.

No. 2318P.D.—The 21st July 1913.—Whereas it appears to the Governor in Council that an anonymous leaflet in the Bengali language, entitled "Om Bande Mataram" and commencing with the words "O descendant of Bharat I incarnate myself whenever religion is neglected and sin reigns supreme," contains words of the nature described in section 4, sub-section (*1*), of the Indian Press Act, 1910 (I of 1910), inasmuch as they contain incitements to violence and have a tendency to bring into hatred and contempt the Government established by law in British India :

Now, therefore, in exercise of the power conferred by section 12, sub-section (*1*). of the said Act, the Governor in Council hereby declares all copies of the said leaflet wherever found to be forfeited to His Majesty.

SURVEY DEPARTMENT.

NOTICE.

GOVERNMENT has sanctioned, as an experimental measure, the establishment of a School of Land Surveying from October next, some four miles from Comilla, which will take the place of the First-year's Land Surveying Course at the Dacca School of Engineering. Full particulars may be obtained from the undersigned.

The names of students already registered for the next First-year's Course at the Dacca School will be transfered to the Entry Rolls of the new School.

The object of the school is to turn out practical Land Surveyors suitable for zamindari and similar work in Bengal. Details of the training that will be given will be forwarded to any employers who care to ask for them, and, so far as is practicable, special training will be arranged for for Surveyors already in their employ.

No. 2831—42.

Extract (paragraphs 1 and 2) from the proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899.

RESOLUTION.

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports

to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be.

FINANCIAL DEPARTMENT.

NOTIFICATIONS.

No. 17T.F.—The 19th July 1913.—In pursuance of Rules 3 and 4 of the Bengal Legislative (Financial Statement) Rules, 1912, His Excellency the Governor is pleased—

(*a*) to direct that a Finance Committee of the Bengal Legislative Council be constituted for the purpose of discussing the draft Financial Statement for 1914-15 and making proposals with reference thereto for consideration by the Government of Bengal, and

(*b*) to declare that the said Committee shall consist of twelve members, namely, six to be nominated by His Excellency the Governor and six to be elected by the non-official members of the said Council.

No. 18T.F.—The 19th July 1913.—In exercise of the power conferred by Rule 4 (2) of the Bengal Legislative (Financial Statement) Rules, 1912, His Excellency the Governor is pleased to prescribe the following procedure for the election of six non-official members of the Finance Committee by the non-official members of the Bengal Legislative Council, in pursuance of Notification No. 17T.F. of this date :—

1. The election shall be made at a meeting of the non-official members of the Bengal Legislative Council to be held in Calcutta at such time and place as may be intimated to them by the Secretary to the Council by registered letter.

2. When sending such intimation, the Secretary shall invite each member to state, by registered letter, by a date to be fixed by the Secretary, whether he desires to stand for election.

3. The Secretary shall make a list of the names of all members who have, by the date so fixed, stated their desire to stand for election, and shall

send a printed copy of such list by registered post to each non-official member one week at least before the date of the election.

4. The members present at the meeting shall elect one of their number to be Chairman, and to preside over the election.

5. The Secretary shall attend the meeting, and shall deliver to each member present a printed list of the candidates for election.

6. Each member shall have six votes, and may divide them among candidates at his discretion, or may give all to any one candidate.

7. Each member present shall record his votes by entering, in the printed list referred to in rule 5, against the name of each candidate for whom he wishes to vote, the number of votes he desires to give him.

8. (1) When the voting has been completed, the Secretary shall count the votes and the Chairman shall announce the result to the meeting.

(2) When so counting the votes the Secretary shall reject as invalid any printed list which has not been filled up in accordance with rules 6 and 7.

9. (1) If less than six candidates are elected, the Chairman shall invite the members present to vote again for as many candidates as may be required to make up that number.

(2) The Secretary shall then deliver to each member another copy of the printed list of candidates, after striking out the names of candidates who have already been elected.

(3) When further votes are invited under this rule—

(*a*) each member shall have as many votes as there are vacancies remaining to be filled, and may divide them among the candidates at his discretion, or may give all to any one candidate, and

(*b*) rules 7 and 8 shall apply.

10. The Secretary shall report the result of the election to the Local Government.

No. 71T.-M., dated the 17th July 1913.—The following draft of rules which the Governor in Council intends to make, in exercise of the power conferred by section 69 B(*ii*) of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), for the guidance of Commissioners of Municipalities in matters connected with the carrying out of the purposes of section 69 (*1*) (*ii*) of that Act, so far as they relate to the supply of water, in supersession of all previous rules on the subject, is published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on the 1st October 1913, and any objections or suggestions which are received by the undersigned before that date will be duly considered.

Draft rules for the management of water-works under the supervision of the Government of Bengal.

1. The management of the water-supply system of every Municipality in which such system has been introduced, shall vest in the Municipal Commissioners (hereinafter called "the Commissioners"), and the Commissioners shall perform the duties prescribed in the following rules.

2. The Commissioners shall be responsible for the proper application of the water-supply funds. It shall be their duty to take requisite steps to rectify defects in case they find that water-rates are irregularly collected in any instance or are insufficient for carrying out the purposes of Part VII of the Bengal Municipal Act, 1884.

3. The Commissioners shall frame the annual budget of income and expenditure on account of the water-works, and shall submit it to the Sanitary Engineer for any remarks he may consider necessary. The Sanitary Engineer shall return the budget with his remarks to the Chairman of the Municipality.

4. The Chairman of the Municipality shall, at the end of each month, prepare a statement of the accounts of the water-supply funds, which he shall submit to the Commissioners at their next meeting.

5. The Commissioners at a meeting shall, every month inquire into all matters connected with the water-supply of the Municipality, and examine and pass the accounts submitted under rule 4, and shall record that the accounts have been passed in the book of the minutes of the proceedings of the meeting.

6. In all professional matters connected with the water-works the Commissioners shall be guided by the advice of the Sanitary Engineer. The Commissioners must afford the Sanitary Engineer all information he may from time to time require, and must consider and attend to all communications received from him.

7. The Sanitary Engineer shall exercise complete professional control over the Superintendent of the Pumping Station.

8. The Sanitary Engineer shall visit or shall depute a representative to visit, the water-works not less than once a year, and shall submit a report thereon to the Sanitary Board. The Commissioners shall arrange for the proper inspection of the boilers and pumping machinery not less than twice a year by a qualified Machinery Inspector or firm of Machinery Inspectors who must be approved by the Sanitary Engineer. The reports of the Inspectors must be submitted in Sanitary Engineer's Form No. 6 (Appendix A) to the Sanitary Engineer, and by him to the Sanitary Board:

Provided that in the case of small water-works the said inspection may, with the consent of the Sanitary Engineer, be held only once a year.

9. Until all points raised in the reports of the Sanitary Engineer and the Machinery Inspector have been disposed of, the Commissioners shall submit to the District Magistrate for transmission to the Sanitary Engineer a monthly progress report showing how far effect has been given to the recommendations made in the reports.

10 (*1*). The Commissioners shall cause to be kept at the pumping station—

(*a*) a stock account in Sanitary Engineer's Form No. 4 (Appendix A), showing the daily transactions in coal and engine-room stores;

(*b*) an engine-room log in Sanitary Engineer's Form No. 3 (Appendix A);

(*c*) a filter-bed log in Sanitary Engineer's Form No. 5 (Appendix A), or a filter log in Sanitary Engineer's Form No. 5 A. (Appendix A); and

(*d*) such other forms as the Sanitary Engineer may from time to time prescribe.

(*2*). The said forms shall be written up daily by the Superintendent, and shall be available at all times for inspecting officers and visitors appointed under rule 13.

11. The Commissioners shall submit to the Sanitary Engineer not later than the tenth of each month :—

(*a*) Indicator diagrams from each engine in Sanitary Engineer's Form No. 1 (Appendix A) for one day in the preceding month, which must be accompanied by a copy of the engine-room log, Form No. 3 (Appendix A) for the day on which they are taken ;

(*b*) an abstract of work done by the pumping machinery during the preceding month in Sanitary Engineer's Form No. 2 (Appendix A);

(*c*) a copy of the filter-bed log or filter log, Sanitary Engineer's Forms Nos. 5 and 5 A. (Appendix A), for the same day of the preceding month as that to which the indicator diagrams, referred to in clause (*a*) apply ; and

(*d*) such other information as the Sanitary Engineer may from time to time require.

12. It shall be the duty of the Commissioners to see that the rules for working settling tanks and slow sand and mechanical filters in water-works (Appendix B), are properly attended to by the Superintendent of the pumping station. If, owing to the design of the works, the rules cannot be conformed to the matter must be referred to the Sanitary Engineer for orders.

13 (*1*). The Commissioners shall appoint two of their number in rotation to be monthly visitors of the water-works.

(2) It shall be the duty of these visitors to ascertain by inquiry—

(*a*) whether an efficient supply of water is being given ;

(*b*) whether the Superintendent and water-works establishment are attending to their duties and a proper discipline is being maintained ;

(*c*) whether the works, machinery, plant, implements, materials and all other things connected with the water-works are being properly maintained in an efficient condition.

(*d*) whether these rules are being attended to in all respects ; and

(*e*) whether any other matters in connection with the water-works require attention.

(3) The visitors shall report in writing to the Commissioners in meeting the result of their inspection, and a copy of their report, with a copy of any Resolution that may be passed thereon by the Commissioners, shall be sent to the Sanitary Engineer.

14. A visitors' book shall be kept at the pumping station in which shall be recorded the visitors' remarks.

15. An extract of the Proceedings relating to the water-supply system at each meeting of the Commissioners shall be promptly forwarded to the Sanitary Engineer who may, if he thinks fit, and shall, if the Commissioners so desire, submit it with his remarks to the Sanitary Board.

16. The Sanitary Commissioner shall arrange once a quarter for a chemical and bacteriological analysis of the water in each of the water-works.

17 (*1*). Subject to the general control of the Commissioners, the duties prescribed for the Commissioners in these rules may, if the Commissioners so decide, be performed by a Committee, to be called " the Water Works Committee " consisting—

(*a*) at district head-quarters of the District Magistrate, the Civil Surgeon, the Executive Engineer (or if there is no Executive Engineer, then the District Engineer), the Chairman of the Municipality and two Commissioners to be elected from among their own body by the Municipal Commissioners ;

(*b*) at subdivisional head-quarters of the Sub-divisional Officer, the local Medical Officer, the Chairman of the Municipality, and two Commissioners to be elected from among their own body by the Commissioners.

(*2*) The Committee shall act as the agents of the Commissioners in all matters relating to the administration of the water-supply of the Municipality, and shall for this purpose exercise all the powers vested in the Commissioners by the Bengal Municipal Act, 1884 :

Provided as follows :—

(*i*) the Committee must not act in opposion to, or in contravention of, any order passed by the Commissioners at a meeting, and must not exercise any power which is directed by the law to be exercised by the Commissioners at a meeting ;

(*ii*) all orders or processes of a compulsory nature shall be issued under the authority and signature of the Chairman of the Municipality, or of the Vice-Chairman under authority delegated to him in this behalf by the Chairman under section 45 of the Bengal Municipal Act, 1884 ;

(*iii*) in respect of the duties imposed by rules 2, 3 and 9, the Committee shall perform the functions of rectification of defects and transmission of documents through the Commissioners.

18. At every meeting of the Committee three members shall form a *quorum*.

19. These rules shall apply *mutatis mutandis* to water-works managed by a Joint Committee constituted under section 37 A of the Bengal Municipal Act, 1884, or section 30 of the Bengal Local Self-Government Act of 1885, who will take the place of the Municipality or the Commissioners :

Provided that when a Water-Works Committee is appointed under such a Joint Committee, the Water-Works Committee shall, besides the official members enumerated in rule 17 (*1*), consist of one member to be elected by each of the local authorities constituting the said Joint Committee.

APPENDIX A.

[*See Rule 8.*]

Report on an examination of the Boilers, Engines and Pumps of the Water-Works, made by
on the

BOILERS.

1. Description of boilers giving maker's name and date of erection. Give grate area and calculated horse-power.	
2. When and by whom last examined :— (*a*) If examined by an Inspector of Steam-boilers under Bengal Act III of 1879, give name of Inspector and number and date of last certificate. (*b*) Note working pressures previous to last examination ; and, if any reduction in pressure was made by the Inspector, state how much, and why such reduction was made.	

BOILERS—*continued.*

Note.—If the boilers are working under certificates granted by an Inspector under Act III (B. C.) of 1879, questions 3, 4, 5 and 6 need not be answered.

3. Have you examined the boilers internally and externally ; if so, with what result ? Give thickness of scale, if any, and state whether you had it removed.	
4. Did you test the boilers by hydraulic pressure ; if so, up to what pressure ? Did you ascertain that the steam-gauge was correct, and that the steam relief-valve was in working order, and not over-weighted, before applying the hydraulic test ?	
5. What working pressures do you now recommend ?	
6. Have you examined all the boiler-fittings, such as safety-valves, feed water-pipe, blow-off cocks, steam and water-gauges, etc.? State if they are all in good working order, and if not, what is required to make them so ? *Note.—The safety-valves should not be weighted to more than 10lbs. (preferably 5lbs.) above the working pressure.*	
7. Are the boilers blown out regularly, and safety-valves lifted to ensure their not sticking ; and is a record kept of the dates on which this has been done since the last inspection ?	
8. Is the floor of the boiler-house kept dry and in good order ? (*a*) Where are the ashes slaked ? (*b*) When was soot last removed from the flues ? (*c*) Are the flues free from moisture during the rainy season ?	

BOILERS—*concluded.*

9. State which of the following are available for filling the boiler, and which is generally used— (*a*) Feed-pump on engine. (*b*) Donkey-pump. (*c*) Injector. (*d*) Cold water pressure from the mains.	
10. State average fuel consumption since last report, giving the percentage of ashes and kind of fuel used. If coal be used, give name of colliery from whence obtained.	
11. General remarks. Note.—*Any repairs that have been done in the boiler-house, since last inspection, should be recorded here.*	

ENGINES.

12. Description of engines, noting also maker's name, date of erection, diameters of cylinders, and length of stroke.	
13. When and by whom last examined?	
14. Did you examine the interiors of the cylinders, and if so, with what result?	
15. Did you examine the steam-valves, and if so, with what result?	

ENGINES—*continued.*

16. Did you take any indicator diagrams? If so, attach to this report a set worked out, with full particulars noted:— (*a*) State whether you consider the valves are properly set for the most economical working of the engine. (*b*) State whether you consider the indicator diagrams are satisfactory or not, and whether any difference in them is apparent. If so, what, in your opinion, has caused the difference?	
17. Are all stuffing boxes and glands kept properly packed, and steam-pipes free from leaks?	
18. What vacuum is generally maintained?	
19. Is the air-pump in good order? Give temperature of its discharges. *Note.—The temperature should not exceed 115°.*	
20. Are the lubricants in use of good and suitable quality, and is a sufficiently large supply of all stores kept in hand?	
21. General remarks. *Note.—All repairs, however slight that have been carried out since last report, should be mentioned here.*	

PUMPS.

22. Description of pumps, noting also diameters of buckets or plungers, length of stroke, number and size of valves.	
23. Did you examine all buckets and plungers, and if so, with what result?	
24. What do you consider is the percentage of "slip"? (*a*) What do you find the mechanical efficiency of the engines?	
25. Were the pumps working smoothly, evenly and without noise, or banging of valves?	
26. Are the air-vessels kept properly charged with air? (*a*) State means of doing so.	
27. General remarks. *Note.—All repairs that have been carried out since last report should be mentioned here.*	

GENERAL.

28. Is the Staff at the Pumping Station sufficient, and the health of the employés generally good?

APPENDIX B.

[*See Rule 12.*]

RULES FOR WORKING SETTLING TANKS AND SLOW SAND AND MECHANICAL FILTERS IN WATER-WORKS IN BENGAL.

(Revised by order of the Sanitary Board, Bengal, January 21st, 1913.)

Settling Tanks.

1. It is important that water drawn from rivers, channels or streams should have as long a settlement as possible before being passed on to slow sand filters, in order that the action of sunlight, the precipitation of suspended matter and the natural tendency to elimination of pathogenic bacteria may have their maximum purifying effect.

2. Settling tanks are worked either on (*a*) the continuous flow, or (*b*) the intermittent system. In the first system, the tanks are kept full, and the water is continually admitted at one end and drawn off from near the surface at the other. In order that this system may be properly used with slow sand filters, the unfiltered water-pumps must be worked continuously throughout the 24 hours or the settling tanks must be fed from a storage reservoir. When designed on the intermittent system, each tank in turn is filled and then kept full until the tanks filled before it are drawn down ; the settled water is then decanted through a floating arm or similar apparatus until the tank is lowered to the lowest draw off level, when it is again filled.

The whole available storage capacity of settling tanks should always be used as far as possible. On the other hand, care must be taken in tanks unprovided with fixed overflows, not to fill them to a greater depth than they are designed for.

3. When a deposit of from 18 inches to 2 feet of silt has formed at the bottom, the tank should be emptied and cleaned out. This work must always be done in the dry weather and preferably between February and April.

4. In the rains and when there is an excessive amount of suspended matter in the raw water clarification will generally have to be assisted by the use of a coagulant. The precipitant most commonly used in Bengal water-works is aluminoferric. This depends for its effective action upon the alkalinity of the water. If more of the chemical is used than can be decomposed by the carbonates present, it will remain dissolved in the water and will be wasted.

Generally speaking not more than 2 grains per gallon of aluminoferric should be used. Before deciding on the quantity to be added a sample of the water to be treated should be sent to the Sanitary Commissioner for analysis and advice on this point.

5. The aluminoferric must be added at the inlet end of the settling tanks and experiments should be made to ascertain the time taken by a given quantity to dissolve. One grain per gallon is 1lb. per 7,000 gallons treated. Thus, if 300,000 gallons per day are treated with 2 grains per gallon the daily quantity used will be 86 lbs.

Slow Sand Filters.

6. The rate of delivery on to a sand filter is regulated by (*a*) the available head between the settling tanks and the inlet valve, and (*b*) the amount the inlet valve is open.

The rate of flow through the filter depends upon (*c*) the resistance of the sand in the filter, and (*d*) the filtration head or difference in level between the surface of water on the filter bed and the water in the outlet well.

The discharge from the outlet well to the clear water reservoir depends on (*e*) the amount the outlet valve is open, or in the case of a telescopic outlet the extent to which the bell mouth is lowered.

It is obvious that these factors are mutually interdependent, for more water cannot flow out of a filter than is delivered on to it, nor than can make its way through the sand.

Factors (*a*) and (*c*) continually tend to vary, so (*b*) and (*e*) must also be altered from time to time in order to maintain a constant flow through

the filter In some filters the inlet is controlled by a ball valve which keeps the level of the water on the filter always the same. In this case, the flow through the filter is regulated by (*e*). In all filters the surface of the water on the sand should be always kept as nearly the same level as possible and the filtration head regulated by the outlet valve or telescopic weir. The depth of water on the sand should be somewhere between 18 inches and 3 feet. Gauges measuring to the same datum should be fixed on the wall of the filter and in the outlet well so that the difference in level can be easily measured.

7. Filtration should be carried on continuously day and night as nearly as possible at the same rate, usually somewhere between 3 or 4 inches vertical an hour. The rate of flow must on no account exceed the latter figure.

Where there is no direct method of measuring the flow of water through a filter such as an outlet gauge notch or a meter, it may be ascertained by closing the inlet valve and leaving the outlet valve open. The fall of the surface of the water in inches at the end of an hour will give the rate of flow per hour.

8. In a new filter or one recently scraped. the filtration head required will be very small, but it will rapidly increase. In the usual way, a filter should be scraped before the filtration head reaches 12 inches. It must never be allowed to exceed 15 inches.

9. A filter should be scraped by carefully removing the slimy ooze which has formed on the top together with about ¼ inch of sand. The sand removed may subsequently be used again if properly washed in a sand-washer. The depth of fine sand must never be reduced to less than 18 inches, and when this thickness is reached, the filter must be replenished. Before replinishing about 2 or 3 inches of sand should be removed and the remainder dug over and loosened; clean washed sand is then to be added until the original thickness is obtained.

10. If the water filtered has been of a very bad quality or the filter has been mismanaged, or been long in use the whole filter may require to be renewed. In this case, the whole of the filtering material, course sand and gravel as well as the under-drains must be removed and washed before replacing.

11. After a filter bed has been scraped, replenished, or renewed it should, if possible, be charged from below by admitting filtered water very slowly until the surface is about 3 inches above the sand; the filling can then be completed from above. If there is no arrangement for filling from below the filling must be very carefully and slowly done from above.

After filling, water should be passed through the filter at the rate of about one inch vertical per hour and run to waste for 24 hours after scraping and 4 days after replenishing or renewing.

12. Daily records must be kept in the filter-bed log book [Sanitary Engineer's Form 5 (Appendix A)] of the quantity of water filtered and the filtration head, recorded at intervals of 3 hours throughout the day.

Mechanical filters.

13. For each installation of mechanical filters, rules for working must be obtained from the makers of the plant, but the following points must be attended to in all cases.

14. The efficiency of the plant depends upon the proper proportioning and correct addition of the coagulant. The actual amount of coagulant required is determined by local conditions. It will vary during different seasons of the year and can be best ascertained by experiment in actual working.

15. The precipitant generally used is sulphate of alumina, and this should be purchased under a proper specification of chemical composition. The precipitant is made up into a strong solution in large vats and added to the raw water by an adjustable apparatus. The water so treated is then allowed to settle for some hours before filtration.

In cases, where sedimentation continues for a considerable time after the coagulant has been applied, it may be necessary to add a small additional quantity of the chemical to the water immediately before passing it to the filters.

16. The rate of filtration should be kept as nearly as possible constant and must not exceed the rate for which the filters had been designed. Generally, filters are provided with automatic controllers, and these must on no account be tampered with or made to pass more water than intended.

17. The maximum filtration head permissible varies with different types of plant, it is usually not more than 10 feet. When the maximum head is reached, as shown by the indicator, the filter must be washed.

18. Washing must always be done with filtered water. In the case of a battery of two or more pressure filters, they may be arranged so that one can be washed with filtered water from another.

Washing must be continued until the waste water becomes quite clear. After washing, the filtered water must be run to waste for 20 minutes before connecting to the town.

19. Daily records must be kept in the filter log book [Sanitary Engineer's Form 5 A (Appendix A)] of the quantity of water filtered, the amount of sulphate of alumina used, the hours during which filtration has been carried on the filtration head (recorded at intervals of 3 hours) the length of time taken to wash each filter and the hour at which it was washed.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

GOVERNMENT OF BENGAL.

BENGAL LEGISLATIVE COUNCIL.

NOTIFICATION.

No. 1330L., dated the 21st July, 1913.—His Excellency the President having been pleased to order, under rule 39 (*b*) of the Bengal Legislative Rules, 1912, the publication of the Report of the Select Committee to which the Bill to provide for the appointment of Sanitary Officers for certain Municipalities outside Calcutta was referred, the Report of the said Committee, with the Bill, as amended by them, annexed, is hereby published for general information.

REPORT OF THE SELECT COMMITTEE ON THE BENGAL MUNICIPAL (SANITARY OFFICERS) BILL, 1913.

WE, the undersigned Members of the Select Committee to which the Bill to provide for the appointment of Sanitary Officers for certain Municipalities outside Calcutta was referred, have considered the Bill and the papers noted in the margin, and have the honour to submit this our Report, together with the Bill, as amended by us, annexed thereto. The amendments made by us have been underlined in the reprint of the Bill.

Papers No. 1.—Letter No. $\frac{9889}{VII-80}$, dated the 12th May, 1913, from the Commissioner of the Chittagong Division.

Papers No. 2.—Letter No. 597 M., dated the 2nd June, 1913, from the Commissioner of the Burdwan Division (with enclosure).

Paper No. 3.—Letter No. $\frac{532 M}{XIII-7-14}$, dated the 6th June, 1913, from the Commissioner of the Rajshahi Division.

Paper No. 4.—Letter No. 62 M., dated the 7th June, 1913, from the Commissioner of the Presidency Division.

Paper No. 5.—Letter No. 2269 J., dated the 19th June, 1913, from the Commissioner of the Dacca Division.

Clause 2 of the Bill.

2. *New section 349 C (2).*—We have thought it best to bring this clause into closer resemblance to section 9A of the Bengal Municipal Act (Ben. III of 1884), and to provide therein—

(*a*) that only a ratepayer shall (besides the Municipal Commissioners) have the right to object;

(*b*) that the time for the submission of such objection should be extended to two months; and

(*c*) that it should be forwarded to the Local Government through the District Magistrate.

3. *New section 349D.*—(i) As it was represented to us that it might result in hardship in certain cases if a Municipality were compelled to entertain both a Health Officer *and* a Sanitary Inspector, we have so amended this section as to make it permissible to appoint a Health Officer only; while, as there is nothing said in the Bill (as introduced regarding the qualifications which Sanitary Inspectors should possess, we have thought it best to give the Local Government power to prescribe the same. The reference in the original clause (*1*) of this section to the "number" of such officers appears to us to be unnecessary, and has been struck out.

Ben. Act III of 1884.

(ii) *The original clause* (*2*) of this section appears, if regard be had to the provisions of section 46 of the Bengal Municipal Act, to be redundant, and we have accordingly omitted it. We further consider that all the references in the Bill to "subordinate Sanitary Officers" are unnecessary, and we have therefore excluded them both here and in the proposed new sections 349 E (*2*) and 349 F(*1*).

4. *New section 349 E* (*2*) has been omitted for the reason given in the last paragraph.

5. *New section 349 F.*—The omission in the original clause (*1*) [now (*a*)] is explained in paragraph 3 of this report, and the addition to original clause (*2*) [now (*b*)] appears to us to be desirable for administrative purposes.

6. *New section 349G.*—As we are of opinion that it would probably be to the public advantage that both the Chief Civil Medical Officer *and*

the Health Officer should exercise the powers conferred by section 199A of the Act, we have amended this section in such manner as to give effect to that view.

7. *New section 349H.*—This section has been recast, as clause (*i*) of the original appeared to us to be superfluous; but we have thought it necessary, in the public interest, to provide that no Health Officer appointed in the special circumstances contemplated by this Bill should be dismissed save with the approval of the Local Government.

8. We recommend that the Bill, as now amended, be passed.

CALCUTTA,
The 7th July, 1913.

A. W. WATSON,
Offg. Secretary to the
Bengal Legislative Council.

* This member signed subject to his Note of Dissent annexed.

NOTE OF DISSENT BY THE HON'BLE BABU SURENDRA NATH BANERJI.

I HAVE signed the Report of the Select Committee subject to the following note of dissent:—

Proposed New Section 349 D.—Under the provisions of Section 349 D, as now amended, the Municipal Commissioners "shall appoint,—

(*1a*) a Health Officer, or

(*a*) a Health Officer and one or more Sanitary Inspectors or,

(*b*) one or more Sanitary Inspectors,

as the Local Government may direct."

I am of opinion that the power of the Local Government should be restricted to the appointment of one Health Officer and one Sanitary Inspector, but that if more than one Sanitary Inspector is to be appointed, or if a Sanitary Inspector is to be appointed in addition to a Health Officer, the matter should be left to the discretion of the Commissioners, and the compulsory provisions of the Bill should not be applicable.

Further, I am of opinion that this part of the Bill should not be extended to any Municipality with a revenue of less than Rs. 10,000 a year, unless the Commissioners at a meeting, by a majority of two-thirds, apply for the extension of the part to such a Municipality. This proposal is identical with that made by Mr. Cook, District Magistrate of Bankura.

Proposed New Section 349 E.—This Section provides that the Local Government shall from time to time fix the salaries of Health Officers and Sanitary Inspectors. Municipal legislation in Bengal has been distinctly in advance of that relating to District and Local Boards. The District Boards possess the power of fixing the pay of Sanitary Inspectors. The same power should belong to the Municipalities. Mr. Patterson, District Magistrate of Howrah, supports this view. He suggests that the salaries of Sanitary Inspectors should be left to be determined by the Commissioners in accordance with the ordinary laws of supply and demand.

Further, the Government have definitely declared their intention to contribute one-half of the salaries of Health Officers and Sanitary Inspectors. I am of opinion that statutory effect should be given to this obligation by providing in the Bill that only one-half of the salaries of the aforesaid officers should be provided out of the Municipal Fund, the other half being paid by the Government.

NOTE OF DISSENT BY THE HON'BLE BABU SURENDRA NATH RAY.

IN my opinion the following amendments should be made in the Bengal Municipal (Sanitary Officers) Bill, 1913.

1. In the proposed new Section 349 D, the following provisions should be made, namely:—

(*a*) that this Part of the Act should not be put in force in municipalities with an income below Rs. 10,000 unless two-thirds of the Commissioners agree to the proposal (as has been suggested by Mr. Cook, the District Officer of Bankura); and

(*b*) that power should be given to the Municipal Commissioners to determine whether any Sanitary Inspector or Inspectors should be appointed in addition to the Health Officer (*i.e.*, the Government should have the power to compel the appointment of only one officer, namely, a Health Officer or a Sanitary Inspector).

2. In the proposed new Section 349 E, the following provisions should be made, namely:—

(*a*) that power should be given to the Municipal Commissioners to appoint Sanitary Inspectors and fix their pay and number as is done by District Boards (I endorse, in a manner, the opinion of Mr. Patterson, the District Officer of Howrah, with reference to this section); and

(*b*) that Government shall be bound to contribute at least half the pay of Health Officers and Sanitary Inspectors appointed under the Act.

NOTE OF DISSENT BY THE HON'BLE BABU MAHENDRA NATH RAY.

I SIGN the Report with the three following reservations :—

(*1*) I am of opinion that, in regard to the appointment of Sanitary Inspectors, the question as to the number of such Inspectors to be appointed in any Municipality should be left to each Municipality, without the same being fixed by the Local Government. I would add a proviso to that effect to the proposed new Section 349 D.

(*2*) I am of opinion that the Municipalities should have the power, as at present, of making rules regarding the qualifications of Sanitary Inspectors, subject to sanction by the Local Government. I would therefore leave out the words "and such Sanitary Inspectors to possess such qualifications" from the last sentence of the proposed new Section 349 D, and the words "Sanitary Inspectors" from the proposed new Section 349 F.

(*3*) I am of opinion that Legislative provision should be made in the Bill to give effect to the promise of the Government to contribute half the pay of the Health Officers now to be appointed. I would add a proviso to that effect to the proposed new Section 349 D.

BILL

to provide for the appointment of Sanitary Officers for certain Municipalities outside Calcutta.

WHEREAS it is expedient further to amend the Bengal Municipal Act, 1884, in order to provide for the appointment of Sanitary Officers in certain Municipalities; Ben. Act III of 1884.

It is hereby enacted as follows:—

Short title. 1. This Act may be called the Bengal Municipal (Sanitary Officers) Act, 1913.

Insertion of Part XIB in Bengal Act III of 1884. 2. After Part XI A of the Bengal Municipal Act, 1884, the following shall be inserted, namely:—

"PART XIB.—SANITARY OFFICERS.

Power to declare this Part to be in force in any Municipality.

"349 C. (*1*) The Local Government may, by notification published in the Calcutta Gazette, announce its intention to declare this Part to be in force in any Municipality. [*Cf.* Ben. Act II of 1911, s. 2; Ben. Act III of 1884, s. 351.]

(*2*) If the Commissioners or any ratepayer of any such Municipality object or objects to this Part being declared in force in the Municipality, they or he may, within a period of two months from such publication, submit such objection in writing, through the District Magistrate, to the Local Government; and the Local Government shall consider all objections so sent.

(*3*) After the expiration of the said period, the Local Government, if no objections have been so sent, or if it considers that the objections so sent are insufficient, may, by a like notification, make the proposed declaration.

(*4*) The substance of every notification under sub-section (*1*) or sub-section (*3*) shall be translated, deposited, posted and proclaimed, within the Municipality affected, in the manner prescribed by section 354.

Appointment of Sanitary Officers.

"349D. Notwithstanding anything contained in section 46, the Commissioners of every Municipality in which this Part is in force shall from time to time, at a meeting, appoint for the Municipality— [*Cf.* Ben. Act III of 1883, s. 34. Ben. Act III of 1885, s. 91 (*d*), as amended by Ben. Act V of 1908.]

(*1a*) a Health Officer, or

(*a*) a Health Officer and one or more Sanitary Inspectors, or

(*b*) one or more Sanitary Inspectors,

as the Local Government may, by notification in the Calcutta Gazette, direct; such Health Officer to be of such class, and such Sanitary Inspectors to possess such qualifications, as may be so directed.

[*Clause* (*2*) *omitted.*]

Salary and allowances of Sanitary Officers.

"349E. The Local Government shall from time to time fix the salaries to be paid to Health Officers and Sanitary Inspectors out of the Municipal Fund, and the allowances to be granted to them during absence on leave. [*Cf.* Ben. Act III of 1884, s. 48.]

[*Sub-section* (*2*) *omitted.*]

"349F. The Local Government may from time to time make rules prescribing— [*Cf.* Ben. Act III of 1884, s 69 B, (*b*).]

Power to make rules

(*a*) the qualifications of candidates for employment as Health Officers and Sanitary Inspectors respectively; and

(*b*) the division of Health Officers and Sanitary Inspectors into classes or grades according to their qualifications.

"349G. When a Health Officer has been appointed for any Municipality, the power conferred by section 199A shall be exercisable by him as well as by the Chief Civil Medical Officer of the district.

Unwholesome water.

"349H. Every section of this Act which relates to Municipal Officers or servants shall, so far as it may be applicable, apply to the officers referred to in section 349 D:

Application of Act to Sanitary Officers.

Provided that no Health Officer appointed thereunder shall be dismissed without the sanction of the Local Government."

The annual statistical returns and short notes on Vaccination in Bengal for the year 1912-13.

MAJOR W. W. CLEMESHA, I.M.S., and Mr. G. B. Williams held the post of Sanitary Commissioner and Sanitary Engineer, respectively, throughout the year.

2. *Climate.*—The early part of the year was characterised by an abnormally low rainfall, and, except in April, most districts suffered from

the want of rain. With the advent of the monsoon conditions changed, and although the fall was then erratic it was more or less above the average in the majority of districts. Although it is stated that the account of the rainfall has been inserted in the report in view of the intimate connection between rainfall and general health, the effect of the variations in the rainfall on general health has not been discussed, and it is somewhat difficult therefore to understand how far the variations in the birth and death rates in the different districts have been affected by the abnormal rainfall at the different seasons of the year The death rate has increased, mainly owing to greater mortality from fever and cholera, and the Governor in Council would have been glad to know how far, if at all, this increase was due to unusual variations in the rainfall.

3. *Birth and death rates.*—The birth rate shows an increase, 1,600,335 births being registered during the year as compared with 1,585,187 in 1911. The increase is slight, and would probably have been greater but for the high price of food-grains. Agricultural conditions were on the whole good, but the high level of prices has been maintained, and it is feared that this is more than likely to arrest the natural growth of the population. There was also a rise in mortality, 1,349,779 deaths being recorded as against 1,221,580 in the former year. Fever and cholera were primarily responsible for this increase.

With a birth rate of 35·30 per mille and a death rate of 29·77 the Presidency of Bengal as now constituted does not compare unfavourably with other provinces of the Empire. The birth rate is somewhat lower than that of most other provinces, but its death rate is also lower, and the excess of births over deaths is considerable. A comparison of the statistics for the various divisions of the province points to the Chittagong Division as being the healthiest division. The birth rate is higher in the Eastern Bengal divisions of the province than in the Burdwan and Presidency Divisions, but the Rajshahi Division, which shows the highest birth rate in the province, also returns the highest death rate.

A disquieting feature is the high rate of infantile mortality in certain districts. Calcutta has hitherto returned the highest death rate among infants, but this has been surpassed by the Jalpaiguri and Dinajpur districts where the rate has risen as high as 28·69 and 26·26, respectively.

4. *Chief diseases.*—The paragraphs in the report which deal with the history of the chief diseases are mainly statistical and do not enter into any discussion as to the causes of the variations when compared with previous years. The Governor in Council realizes the difficulty of determining the causes which influence the healthiness or unhealthiness of a particular locality, particularly so when registration is far from perfect, but it should not, he considers, have been impossible to give some indication as to the cause of the large increase in the mortality, especially that from fever and cholera.

Plague in this Presidency is confined almost entirely to Calcutta and its suburbs, and 1,905 of the 1,995 deaths from this cause occurred in this locality. Cholera was prevalent in every district except Darjeeling, and the mortality was considerably in excess of that of 1912. No explanation of the increase is furnished in the report, but there is little doubt that it was largely due to the deficient monsoon of 1911, and to the want of rainfall in the early part of 1912, which resulted in the water-supply becoming scanty and contaminated. The disinfection of wells with permanganate of potash was carried out in several districts with successful results. There is however no scope for any great improvement from such a measure, as tanks, not wells, form the main source of the water-supply of Bengal. There was a slight increase in the mortality from small-pox, but the number of deaths from this disease was less than half of the average of the preceding five years. The highest mortality was recorded in Mymensingh, Dacca and Tippera; these districts were responsible for 92 per cent. of the deaths amongst children. Dysentery and diarrhœa are more fatal in towns than in rural areas. The mortality in 1912 was slightly above the average. Among divisions Burdwan, and among districts Howrah, return the highest death rate.

5. *Fever.*—Fever continues to maintain its position as the disease most responsible for the mortality of the province, and His Excellency in Council regrets to find that, despite the measures taken to prevent the spread of

malaria, there was a rise in the mortality from this disease during the year. Of deaths in the province as many as 959,193 are attributable to fever. Malda, Dinajpur and Jalpaiguri have the worst record, but while Dinajpur and Jalpaiguri do not show any great variation from the average of the previous five years, the mortality in the Malda district has reached the high figure of 35·83 per mille against a previous average of 25. Reference was made in the report of the Sanitary Commissioner of Eastern Bengal and Assam for 1911 to the severe epidemic which was responsible for the increase in the mortality of the year in Malda, and it was stated that special arrangements had been made for the distribution of quinine through the District Boards and for facilities for the sale of "treatments." The present report makes no reference to the result of these measures, but the increase in mortality in 1912 would seem to indicate that they have proved of little avail. This district alone accounts for one-sixth of the increase in the number of deaths from fever in the Presidency. In the town of Malda itself the death rate from fever rose from 29·33 to 41·60. These facts demand further investigation, and the Sanitary Commissioner will be requested to make a full enquiry to ascertain, as far as possible, the causes which have led to this marked unhealthiness of the district, and to determine what measures, if any, should be undertaken to effect a remedy. The Governor in Council is also disappointed to find that despite the employment of Sub-Assistant Surgeons in the distribution of quinine in the districts of Nadia and Murshidabad there has been no diminution in fever mortality, but the reverse. The various anti-malarial measures that have been undertaken throughout the province have so far been unproductive of any real permanent advantage, and in many places they have been discontinued. The clearance of jungle and tanks and the destruction of mosquitos have not proved successful measures, and a more extended use of quinine seems, on present knowledge, the only method by which it is possible to reduce the rate of mortality and the risk of infection. An experiment on a fairly large scale to determine the effect of the wholesale clearance of jungle on general health in the villages is about to be undertaken. Major Fry and Dr. Bentley continued their malaria investigations, the former principally in the malarious districts of Jessore, Nadia and Murshidabad, the latter in Dinajpur, Rajshahi, Dacca and Faridpur. Several Sub-Assistant Surgeons were employed in distributing quinine gratis in several districts during the fever season.

There was a large increase in the sale of quinine by the Jail Department. Arrangements have now been made by which this department will prepare the quinine "treatments" which have hitherto been obtained from a firm in England.

The Malaria Committee devoted itself during the year primarily to a consideration of the measures that should be taken to render quinine more popular and to bring it more prominently to the notice of the general public. Detailed arrangements have been made and they will shortly be put into force.

6. *Verification of vital statistics.*—The enquiries into births and deaths made by the Vaccination staff indicate very defective registration of vital statistics, and the improvements noticed in previous years have not continued. There was an unusually large number of omissions in the districts of the Rajshahi Division while the results in Khulna are still far from satisfactory. The question of the improvement of statistics in compulsory areas was under consideration during the year. The system of registration by the police was found to be defective, and it was decided that the work should be retransferred to the municipal authorities with effect from the 1st April 1913.

7. *Vaccination.*—The total number of operations performed in the Presidency during the year was 1,984,399, the number of persons vaccinated being 1,971,200. There was a decrease of 16,509 in primary vaccinations. The decrease was attributed chiefly to the prevalence of malarial fever during the working season and to the opposition to vaccination of the Farazi Muhammadans of certain districts. Owing to the greater prevalence of small-pox in the districts of Dacca, Chittagong, Mymensingh and Tippera there was an increase of 54,324 in the number of re-vaccinations. An increase was also noticed in Midnapore where steps were taken by the Magistrate for the re-vaccination of all adults in whose cases the effect of previous vaccination had died out.

8. *Sanitary works.*—The section on sanitary works in the Sanitary Commissioner's report and the Report of the Sanitary Board give a very detailed account of the measures that have been taken or are in progress towards improvements in sanitation. Increased expenditure on conservancy, the execution or preparation of schemes of water-supply, sewerage, and drainage, all indicate greater activity on the part of municipalities and a greater realization of their responsibilities in this important work. But progress is far from rapid. Much time is lost by municipalities in the consideration of projects that have been prepared by the Sanitary Engineer, and the applications for loans from Government to finance a scheme are, as a rule, so imperfectly prepared in the first instance that considerable delay is bound to ensue. Government is ready to contribute liberally towards these sanitary schemes, but, as the figures quoted in paragraph 58 of the report show, full advantage was not taken of the amount that was available during the year 1912-13. A large sum has been provided in the budget for the current year to assist municipalities in schemes of sanitation, and His Excellency in Council trusts that municipalities will take advantage of this, and will push on the schemes of water-supply and drainage which they now have in hand. In rural areas water-supply is the pressing need; on this question the Governor in Council has expressed his views on more than one occasion. The transfer of the Public Works Cess to District Boards will enable these bodies to devote greater attention to, and effect greater improvements in, the sanitation of rural areas.

9. *Sanitary Board.*—The re-arrangement of the provinces caused some temporary disorganization of the work in the Sanitary Engineer's office, but no schemes suffered by the change. The year was one of great activity in the Sanitary Engineer's office, and the establishment was fully employed. Sixteen schemes of water-supply were under consideration while 11 were in process of execution. Seventeen drainage schemes were in the course of preparation in the Sanitary Engineer's office. Eight others were examined or revised while work was in progress on nine schemes.

The progress of work in the Sanitary Engineer's office reflects great credit on Mr. Williams and his staff. It is evident, however, that the existing engineering staff is quite inadequate for the work of the department. The appointment of a second Assistant Sanitary Engineer has been sanctioned and will shortly be filled. The further strengthening of the staff is now under the consideration of Government. The question of the position and duties of the Sanitary Board and of the Sanitary Engineer and the relationship between them is also under examination.

10. *Staff.*—During the year the Sanitary Commissioner had the assistance of only one Deputy Sanitary Commissioner excluding the two special officers engaged on malaria investigations. It has however been recognized that in view of the exacting nature of his duties and the unwieldy size of his charge, one officer is quite insufficient, and it has been decided that four Deputy Sanitary Commissioners should be entertained for this Presidency. Since the close of the year two Indian officers have been appointed and the fourth officer is expected at an early date. These officers will each hold charge of one of the four Sanitary Circles into which the Presidency is now divided.

11. Steps are now being taken to give effect to the scheme for the appointment of Health Officers and trained Sanitary Inspectors in municipalities which has been under consideration in recent years. A Bill has been introduced into the Legislative Council to amend the Bengal Municipal Act so as to provide for the appointment of such officers in mufassal municipalities. A class for the training of Sanitary Inspectors has been opened in Calcutta. It is hoped that the entertainment of these officers will result in a considerable and much needed improvement in the conservancy and sanitation of municipal areas.

By order of the Governor in Council,

J. DONALD,

Offg. Secretary to the Govt. of Bengal.

REPORT ON THE WORKING OF THE SHIPPING OFFICES IN BENGAL FOR THE YEAR 1912-13.

THE following Annual Report on the working of the Shipping Offices in Bengal for the year 1912-13 is published for general information.

B. K. FINNIMORE,
Secy. to the Govt. of Bengal.

No. S. 312, dated Calcutta, the 15th May 1913.

From—COMMANDER C. J. C. KENDALL, R.I.M., Shipping Master of Calcutta,
To—The Secretary to the Government of Bengal, Marine Department.

I HAVE the honour to submit herewith the annual report of the Shipping Office for the year 1912-13.

The statement below shows the number of seamen shipped and discharged under the European and Indian articles for the year under review, with the figures for the previous year—

	Articles.	1911-12.	1912-13.	Increase.	Decrease.
Shipped.	Europeans ...	780	851	71	.....
	Indians ...	46,632	45,127	.....	1,505
	Total ...	47,412	45,978	.....	1,
Discharged.	Europeans	870	1,229	359	.....
	Indians ...	40,384	41,406	1,022	.....
	Total ...	41,254	42,635	1,381	.....

Fuller particulars of the above figures are shown in Appendix I, from which it will be seen that the decrease of 1,505 under Indian articles is from the figures of the Branch Shipping office, which, however, may be due to the work of a few vessels having been transferred to the Head office, but mainly to a number of vessels retaining their crews under additional clause for a longer period than hitherto. As regards the increase of 1,381 discharges, this may chiefly be ascribed to some vessels that open their agreements abroad and discharge the crew at this port.

The number of Eurasians shipped on European and Indian articles during the year is 96 and 371 respectively, there being an increase of 30 and 22 over the figures of the previous year.

The following statement shows the number of seamen shipped and discharged at the various Consulates, with the nationalities specified, detailed particulars of which are given in Appendix II. These figures are not included in Appendix I:—

Nationalities.	Shipped.	Discharged.
British	7	13
Germans	38	29
Chinese	7	20
Scandinavians...	4	5
Danes	3	.
French	...	1
Austrians	...	1
Egyptians	1	...
Javanese	3	1
Arabs	8	12
Netherlanders	10	7
Japanese ...	9	...
Greeks	...	1
Russians	12	4
Turks	...	4
Italians	...	2
Total	102	100

The number of European and native seamen that deserted and failed to join their vessels during the year was 51 and 993 respectively. The majority were however replaced by substitutes.

Repatriation under Distressed Seamen's Regulations.—One hundred and nineteen seamen were repatriated for the following causes, viz., sickness and injury 101, mutual consent and paucity of employment 15, insanity 1 and left behind 2.

Relief to Seamen.—The number of seamen afforded relief in the work-house was 4; of these, 3 left for different causes and 1 remained in the Institute at the close of the year. Sixteen seamen were relieved in the Alms House by the District Charitable Society at a cost of Rs. 1,019-8. Two hundred and thirteen destitute seamen were admitted into the Sailors' Home from Consuls and societies. A loss of Rs. 203 was sustained by this Institute owing to seamen not being able to pay their board. The number of distressed native seamen assisted from the Shipwrecked Mariners' Fund was 38, at a cost of Rs. 1,176.

Complaints.—A complaint was made by members of the crew belonging to the S.S. *Chiltern Range* with regard to the provisions. On examination a large quantity was found unfit for use and was condemned. The officers of the S.S. *Nawab* also complained of being supplied with unsatisfactory food. A few articles on examination were found to be of inferior quality, and a better quality was substituted.

European Seamen's Money-orders.—The following statement shows the figures for the year under review with those for the previous year, which when compared shows a decrease of about £56 :—

	1911-12.				1912-13.

Total	374	11	5	5,618 9	318	7	0	4,775 4

Administration of Trust Funds.—The transactions of funds held in trust during the year under the different heads is shown in Appendix III. Stamped papers to the value of Rs. 21 was used on account of securities in disposing of estates of deceased seamen. The balance of accumulated funds at the commencement of the year was Rs. 17,550 and the receipts Rs. 55,000.

The payments were Rs. 54,147 and Rs. 2,671, having lapsed to Government, a balance of Rs. 15,731 is left at the close of the year.

Transactions with the Board of Trade.—The sum of Rs. 25,113 represents the transaction with the Board of Trade, and compared with the figures of last year shows an increase of Rs. 8,286.

Financial Result.—The statement below gives the financial result of the office for the last five years :—

Year.	Receipts.	Disbursements.	Savings.
	Rs	Rs.	Rs.
1908-09 ...	85,005	45,280	39,725
1909-10 ...	88,759	51,932	36,827
1910-11 ...	95,802	57,463	38,339
1911-12 .	1,05,571	62,475	43,096
1912-13 ...	1,18,739	65,009	53,730

It will be observed from the above figures that there is an increase of Rs. 10,634 in the savings in comparison with the figures of the previous year.

Detailed particulars of the receipts and expenditure are given in Appendix IV, which shows an increase of Rs. 13,565 chiefly under the following heads :—

	Rs.	
(1) Discharging Fees ...	2,603,	due to an increase in the number of seamen discharged and the fees being charged on the calculation of tonnage.
(2) Overtime Fees ...	2,352,	may be ascribed to the demand for work to be carried on afloat.
(3) Fines and Forfeitures ...	8,123,	due to these recoveries being credited to the Indian revenue instead of Board of Trade as hitherto.

Expenditure.—On referring to Appendix IV it will be seen that there is an increase of Rs. 881 under the head of "Establishment," and is on account of periodical increment to the staff during the year, and also more payments for house allowance. The increase of Rs. 2,352 for overtime has already been referred to under "Receipts." The increase of Rs. 653 for furniture and fittings is due to requirements under this head during the year. A decrease of of Rs. 1,459 will be observed under cost of forms and stationery; this is chiefly due to the elimination of a number of forms, and the cost of a certain portion of the year's requirements not being included under this heading owing to the revision of some forms.

Changes in Officers.—During the year Commander C. J. C. Kendall, R.I.M., Port Officer, was on leave from 1st April to 25th idem, during which time Commander C. B. Henley, R.I.M., Deputy Port Officer and Deputy Shipping Master, carried on the duties of the above officer in addition to his own.

Commander G. N. Forteath, R.I.M., was appointed as Deputy Port Officer and Deputy Shipping Master on the 1st May 1912 in place of Commander C. B. Henley, R.I.M., whose tenure of office expired.

No. 138., dated Chittagong, the 29th April 1913.

From—Commander E. Gray Mills, R.I.M., Shipping Master, Chittagong,
To—The Commissioner of the Chittagong Division.

I have the honour to submit herewith the annual administration report of the Chittagong Shipping Office for the financial year 1912-13, together with appendices (I to III).

2. *Financial Results.*—The amount received during the year was Rs. 1,092, and that expended was Rs. 767, leaving a surplus balance of Rs. 325. The accompanying Statement I shows the required particulars of the receipts and expenditure of the last two years, with explanation of the principal fluctuations.

3. *Trust Funds.*—The opening balance of the year under review of the funds was Rs. 60 and the receipts Rs. 76,379, or Rs. 16,513 in excess of the previous year. The payments were Rs. 76,186 and Rs. 2 lapsed to Government during the year, leaving a balance of Rs. 251 at its close as shown in Statement II annexed.

4. *Seamen shipped and discharged.*—The number of seamen of all nationalities shipped and discharged during the year 1912-13 was 145 and 988 respectively against 162 and 843 in the previous year, as shown in Statement III annexed. The decrease of 17 in the number shipped is due to a smaller number of crew being engaged by the Masters of vessels, and the increase of 145 in the number discharged is attributed to the greater number of crew having been discharged from the larger number of vessels.

5. *Inspection of Vessels.*—The number of ships which arrived at this port during the year under report was 122 (excluding regular coasting steamers) against 127 in the previous year. Of these, 4 ships were manned by Europeans, 59 ships were manned by mixed crew of Europeans, Asiatics and Indian lascars, and 59 ships were manned by Indians. All the foreign-going ships were inspected by the Port Health Officer.

6. *Condition of Seamen.*—There were 14 seamen admitted into the Chittagong General Hospital against 29 during the preceding year. Of the total admissions, 10 were discharged cured, 1 discharged otherwise, 1 died and 2 remained in hospital under treatment. There were no cases of scurvy or death resulting from bad or insufficient food on board ships during the year under report.

7. *Seamen's Money-order.*—No remittances of wages were made to the United Kingdom by means of seamen's money-order.

8. *Deserters.*—There were 14 deserters during the year under report against 5 in the previous year. There were no deserters among European seamen.

9. *Deaths.*—Only one seaman died of cholera in the Chittagong General Hospital during the year under report.

10. *Offences.*—Three cases were tried by the Magistrate under Indian Merchant Shipping Act I of 1859, in which the three accused persons were convicted to suffer rigorous imprisonment for six weeks and to forfeit their wages, etc.

NOTIFICATION.

No. 3501.—The 18th July 1913—The following Prospectus relating to the Industrial and Agricultural Exhibition to be held at Mysore in October 1913 is published for general information.

H. F. SAMMAN,
Offg. Secy. to the Govt. of Bengal.

PROSPECTUS OF THE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION, 1913.

Introductory.—With the sanction of the Government of His Highness the Maharaja of Mysore the Committee issue the following Prospectus in connection with the Exhibition of 1913.

2. *Opening of the Exhibition.*—This year the Exhibition opens on or about the 3rd of October and will continue till the 17th of October, both days inclusive. The Cattle (local) and Poultry Shows and Weaving competition will begin on Monday, the 13th of October, and close on Wednesday, the 15th.

The Wood Carving and Metal Work competitions will begin on the 3rd of October 1913 and continue till the 17th. The Potters and Ploughing competitions commence on the 14th and 15th October 1913 respectively.

3. *Object of the Exhibition.*—The primary aim of the Committee is to impart to the Exhibition an educative character and to bring together articles, machinery and processes, the use of which it is desirable to bring to the notice of the raiyat, artizan and the manufacturer by actual demonstration. But as the exhibition of a single specimen may not afford full information and may not be sufficiently attractive to the visiting public, articles intended for sale will also be admitted.

Sale Rooms and Sale of Exhibits.—Articles on a larger scale sent merely for sale will have to be kept in separate stalls and in charge of the exhibitors or their agents. There is no objection to the sale of actual exhibits; but they will not be allowed to be removed from the Exhibition grounds till the termination of the Show. Articles admitted for purposes of sale alone may be removed after purchase. No article will be allowed to leave the Exhibition grounds without a gate pass, which will be issued by the Cash Accountant on production of a cash-bill or sale memo., as the case may be.

Those who desire special facilities for the sale of articles or demonstration of processes are requested to place themselves in communication with the Secretary to the Exhibition Committee at least two weeks before the opening of the Exhibition.

4. *Horticultural Show.*—The Horticultural Show comprising Class II, Group 2, items 1 to 7, mentioned in the first section of the Prospectus, will be held on the 13th of October 1913 and kept open till the following day.

5. *Lectures.*—Written notes on subjects connected with Agriculture, Industry and Commerce will be thankfully received and printed in book forms for distribution at the Exhibition.

Demonstrations.—Arrangements will be made for holding a competition on the Exhibition grounds in Ploughing, Weaving and Pottery work, Carving and Metal work. The exact time of demonstrations will be announced later on by hand-bills and notices: unless there be at least three competitors for each event, the Committee have full power to withhold such competitions.

6. *Donations.*—The Committee will thankfully accept donations for awarding prizes or medals from individuals or associations desiring to give an impetus to any special branch of agriculture or industry.

7. *Classification of Exhibits.*—The classification of exhibits will be according to the prize list subjoined to the Prospectus, and entries in several sections should be made in the application forms prescribed.

8. *Open to all India.*—The Committee invite exhibits from all the districts of the State as well as from outside. They also appeal to the various agricultural departments and associations in other parts of India, Burma and Ceylon to help them with exhibits and suggestions.

9. *Judges.*—Leading raiyats and non-official gentlemen will be invited to assist the Committee in judging the exhibits.

10. *Admission fees for visitors.*—An admission fee of annas two per head will be levied each time a person enters the Exhibition buildings. Season tickets will be issued at Re. 1 per head. These are not transferable, but books of eight single tickets may be had also at Re. 1 per book. Return railway season tickets between Bangalore and Mysore at a reduced rate, which will also admit the holder to the Exhibition for the whole period, will be arranged for.

11. Classification of exhibits in the Women's Section, formerly published under class II of the Industrial Section, has now been compactly arranged in a Syllabus under the Ladies' Committee on page embodied herein.

RULES AND REGULATIONS.

Noxious Articles.—Explosives or any substance noxious or dangerous will not be admitted by the Committee.

2. *Particulars regarding the Exhibits.*—Intending exhibitors are requested to send to the Secretary to the Exhibition Committee particulars of exhibits they intend to forward and the amount of space which their exhibits may take up in the necessary entry form appended to this Prospectus. Forms may also be obtained from the District, Divisional and Taluk Offices or from the Secretary to the Committee: plain paper of foolscap size may also be used provided all the headings in the form are properly copied and filled up and separate sheets should be used for each section.

3. *Applications from Exhibitors.*—Applications should reach the Secretary not later than 1st of September 1913. Each individual application either from outside or inside the State should contain a post-card with the full address of the exhibitor, and the receipt of the application will be communicated by returning the card duly signed.

4. *Lists from Taluks.*—Deputy Commissioners of Districts with the District Committee, Subdivisional Officers and Amildars of Taluks are requested to convene, as early as possible, a meeting of the leading artizans, raiyats and merchants residing within their respective charges, to explain to them fully the object and the scope of the Exhibition, to carefully acquaint them with the rules and regulations, drawing particular attention to such paragraphs as 2, 3, 10, etc., to send to this office for information copies of proceedings of District and Taluk Committee meetings, to distribute to them forms of applications, to have them filled up by intending exhibitors and to compile and forward them to the Secretary.

5. *Articles not enumerated.*—The Prospectus will show the nature of articles which can compete at the Exhibition. Articles not specially enumerated in this Prospectus may, however, be admitted by the Committee at their discretion.

6. *No fees to be charged for Exhibits.*—No fees will be charged for the admission or for space given to display exhibits

7. *Acceptance of Exhibits.*—The Committee reserve to themselves absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space covered or uncovered.

8 *Delivery of Exhibits.*—Articles intended for the Exhibition may be brought by the exhibitor or his agent or servant and delivered at the Exhibition grounds or sent by post or railway, and all Taluk and District *Exhibits should be sent through the Deputy Commissioners of Districts so as to reach the Exhibition by the 20th of September 1913.* A consolidated list of District Exhibits and Exhibitors in duplicate should accompany the consignment, one of which will be checked, receipted and returned by the Secretary.

9. *Payment of Freight and Transport charges.*—No exhibits in respect of which the necessary freight or transport charges have not been paid by the exhibitor will be accepted by the Committee, nor can the money be received from the exhibitors for payment towards clearance of goods booked "To pay."

10. *List of Particulars.*—All packages received or delivered and all implements and machinery intended for the Exhibition must bear a label specifying name and number of exhibits and the registered number of the exhibitor and must be addressed to the Secretary. They must contain a list in duplicate showing the name or description of the article, its price, the place of production or manufacture, name of the manufacturer or exhibitor

in the case of exhibits in the agricultural section, essential particulars should be given, such as—

1. The season of sowing.
2. The soil on which they are grown.
3. The quantity of seed per acre.
4. The manure used.
5. Whether any irrigation is required.
6. The time required for the maturing of the crop
7. The average yield per acre.
8. Any other interesting details regarding cultivation.

11. *Exhibits which have already won Prizes.*—Exhibits which have won prizes in the previous Mysore Exhibitions shall be precluded from competing for prizes, though there is no objection to their being accepted for purposes of show or sale.

12. *Date of delivery of the Exhibits.*—Intending exhibitors are requested to send the exhibits so so as to reach Mysore on the 5th of September 1913, from which date the Committee will arrange to take charge of exhibits, *and no exhibits should arrive later than the 20th of September 1913.*

13. *Belated Exhibits.*—Articles that are not delivered at the Exhibition Hall in the time fixed may be admitted at the discretion of the Committee subsequent to the date in paragraph 12; but they shall not find an entry in the official Hand-book if the exhibitors fail to furnish at least the accurate lists of exhibits within the prescribed time.

14. *Perishable Articles.*—Vegetables, fruits and other perishable articles may, however, be delivered at the Exhibition hall till 7 P.M. on the 12th of October 1913.

15. *Valuable Exhibits.*—All valuable exhibits must invariably be forwarded and kept under the charge of an attender.

16. *Exhibits unaccompanied by men in charge.*—Exhibitors who are unable to attend personally or send their agents in charge of exhibits other than those mentioned in the above rule may make special arrangements with the Committee for the exhibition of their goods on payment of the estimated expense, but in the meanwhile a minimum sum of Rs. 5 be sent in advance for meeting the expenses connected therewith.

17. *Responsibility of Exhibitors.*—The reception, fitting and removal of spacious and heavy exhibits must be personally supervised in the Exhibition either by the exhibitors or their agents. In default the exhibitor will be bound by the action the Committee may take in respect of such articles.

18. *Committee accept no reponsibility.*—No responsibility for damages or loss howsoever occurring will be accepted by the Committee in respect of any exhibits.

19. *Special Facilities.*—Exhibitors are requested to mention in their applications whether they wish to illustrate practically any process of manufacture or the working of any implement or machinery and, if so, to state briefly the nature of the demonstration and any special facilities they require for mounting their machinery.

The Committee will be glad to give such aid as may be possible in the shape of getting skilled or unskilled manual labour at the exhibitor's expense. The expenses for any special facilities sought for demonstrating machinery and implements should be borne by the exhibitor except where special arrangements have been made by the Committee.

20. *Weighing of Exhibits.*—The Committee entrust the work of receiving the exhibits to responsible officials. But as the goods are landed near the Exhibition grounds by special arrangements, it is not possible to weigh every consignment before taking delivery of it. So the exhibitors are requested to take every precaution in packing their exhibits and to send to the Committee, in time, *an accurate list* of exhibits sent by them. Exhibitors who wish that their consignment should be weighed at the Railway station before delivery should intimate their wish to the Secretary in time and remit in advance a special fee of one rupee on each consignment to be thus weighed.

21. *Acknowledgment of Exhibits.*—Receipt of exhibits will be acknowledged by return of the duplicate list mentioned in paragraph 10 to the exhibitors, duly signed by the Secretary. No other kind of receipt or acknowledgment shall be sent.

22. *Free Pass to Exhibitors.*—In cases in which the owners themselves are in charge of exhibits, the necessary free pass will be given. Exhibitors and such assistants, servants, or other attendants as they may require for service in their stalls shall enter the Exhibition grounds through such entrance or entrances as the Committee may direct; they must wear badges, discs or hold passes issued to them before the opening of the Exhibition. All such assistants, servants or other attendants must obey the orders of the Committee and of supervising staff appointed by them.

23. *Free admission to* bonâ-fide *Raiyats and Artizans.*—Raiyats and artizans unable to pay fees, belonging to the Mysore State or from outside, who produce certificates of identification signed by their respective Taluk Officers in Form B appended to this Prospectus, will be admitted free.

24. *Space for Articles on Sale.*—Accommodation for articles to be sold by owners will be provided in the sale rooms erected within the Exhibition grounds, as far as possible, and the following rent will be charged for special accommodation. Sellers may have temporary booths put up at their own cost in the Exhibition grounds by previous arrangements with the Committee.

		Rs.
1.	Full stall 21′ by 10½′ ...	15
2.	Half stall	8
3.	Quarter stall ...	5

No refund will be given to an exhibitor who occupies less space than that allotted and paid for and the unoccupied space will be disposed of by the Committee in the way it deems best.

No exhibitor shall assign, transfer, sublet or part with the possession of any site or building or portion thereof allotted to him or dispose of any part or interest therein or place therein any other than his own duly approved exhibits. Any breach of this rule renders the exhibitor liable to have his exhibits removed summarily from the Exhibition and he shall not be entitled to any compensation.

Commission.—A commission of six pies in the rupee will be charged on the sales conducted in the sale rooms by the exhibitors themselves or by their agents.

25. *Exhibits for sale.*—Exhibits labelled "for sale" will be sold during the time the Exhibition lasts; but no article will be removed till the close of the exhibition.

26. *Commission Sales.*—A commission of half an anna in the rupee will be levied on all articles sold in the Exhibition stalls and grounds through the salesmen appointed by the Exhibition authorities. In this case the money will be received and remitted to the exhibitor by the Exhibition office.

27. *Opening of Stalls.*—All buildings erected by exhibitors and all sites, stalls, etc., occupied by them shall be properly cleaned and open for the public before the hour of opening each day and shall remain so during the hours of Exhibition, and if this is not done to the satisfaction of the Committee, it shall arrange to have everything done at the sole risk and expense of the exhibitor,

28. *Removal of Exhibits.*—All exhibits must be removed within a fortnight after the close of the Exhibition. Exhibits remaining after that time will be disposed of as the Committee deem fit. Perishable articles will be allowed to be removed at the option of the owners or purchasers within 24 hours after the opening of the Exhibition.

29. *Exhibits on loan.*—Works of art and articles of special merit including those of antiquarian interest will be thankfully received. Gentlemen willing to lend them are requested to place themselves in communication with the Secretary or the members of the Committee who will inform them of the acceptance of the offer and will make necessaay arrangements in connection with the exhibition of articles.

30. *Exhibits belonging to Departments of Mysore Government.*—Articles or cattle exhibited by any Department of Government will not be eligible for money prizes or medals; but may be awarded certificates of merit. Certificates of merit will also be given to such of the exhibits from private gentlemen as have not been provided for in the Prospectus, if they are considered by the judges worthy of the same. (This rule does not

preclude Government servants or pupils of Industrial Schools and Institutions aided by Government from competing for prizes, if the exhibits are manufactured by themselves.)

31. *Admission of Live-stock.*—The time of the year when the owners of cattle are fully engaged in the fields having been found very unsuitable for a regular Cattle Show, it has been decided to restrict the show to the fine specimens of local (Mysore district) cattle irrespective of breeds and classes.

32. *Accommodation for cattle.*—Accommodation will be provided free of cost.

33. *Practical test.*—Working cattle may, at the owners' option, be subjected to a practical test as to their powers of draught. They must be the *bonâ-fide* property of the exhibitor,

34. *Caretaker.* Each animal or lot competing separately must be in charge of a care-taker who will remain in charge of the exhibit and must be ready to lead it out at any time as required by the Committee,

35. *Poultry show.*—The poultry must be in charge of the owners or an attendant who will be admitted on the Show days with a free pass. Every endeavour will be made for safe accommodation. The number of each breed that a competitor may bring must be intimated to the Secretary at least four days before the opening day.

36. *Poultry Appliances.*—Prizes will also be awarded for incubators and other poultry appliances.

37. *Distribution of Awards.*—Prizes and medals will be distributed at the close of the exhibition. This year it is proposed to hold a distribution of, prizes in the Exhibition grounds on or about the 17th of October 1913.

38. *Number of Judges.*—The judges in each class or group will not be less than three, but no prizes will be awarded unless, in the opinion of the judges, the exhibits merit the reward. Judges cannot compete for prizes in classes or section in which they are judges, and the decision of the judges is final.

39. *Photograph of Articles exhibited.*—No articles exhibited may be copied, photographed, drawn or reproduced in any manner without the special permission of the Committee. General photographs of stalls may, however, be taken with the permission of the Committee.

40. *Committee's decision final.*—The Committee have full power to make rules for the conduct of the exhibition under these regulations, and their decision is final in all cases.

41. *Acceptance of Rules.*—All persons who become exibitors shall be held to signify their assent to and acceptance of the foregoing rules and regulations and also such other rules as the Committee may hereafter issue not inconsistent with these regulations.

42. *Official Hand-book.*—An official hand-book of all exhibits with the names and the addresses of the exhibitors and their agent or agents, if any, will be published about the opening day of the exhibition without any further cost to the exhibitors. It is expected that a large number of people will visit the exhibition and that many of them will probably purchase the official hand-book which will be sold at two annas a copy. It will be a capital opportunity for advertisers to advertise through the medium of this hand-book. Advertisements will be received for publication in the official hand-book at the following rates :—

	Ordinary paper.	Coloured paper.
	Rs. A.	Rs.
Full page	20 0	25
Half „	12 0	15
Quarter „	7 8	10

(Special rates of Rs. 30, Rs. 16 and Rs. 12 will be charged for advertisements on the page of the cover for full, half and quarter page, respectively.)

Applications for these advertisements will be received not later than 10th September 1913, and must be accompanied by a remittance in full payment of the amount due for space applied for.

43. *Refreshments.*—No articles of refreshment, food, drink or tobacco shall be sold in or on any site, buildings or part thereof in the exhibition without the written permission of the Committee.

44. *Committee's Right.*—The Committee or any person or persons that they may appoint shall at all times have free access and right of entry to all or any part of the space, site or buildings allotted to exhibitors.

45. *Accommodation.*—Accommodation for visitors will be arranged in the sheds put up outside the exhibition building, provided intending visitors apply to the Secretary at least a fortnight before the opening of the Exhibition. A rent of annas six per day subject to a minimum charge of Rs. 3 for stays less than eight days will be charged.

46. *Entertainments.*—The Committee will receive applications for entertainments in the exhibition grounds. No charges will be levied for space allotted therefor.

47. *Post and Telegraph Office.*—The "Mysore Exhibition Camp" Post and Telegraph Office will be open at the Exhibition from 1st September to 30th November, and all letters, etc., addressed to the Exhibition Camp Office will be delivered earlier than those addressed to Mysore Town.

48. *Railway Concession.*—Concession for the carriage of exhibits over the following Railways to the Mysore Dasara Industrial and Agricultural Exhibition on production of necessary certificates which may be had by applying to the Secretary to the Exhibition has been granted by the respective Railway authorities :—

1. The South Indian Railway.
2. The Bhavanagar State Railway.
3. The East Indian Railway.
4. The Bombay Baroda and Central India Railway.
5. The Bengal Nagpur Railway.
6. The Great Indian Peninsular Railway.
7. The Madras and Southern Mahratta Railway.
8. The Barsi Light Railway.

Besides, the following have also extended the concession to the exhibitors, The period will commence in case of exhibits from 20th August and end on 15th November 1913, and in case of exhibitors from 20th September to 31st October 1913 :—

1. The South Indian Railway.
2. The Bhavanagar State Railway.
3. The Bengal Nagpur Railway.
4. The Great Indian Peninsular Railway.
5. The Madras and Southern Mahratta Railway.

49. *Steamer Concession.*—The Manager of the Irrawaddy Flotilla Company, Limited, Rangoon, has allowed the following concession for exhibits over his steamer :—

All exhibits (goods, parcels, cattles, etc.) will be carried :—On the outward journey at full tariff rates. On the return journey free, provided that (1) they have not been sold, (2) they are consigned to the station of original despatch, (3) they will be carried at owner's risk, and (4) the usual form of certificate is obtained at the time of original despatch and is tendered duly filled up and signed on application being made for concession on return journey.

50. *Communication regarding the Exhibition.*—All communications regarding the exhibition should be addressed to the Secretary to the Mysore Dasara Industrial and Agricultural Exhibition Committee, Mysore.

G. SUBBUSWAMI IYER, *Secretary.*

WOMEN'S SECTION.

This being the second year in which the Women's Section of the Mysore Dasara Industrial Exhibition has been at work, it is felt that its aims should be more widely recognised and appreciated so that a few words of explanation as a preface to this syllabus will not be out of place.

The first aim of this section is to bring into touch with each other women, who, having themselves learnt the value of new occupations and interests, are anxious to hand on this knowledge to others. Plain or fancy needle-work, lace-making, basket-making, knitting, all these are occupations enjoyed by a large number of women and girls in India, but there remain a still larger number who have neither seen nor heard about them. To interest these, it is important to collect for Exhibition the best that is done in all branches of women's work, and it is only the best in each section of the work that can be encouraged by the award of medals and prizes.

This is one of the most difficult things to impress upon intending exhibitors. It is not any kind of work that can be accepted. Certain groups are selected in the syllabus, and only the really good work sent in under each group is likely to be admitted. To understand the importance of sending in only the best work, the following rules should be carefully studied and conscientiously carried out:—

1. In needle-work the best materials that can be procured should alone be used: it is waste of time to put good work on to poor material which will neither wear nor wash.

2. One neatly stitched, well finished off exhibit is more likely to win a prize than a large bundle of carelessly done work; no amount of trimming will improve a badly made article.

3. Moth-eaten, faded, torn or dirty work cannot be accepted.

4. Exhibits which have already won prizes in previous Exhibitions cannot compete. They will be accepted as "Loan Exhibits" or exhibited for sale if space permits.

5. No work will be accepted that does not come under one or other groups in the syllabus. *Space in the exhibition being limited, there can be no exception to this rule.*

6. *None but genuin women or children's work will be allowed to compete for prizes in this section.*

In conclusion, attention must be drawn to the Government Order No. Fl. 223—G.F 348-10-7 of 19th July 1911, dealing with the award of medals at Public Exhibitions. It is as follows:—The parties who exhibit articles may be divided into two classes, viz., (1) rich and well-known firms who want distinction and praise rather than any pecuniary help, and (2) indigenous workers of modest means to whom even a small money prize would be useful. In the opinion of Government it will be sufficient to grant to exhibitors of the first class a certificate stating that their exhibits have been awarded a gold or silver medal or some other kind of distinction. For the second class of exhibitors the award should take the form of a money prize.

PLOUGHING COMPETITION.

In the prize list published with the Prospectus, a sum of rupees fifty has been allotted for the ploughing competition. The following particulars regarding the award of prizes are published for information :—

Indigenous and imported implements of all kinds will be admitted, the different classes of implements being allowed to compete separately—

1. *Ploughing.*—Each competitor will be required to plough completely one plot of red loamy soil measuring four guntas in an hour and-a-half.
2. *Ridging.*—To ridge up completely a three-gunta plot in an hour and-a-half.
3. *Harrowing.*—A four-gunta plot will have to be harrowed in twenty minutes.
4. *Sowing.*—A four-gunta plot to be sown in twenty minutes with a seed-dril.
5. (*a*) *Thrashing.*—A given quantity of a given kind of crop to be thrashed by cattle, stone mills or power machines.
   (*b*) *Winnowing.*—By machines of different kinds.

The number and value of prizes to be awarded will be fixed after applications for the entries are received and the various kinds of implements and machinery competing are known, and the present provision of rupees fifty will be increased if necessary. The competition will be held on the 15th of October 1913.

Those who wish to enter for these competitions are requested to submit their applications in the accompanying form through the Amildar / Tahsildar of their taluk so as to reach the undersigned not later than the 30th of September 1913 at Mysore.

G. Subbuswami Iyer, *Secretary.*

APPLICATION FORM.

Name and address of the competitor.	Name, kind and value of the agricultural implements which the competitor proposes to enter for the competition.	Events for which the applicant wishes to compete.	Remarks of the Amildar or Tahsildar of the Taluk.

NOTE.—All the agricultural implements should be produced for the inspection of the Secretary to the Exhibition Committee at Mysore

SECTION F.—MISCELLANEOUS.

3. POTTERS' COMPETITION.

RULES.

1. The competition will commence at 8 A.M. on Tuesday, the 14th of October 1913, and will be continued for three days.

2. Any kind of wheels indigenous or improved or foreign may be entered for the competition.

3. Competitors will be allowed to fix their own apparatus beforehand.

4. Competitors will bring their own clay ; but gypsum powdered or cement will be supplied by the Committee.

5. Competitors will be allowed to compete under one or more of the undermentioned tests :—

(i) To make plain flower pots 8 inches high with half inch thick without lip.

(ii) (*a*) To make a tea pot of a given size.

(*b*) To make a jug of a given size with a single or double sheaths.

(iii) (*a*) To make a pedestal 4 feet high with the two ends ornamental with beadings.

(*b*) To make an ornamental balustrade as per sample approved.

(*c*) To make a mould of an ornamental flower pot in gypsum or in cement and to show the process of taking out copies.

NOTE.—Competitors under tests (*b*) and (*c*) of class (iii) should get the sketches or sample objects approved by the Judges.

6. In awarding prizes, the judges will note the following points :—

(*a*) The state of finished articles while drying, with special reference to cracks, etc.

(*b*) Throwing and finishing.

(*c*) Adaptability of the wheel—

1. Whether the wheel is suited for throwing different kinds of objects.

2. Whether the wheel can be worked profitably by potters in their houses or is only useful for factory work.

(*d*) Mechanism of the wheel—

1. Soundness and simplicity of the wheels.

2. Position in which the potter has to hold his body and the ease with which he works.

(*e*) The different kinds of clay and materials used.

(*f*) Methods of preparing the clay.

THE WEAVING COMPETITION.

In connection with the Exhibition of 1913 a competition in Weaving and its preparatory process will be held in the Exhibition premises, Mysore. The following rules regulating the competition are published for the information of the intending competitors :—

SECTION I.

The competition will commence on Monday, the 13th of October 1913, and will be continued for three days.

2. Weavers will be required to work for 7 hours a day, from 8 to 11-30 A.M. and from 2 to 5-30 P.M.

3. Any kind of hand-loom may be entered for the competition; but competition among weavers in each class will be among weavers working on the same kind of loom.

This rule does not affect giving loom prizes to any kind of loom that enter into any kind of competition.

4. No prizes or medals will be given to competitors in a certain class when the number is less than 3. But all *bonâ-fide* weavers with a piron driver for helping each competitor will be given their third class fare to and fro at concession rates or reasonable cart hire and an allowance of five annas per day for five days only, if they come and demonstrate any of the operations that are mentioned in the items for competition. Those that desire to utilize this opportunity for weaving extraordinary patterns will have to intimate to the Secretary at least 15 days before the Exhibition commences when the necessary arrangements will be made for the same. Weavers in Mysore City will get only their daily allowance.

5. A man that has once competed in weaving one kind of cloth and won a prize will not be allowed to compete in the same kind of cloth for three years to come, but such competitors may be allowed and given a special prize by the judges if they think that the competitor serves as a model to local weavers. This rule equally holds good in the case of awarding medals and prizes to the looms.

6. Competitors will be allowed to fix the warps on the looms beforehand and to weave a length not exceeding two yards before the competition commences.

7. Under Sub-Committees with the Chief Revenue Officer of the locality as President competitions in any of the undermentioned tests will be held in the month of August in all the most important weaving centres of the Province. There must be at least three competitors in each of the tests. Two prizes of Rs. 10 and Rs. 7 will be awarded in each centre. The first of the competitor in each of the tests will be required to compete in Mysore at the time of Dasara.

8. A competitor can compete in any one of the following tests (*a*) to (*d*):—

The Manager of a factory or a school may send one or more weavers to compete for one or more tests.

The following are the tests for the competition of this year:—

(*a*) To weave a cloth 54 inches wide (having half-an-inch silk border) with 30's warp, 52 ends per inch and 30's weft, of 48 picks per inch. Prize—Rs. 10 and Rs. 8 for each set of competitors.

(*b*) To weave a cloth 54 inches wide (having one-fourth of an inch silk border) with 40's warp, 60 ends per inch and 40's weft, of 52 picks per inch. Prize—Rs. 12 and Rs. 9 for each set of competitors.

(*c*) To weave a cloth 54 inches wide (having one-fourth of an inch silk border) with 60's warp, 72 ends per inch and 60's weft, 72 picks per inch. Prize—Rs. 14 and Rs. 10.

(*d*) To weave a cloth 45 inches wide with 100's warp, 80 ends per inch and 120's weft, 80 picks per inch. The border is to be of lace and silk of any pattern (specially rudrakshi, peacock, weaving, etc.) left to the option of the competitor. Prize—Rs. 15 and Rs. 12.

(*e*) To weave a magutum 54 inches wide with red, yellow or bleached country twisted silk of about 80 counts. The border must be of lace of about one-fourth of an inch. It is sufficient if the competitors use reeds of about 40 dents and weave about 80 picks to an inch. Prize—Rs. 15 and Rs. 12.

In (*a*), (*b*) and (*c*) the cross borders must be of silk and in (*d*) and (*e*) they must be of lace.

The authorities may allow any other tests provided there are sufficient number of competitors.

9. The competitors will purchase warps except silk from the Exhibition authorities and use them alone for competition and the competitors must bring in their own wefts.

Intending competitors should inform the Secretary at least 15 days before the competition commences. The local weavers will get their daily allowances only. All competitors must bring their own pirons.

10. In awarding prizes to the weavers the Judges will note the following points:—

The work done—

(1) The length of the cloth woven during the whole period.

(2) Uniformity of picking and adhesion to specification.

(3) Freedom from broken ends.

(4) Clean edges, etc.

11. A gold and silver medal will be awarded to the best looms as first and second prizes.

In judging the looms the Judges will consider in addition—

(*a*) Adaptability of the loom—

(1) Whether the loom is suited for weaving different kinds of cloth using different kinds of yarn.

(2) Whether the loom can be worked profitably by weavers in their houses or is only useful for factory work.

(*b*) Mechanism of the loom—

(1) Soundness and proper proportion of its parts.

(2) Simplicity in mechanism so as to be capable of being easily repaired when out of order.

(3) The position in which the weaver has to hold his body while working and the ease with which he can work the loom.

A loom that was once awarded a medal will not get it a second time.

SECTION II.

Weaving and Preparatory Process.

Tests in the following four classes are opened to boys under 18 years and women of any age. Of the two prizes, one will be among boys and the other among women:—

1. Simple processes of making long warps and sizing them economically and usefully.

2. Simple adaptation of English Dobby for hand-loom work.

3. Of any new mechanism likely to improve or increase the quality of the outturn such as new patterns of automatic take-up motion, etc.

4. *Spinning.*—Any kind of spinning appliance may be used. Wool to be spun will be supplied at the time of the competition at the cost of the competitors. The thickness of the yarn and the quantity to be spun and the time to be taken will be decided by the judges. Prize Rs. 10 and Rs. 7.

5. *Warping and sizing*—

RETURN OF JOINT-STOCK COMPANIES FOR THE YEAR 1912-13.

No. 216, dated Calcutta, the 31st May 1913.

From—Rai Kripa Nath Dutt Bahadur, Registrar of Joint-Stock Companies, Bengal,
To—The Inspector-General of Registration, Bengal.

I have the honour to submit the annual report on the working of the Indian Companies Act, VI of 1882, and the Societies Registration Act, XXI of 1860, in Bengal, for the year 1912-13, with the ten statistical tables prescribed by the Government of India.

2. *Statement No. I.*—The number of companies limited by shares working at the close of the year was 847, with an aggregate nominal capital of Rs. 87,49,16,900, and paid-up capital of Rs. 27,08,01,086, against 745 companies, with an aggregate nominal capital of Rs. 82,69,60,700, and paid-up capital of Rs. 26,47,57,634, of the previous year.

3. The United Medical Stores, Limited, registered in Calcutta on the 19th January 1912, filed its notice of situation of the registered office with the Registrar of Joint-Stock Companies, Bihar and Orissa, and accordingly the company was transferred to the Registrar of that province during the year of report.

4. During the year of report, and the preceding year, the increase in the number of companies was very marked. Out of a total number of 847 companies now in the list, not less than 259 were registered during the year of report and the preceding year.

5. *Statement No. II.*—The number of companies registered during the year was 138, against 126 of the preceding year, of which 135 were limited by shares, and 3 were limited by guarantee, against 124 limited by shares, and 2 limited by guarantee, of the previous year.

6. Out of 135 new companies limited by shares, 21 were promoted by Europeans, 10 jointly by Europeans and Indians, and 104 by Indians.

7. Classified list of companies limited by shares registered during the year of report and the preceding year :—

Classification	1912-13	1911-12
Banking and Loan	14	8
Insurance	46	56
Trading Companies	27	41
Mills and Presses	4	5
Tea and other Planting Companies	24	8
Mining and Quarrying	17	5
Land and Building	2	1
Sugar Manufacturing Companies ...	1	...
Total ...	135	124

8. From the above list it would appear that there were marked increases under the heads of "Banking and Loan," "Tea and other Planting," and "Mining and Quarrying" companies.

9. The increase under the head of "Banking and Loan" companies may be explained by the fact that a large number of such companies started

in Bengal, specially in Calcutta, and at district and subdivisional head-quarters, are working satisfactorily and have been able to pay dividends at rates varying from 5 to 32 per cent. per annum on their paid-up capital.

10. The increase under Tea and other Planting companies cannot be properly explained except by the fact that a comparatively large number of Indian capitalists in Calcutta, and the district of Jalpaiguri, invested their capital in tea companies during the year, the business proving more lucrative to them.

11. The increase in the number of "Mining and Quarrying" companies was due to the rise in the price of coal during the year of report and the preceding year.

12. The decrease under the head of Insurance Companies is due to the passing of the Indian Life Assurance Companies Act and the Provident Insurance Societies Act in the previous year. The minimum deposit of Rs. 25,000 prescribed by the former Act, and the control over Provident Societies provided for by the latter Act, had to a certain extent the effect of checking the growth of unsound companies.

13. The decrease under the head of new trading companies was, it is believed, due to the fact that not less than 15 such companies went into liquidation or otherwise became defunct during the year.

14. *Statement No. III.*—Classified list of companies limited by guarantee registered during the year of report and the preceding year—

Classification.	1912-13.	1911-12.
Insurance	*Nil*	1
Trading Companies	3	1

The number of companies limited by guarantee is very few and no explanations are necessary for their increase or decrease.

15. One company limited by guarantee, viz., Kamala Bhandar, Limited, increased its members from 600 to 2,100 during the year.

16. *Statement No. IV.*—During the year under report 146 companies increased their paid-up capital. The increase was distributed under the different classes of companies as shown below :—

Number.	Class.	Amount of capital increased.
		Rs.
52	Banking Loan and Insurance ...	4,11,964
51	Trading Companies	25,55,567
11	Mills and Presses	35,36,865
15	Tea and other Planting ...	23,64,136
13	Mining and Quarrying	1,13,701
1	Ice Manufacturing	610
1	Sugar Manufacturing	52
2	Other companies	637

The increase of capital was shared by nearly all classes of companies, which indicates trade prosperity generally, during the year.

17. The most noticeable feature of the increase of capital during the year was the increase of Rs. 35,36,865 under Mills and Presses. This increase can only be accounted for by the fact that the Fort William Jute Company, Limited, increased its paid-up capital by Rs. 24,00,000, which represents more than one-fifth of the total increase of capital.

18. *Statement No. V.*—No company reduced its capital during the year of report.

19. *Statement No. VI.*—During the year of report, 32 companies ceased to work, against 14 of the previous year, and 7 companies that went into liquidation in previous years submitted their final reports during the year.

20. The increase in the number of companies that ceased to work was due to the failure of a number of trading and insurance companies that were started by inexperienced persons without sufficient funds, or knowledge, during the last few years of *swadeshi* mania.

21. *Statement No. VII.*—One company limited by guarantee ceased to work during the year.

22. The total amount of fees realized during the year of report was Rs. 30,657-8, against Rs. 23,868-4 of the previous year :—

	Act VI—1882.		Act XXI—1860.	Act VI—1912.
	Rs.	A.	Rs.	Rs.
Registration fee ...	29,760	0	450	20
Searching „ ...	185	0	14	...
Copying „ ...	212	8	16	...
Total ...	30,157	8	480	20

23. The total expenditure cannot be correctly shown, as the office of the Registrar of Joint-Stock Companies remains amalgamated with that of the Registrar of Assurances, Calcutta. The cost of the sanctioned establishment for the office of the Registrar of Joint-Stock Companies, Bengal, was Rs. 1,162-13-10 during the year; but the establishment being quite inadequate, assistants under the Registrar of Assurances, Calcutta, had to be employed continually for bringing up arrears.

24. The following table shows the number of papers registered during the year :—

Memoranda of Association	146
Articles ditto	113
Notices of situation and removal of registered offices ...	187
Balance sheets	744
Summaries of capital and lists of shareholders ...	593
Special resolutions	76
Miscellaneous papers	123
Total ...	1,982

25. *Inspections.*—From reports received from Magistrates of districts, it was found that the provisions of Section 69 of Act VI of 1882 were generally complied with, though a few cases were brought to light in which the provisions of the above-mentioned section were infringed. A few inspections were made by me in Calcutta, and in some cases omissions were noticed. But as the law was not properly understood, and there was no intention to disobey the same, the Managers and Directors were simply warned.

26. *Prosecutions.*—During the year of report four prosecutions were made under Section 69 of Act VI of 1882. In one case the accused was convicted and fined Rs. 5, and in another the charge had to be withdrawn, and in two cases the accused were acquitted. Under Section 74 of the said Act, two more prosecutions were made, and in one case the accused was fined Rs. 300, and in the other two months' time was allowed by the trying Magistrate to the accused to enable them to file the necessary papers.

27. No company availed itself of the provisions of the Indian Companies Branch Registration Act, IV of 1900.

28. The following societies were registered under Act XXI of 1860 during the year :—

1. The Dinajpur National Institution.
2. Arya Siksha Sammillani.
3. The All-India Chandravanshiya (Rawani) Kshatriya (Descendants of Maharaja Jarasandha) Mahasabha.
4. The Church Missionary Society in Calcutta.
5. The Rangpur District Agricultural Association.
6. The Khalsa Dewan, Calcutta.
7. Chinese Association of Calcutta.
8. Catholic Association of Bengal.
9. Anglo-Indian Empire League, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Preliminary Forecast of the Sugarcane Crop of Bengal, 1913-14.

(NOTE.—On an average of the five years ending 1911-12, the area under sugarcane in Bengal represents some 10·0 per cent. of the total area under sugarcane in British India.)

Character of the season.—The weather conditions of the province as a whole have not been very favourable. In Eastern Bengal the weather was not altogether unfavourable ; but in Western Bengal and in the districts of Dacca, Faridpur and Bakarganj an excessive rainfall in May and June did a considerable amount of damage to the crop and also retarded its growth to some extent. Conditions, however, have improved lately and a fair crop may therefore be expected.

Area planted.—The area planted with sugarcane this year is estimated at 223,800 acres against 221,800 acres last year. The normal area under the crop is reported to be 250,300 acres.

Outturn.—According to the estimates of the district officers the total outturn of the crop for the province works out to 87 per cent. as against 91 per cent. last year.

CALCUTTA,
The 18th July 1913.

J. R. BLACKWOOD,
Director of Agriculture, Bengal.

Preliminary Forecast of the Sugarcane Crop of 1913-14.

District.	Estimated normal area under sugarcane.	Estimated area under sugarcane.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the planting of the setts generally commenced this year and whether that date was early, normal or late.	Remarks by District Officers.	Remarks by Director.
		Last year.	This year.	Last year.	This year.			
	Acres.	Acres.	Acres.					
24-Parganas ...	5,100	3,700	2,800	100	75	November	The weather at the planting time was favourable only in the Basirhat subdivision, but was not so in other subdivisions of the district. The recent excessive rain has caused much damage to the standing crops and the outturn will be less than normal.	
Nadia ...	7,900	6,800	6,000	92	87	February. The date was normal.	The decrease in the area this year is due to want of rainfall at the planting season. Recent heavy rains have not been favourable to the growth of the crop	
Murshidabad ...	3,600	3,300	3,300	92	75	From November to May. Normal.	The character of weather was not favourable. There was want of rainfall at the planting season and subsequently. Excessive rainfall and flood in June have submerged the plants of a considerable area. For the above reasons the growth of the crop is not good. It is too premature now to make a fair estimate of the outturn. If there be no further calamity, a nine annas outturn on the average can be expected	
Jessore ...	6,600	3,900	3,900	100	83	February	The weather at planting time was favourable, but the recent heavy rain was unfavourable for the growth of the crop.	
Khulna ...	1,300	1,300	1,300	100	92	First week of February Normal.	The weather at the beginning was hot and afterwards much rain fell. The effect of the weather was not good to the cultivation and growth of the crop.	
Burdwan ...	25,800	24,400	22,700	108	92	End of February to first week of May. Normal in Asansole subdivision and late in other subdivisions.	The decrease in area this year of about 1,700 acres is due to the excessive rainfall at the planting time in the Kalna subdivision. In other subdivisions, however, the character of weather at planting time was favourable at first but afterwards owing to excessive rainfall the cultivation and growth of the crop was bad. The outturn therefore is expected to be below normal.	
Birbhum ...	9,000	[illegible]	7,000	92	67	May and June. Late	The decrease of area planted this year as compared with the area of last year is due to unfavourable weather. Untimely setting in of monsoon and excessive rainfall affected the cultivation and growth of the crop.	
Bankura ...	13,000	11,000	10,500	92	83	First part of May. Normal.	The decrease in area this year is due to the excessive rainfall at the planting season. The excessive rainfall in June has affected the growth of the crop, and the outturn is expected to be below normal.	
Midnapore ...	3,000	3,000	3,000	100	117	Middle of March ...	The character of the weather at the time of sowing was fair, but since then there has been heavy rainfall, which is likely to affect the outturn	
Hooghly ...	7,900	6,900	6,300	97	68	Middle of March. Normal.	The decrease in area is due to unfavourable weather at sowing time. The character of the weather was not favourable to the growth of the crop, and the heavy rains from the beginning of June have damaged the crop considerably.	
Howrah ...	8,500	6,700	4,800	100	75	Beginning of January. Normal.	The decrease in the area cultivated this year was due to the cultivation of jute crop, which fetched a high price last year. The weather was favourable at the planting time, but afterwards heavy rainfall has retarded the growth of the crop.	
Rajshahi ...	13,000	13,200	13,300	75	76	End of January to March. Normal.	The character of the weather at planting time was favourable, and its effect on the growth of the crop was good.	
Dinajpur ...	25,000	29,900	29,900	81	84	Middle of March. Normal	The increase in area cultivated this year is due to favourable weather at the time of sowing. The character and effects of the weather on the cultivation and growth of the crop were favourable.	
Jalpaiguri ...	5,900	4,800	4,300	85	80	Middle of February. Normal	The decrease in area planted this year is due to unfavourable weather at the time of planting. The character of weather was not favourable at planting time but it turned favourable after a few weeks. The effects of the weather on the cultivation and growth of the crop were fair.	
Darjeeling ...	1,200	100	100	75	75	Last week of March. Normal.	The character of the weather at planting time was not favourable but it was fair afterwards. The effect of weather on the cultivation and growth of the crop was injurious for want of timely rainfall.	

District.	Estimated normal area under sugarcane.	Estimated area under sugar ane.		Estimated outturn as a percenta e of the normal yield per unit of area. 		Last year.	This year.	Last year.	This year.			
	Acres.	Acres.	Acres.					
Rangpur ...	20,500	13,100	14,000	100	100	Last week of February. Normal.	The character of the weather was unfavourable at the time of planting for want of rain but it was better subsequently The effects of the weather on the cultivation and growth of the crop was favourable.	
Bogra	20,000	20,000	20,000	70	70	Latter ha f of March and the beginning of April. Late.	There was paucity of rain at planting time, but subsequently heavy rainfall continued for some time. The absence of rain in the beginning retarded the growth of the crop to some extent.	
Pabna	10,000	10,000	10,000	100	100	Middle of April. Normal.	The weather was favourable at planting time. The rainfall was excessive afterwards. There is no reason to apprehend damage, as the cultivation is made in well-drained fields after years of trial.	
Malda	300	300	300	100	100	April. Normal ...	The cultivation of the crop is gradually increasing. The weather was favourable from the time of planting, and an average crop is expected.	
Dacca	21,100	15,900	17,800	92	97	January to April. Normal.	The increase in area planted this year is due to the fact that no plot in which sugarcane was ever grown has been left out from the cultivation. The weather was favourable at the time of sowing, but incessant rain in May and and June retarded its grow.h.	
Mymensingh ...	8,000	7,500	8,000	97	100	Middle of April. No mal.	The increase in area is due to favourable weather, and the condition of the crop is good.	
Faridpur ...	5,000	5,300	5,300	83	90	End of October. Normal	The weather was favourable at sowing time, but owing to continuous heavy rain in May and June some injury has been done to the crop.	
Bakarganj ...	11,000	11,800	18,600	95	95	February to April. Normal.	Last year's area appears to have been underestimated. Further enquiry is being made. Fair weather prevailed at planting time and the condition of the crop is good.	
Chittagong ...	6,400	5,000	5,000	90	95	March. Normal ...	The weather was good at planting time, but excessive rain fell afterwards. The condition of the crop is not altogether favourable.	
Tippera ...	4,000	4,000	4,000	95	95	January. Normal ...	The weather at planting time was good and the condition of the crop is favourable.	
Noakhali ...	900	700	800	90	80	March. Normal ...	Fair weather prevailed at planting time, but subsequent heavy rainfall affected the growth of the crop and hence the falling off in outturn is expected.	
Chittagong Hill Tracts.	500	1,000	1,000	80	70	Middle of March Normal.	The recent unusually heavy flood did considerable damage to the sugarcane crop. The growth of the crop is, however satisfactory.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 21st July 1913.

Summary.—During the week under review moderate rain fell all over the province. The prospects of standing crops are improving with the cessation of heavy rain. Slight damage from insect-pests is, however, reported from some districts. Weeding of jute and *aus* paddy on late-sown lands in the Western Bengal districts is still proceeding. Transplantation of winter rice is going on briskly and the harvesting of jute is in progress in the Eastern Bengal districts. The average price of rice has risen by about 0·80 per cent. as compared with that of the previous week. Scarcity of fodder is reported from parts of Jessore, Midnapore, Bogra and Tippera. Cattle-disease is reported from twelve districts.
